A recent amendment to the Quebec License Law prohibits license holders under a ponalty of (2) or a month in jail, from cashing or exchanging cheques, employer's certificates or pay alips. A prominent government official porter regarding the new clause, stated hat in factory towns and cities such a law was necessary, in fact essential, to the families and those depending on the workingmen. He went on to show that in many cases factory men who were addicted to drink simply went t the hotel or saloon the minute that they received their wages and stayed there gotil their cheque was all spont Such an amendment would be most salmary in the province of Ontarlo as well. In Acton for Instance, dozens of the checks paid at the tanneries for wages reach the banks through the l' cal hotels.
