EDITORIAL NOTES

The politician who is not awake to the fact that the temperance reform, which has so surprisingly swept so many parts of our country is not merely a transient wave of popular excitement, is slow to discern the signs of the times. Still greater surprises are in store for him and his kind. Canada is destined to be free from the licensed bar.

A bulletin of the Inland Revenue Department, just issued, shows that the honey men of the country are an honest lot. Out of 141 samples of honey from the various parts of the Dominion analysed by the department, 135 were found to be genuine pure honey, 3 were doubtful, 1 was sold as a compound, and only 2 were adulterated. The report shows that strained honey sold in Canada can nearly always be relied upon as being the genuine article.

Westerners, who always take the brighter outlook, are already talking about the prospects for the coming season's crops. It can now be said with some authority that the acreage put to seed will be much larger than that of last year. The late arrival of winter enabled the farmers to plough all land required for the coming seeding and also enabled a large amount of new land to be broken by settlers who will this season put in their first crops. The year's immigration is already in full swing and promises to exceed all previous records. The western country is also expecting much benefit from the great activity in railway extension which will be carried out during the coming season.

Sir Edgar Vincent a prominent man of affairs in England, looks upon the recent financial depression as a development of inestimable value to the commercial future of Canada. "I was especially impressed," he says; "by the financial soundness of Canadian enterprises and the thorough, sure way in which that country is developing. I know of no greater tribute to the confidence in Canadian methods than the fact that the Canadian Pacific Railway has been able to borrow $10,000,000 at a shade less than four per cent. The Government itself pays a little more than three per cent., and by way of comparison we have the New York Central paying something more than five per cent."

In an interview by the News on Monday, Rev. Dr. Chas. Gordon ("Ralph Connor"), of Winnipeg, who is visiting his brother, Mr. Andrew Gordon, in Toronto, said: "The temperance wave is sweeping over Manitoba and the West. There has been a steady growth of temperance sentiment. This year the Government has introduced some very good legislation on the matter, the chief advance being the establishment of majority vote for local option and its repeal. Even with the three-fifths majority required the good work of the Royal Templars was winning way, and under the majority vote we expect a great sweep."—Speaking of Ontario, as one from a distance Dr. Gordon said: "I think Premier Whitney is making a mistake and doing an injustice in the three-fifths clause. He need not fear for enforcement. The enforcement falls not upon the majority of the people, but upon resolute men in the government. Law enforced by the people becomes mob law. The people legislate; the government enforces law."

The commission gave an estimate of the cost price of power delivered to the municipalities ready for distribution. The form of contract was not required to be submitted until after the by-law had been passed.

The commission did not furnish each corporation with estimates regarding cost of construction of buildings, machinery, poles, etc.

By-laws favoring the scheme were passed in 21 of the municipalities mentioned.

EAT WHAT YOU WANT.

But Find the Way to Digest What You Do Eat.

The first thing to do in the case of indigestion or stomach weakness is to strengthen the muscular walls of the stomach and intestines, so that they will care for the food that is eaten. In no other way can this be done as well as by taking a Mi-o-na tablet before each meal. This restores strength to the stomach muscles and stimulates the pouring out of gastric juices, then the food digests readily and you begin to get the full benefit from what you eat.

Use Mi-o-na whenever you have sick headache, heartburn, bad taste in the mouth, coated tongue, spots before the eyes, sleeplessness and the many other symptoms that are the direct result of indigestion.

A. T. Brown gives with every 50 cent box of Mi-o-na a guarantee to refund the money unless the remedy cures.

CANADA'S SURPLUS $13,000,000

The Finance Minister's Splendid Budget Brought down.

ENCOURAGING PROSPECTS THIS YEAR.

Ottawa, March 18th—Hon. W. S. Fielding held the attention of the House for an hour and a half yesterday afternoon in presentation of the budget. It is hardly necessary to say that the Finance Minister's statement was alike able and interesting. The House and the country, through the medium of the press, have come to expect this of him, and have not been disappointed.

Mr. Fielding, who on rising was greeted with prolonged cheers, noted the fact, generally understood now, that the public accounts in possession of the House were for the fiscal period of nine months ending March 31. This broken period brought about by the change in the fiscal year, made it somewhat difficult to make comparisons between nine months and the former fiscal years of twelve months. He was glad to say, however, that the results of the fiscal period were somewhat more favorable than he had anticipated. The estimated revenue on consolidated fund had been $65,000,000—it was actually $67,000,128—an excess over the estimate of $2,000,128. He had estimated the expenditure at $52,000,000, and it had proven to be $51,212,100, or $457,838 less than the estimates. The surplus he had estimated would be $13,000,000, but he had to report an actual cash surplus for the nine months of nearly sixteen and one-half millions or, to be exact, $16,427,107. In other words, the surplus for nine months was larger than the surplus of any other fiscal year in the history of Canada since confederation.

The total trade of Canada in 1907 was $257,168,902; in 1906 it was $617,904,052. Railway traffic in number of tons was 25,900,031 in 1907; in 1907 it was 63,866,183. Deposits by the people in the chartered banks in 1907 totalled $236,000,482; in 1907 the total was $630,070,000.

"SHOW ME" PROOF.

That Is What Hyomei will do in all Forms of Catarrh and Troubles of the Breathing Organs.

It's not a case of Hyomei having cured some one else but will it reach your own particular case. If it's Cold in the head, Catarrh, Bronchitis, Pneumonia, Croup or any affection of the breathing organs, A. T. Brown says yes, and will refund the money if it fails. No other preparation for the same purpose can successfully do this, because the Hyomei system of treatment is different from anything else.

You simply breathe and inhale its medication in dry air form which destroys the germ life that causes oppressed breathing, Nasal Catarrh, Throat Irritation and Lung Troubles. It brings to these suffering organs the balsam laden air they would get in the Pine and Eucalyptus forests. The air that stamps out Bronchial troubles.

The prince of entertainers Marshall P. Wilder says: Hyomei is easy to to use, and swift to cure. It insures against coughs and colds. It gives you pure air and kills the germ of disease. It helps the voice.

We take pleasure in announcing that in all departments we are well prepared for the spring trade of 1908.

With regard to Millinery we wish to announce particularly that This Department is in full working order NOW, and that there will be no formal "Openings" this season. We have introduced this change for two reasons:

FIRST—In order to meet the demands of early trade.

Our object in making this change is to Insure Careful Attention to every order placed with the department and to increase the volume of business.

VALUES

The conditions of the commercial markets generally, are reflected in the Millinery trade. Values in almost all lines are much better than for some seasons past, and nowhere can better satisfaction be secured as regards Value and Style than in our Millinery Department.

New Methods

DEAR FRIENDS.—

On the first of March we purposed to close our books. We believe we can give you better service, bigger values and a larger stock to select from, save you money and in every way serve your interests better by concentrating our time, energies and capital to a Strictly Cash Business. Credit costs money in book-keeping, lost money, postage, stationery, loses, time on collections, etc. It divides up our capital, it divides up our time.

This time devoted to the study of value for you, this money applied to the giving to you of better values, will, we now appeal to you as a move in the right direction.

Our policy the "Right goods at the right prices" with liberal treatment to our customers, has for the past twenty-four years kept our business growing steadily year by year until now we find that to keep pace with our growing trade it is necessary to adopt new up-to-date methods. "To buy for cash, to sell for cash."

With our long experience in merchandising we feel confident that we can offer you the right goods at Money saving prices. Quality, Style and Prices will be carefully considered. Our stock is now larger and better than ever before. Shipments of new Spring goods are arriving daily, all of which have been bought in the best markets under the most favorable conditions at the best possible prices. Bring with you your city catalogues; if our prices are not as low or lower we will meet their price. All goods will be marked in plain figures.

We buy right, our expenses are less than the city stores. Why cannot we save you money? If you know that you could get better values right here at JACKSON'S, Georgetown, for less money, would you buy? Then let us prove that we can and will make good. You will find a comfortable, roomy store to shop in, over 9000 square feet of floor space, a carefully selected and well assorted stock to select from. It is an advantage to see what you are buying, what you are parting with your good money for. If goods are not satisfactory we will cheerfully exchange.

It will cost you nothing to investigate our goods and prices. You are welcome whether or not you wish to purchase. A visit to our store will not only interest you, but benefit you. If our goods, prices and service are not what you expect, tell us. This will help us and we will help you.

This is a fair proposition worth a trial. We trust that our past pleasant trade relations may be increased by the adoption of this "Twentieth Century Retailing System" which means buying goods at the lowest price.

Thanking all our friends and customers for their liberal patronage and in the anticipation of seeing you all more frequently than before, I remain

Yours for Mutual Benefits,

J. H. JACKSON, Georgetown.

The Old and Reliable Granite and Marble Dealers.

WE are manufacturers and direct importers of all kinds of Monumental and Headstone work. We sell direct to our customers at wholesale prices, thus saving our customers 40 to 50 per cent. We have the best appliances and the only mechanics in the Dominion who can operate pneumatic tools properly. We can give references from hundreds of our customers in Toronto and other places, where others have to stand law suits to collect. We have the largest and best stock of Granite in the Dominion, or more than any three dealers in the West. We are legitimate dealers and employ no agents, and do not annoy or pester owners by sending out ignorant agents to collect orders—we employ mechanics only, and defy competition.
