COUNTRY. At Rockbridge on Thursday, Sept. 10th, Mrs. J. W. Dyer, aged 70 years.
HARRY. At Rockbridge on Friday, Sept. 10th, Harry Weston, wife of Charles H. Weston, aged 70 years.

The Acton Free Press.

THURSDAY, SEPTEMBER 17, 1908

EDITORIAL NOTES

Hon. Rodolphe Lemieux, Postmaster-General, accompanied by Dr. Coulter, his deputy, have gone on a visit to the border states to study the American system of rural mail delivery. His speech delivered recently in Quebec he held out the hope that the Government would be able to establish rural mail delivery in Canada at an early date.

An order of Council has just been passed raising the minimum money qualification of \$25 now required of all immigrants coming to Canada to \$50 for the period from January 1st to February 15th in each year. The doubling of the money qualification during the cold winter is with a view to restricting admission without independent means during the period when employment is most easy to obtain.

The Minister of Justice, in France, has prohibited the publication of photographs of criminals in the newspapers, and the press will be denied all matter for sensational stories by the police. The French Government believes that the notoriety given to criminals by the daily papers is the cause of a large portion of all the crime. It undoubtedly is. On this continent there is great need for just such a law as has been passed in France.

Dissatisfaction of the liquor traffic, an appeal for separation from Stanley and the exclusion from membership in Catholic societies of those engaged in the liquor traffic were the striking features of the resolutions adopted by the national convention of the Catholic Total Abstinence Union at New Haven, Conn., last week. The committee in opening called attention to the fact that this was the thirty-eighth annual convention when declaration is made now that "not in drunkenness and riotous living can any man make effective profession of the Catholic faith."

September crop statistics published by the Department of Agriculture estimate the Western wheat crop at 101,432,000 bushels, as compared with an estimate of 110,320,000 bushels at the end of July. This shows some falling off due to unfavorable weather conditions during the past few weeks. The average condition of crops for the Dominion compares favorably with those of last year. The estimated total yield of wheat for all Canada is 121,000,000 bushels, or 20,000,000 bushels of barley 40,000,000. The steady growth of the Western farming community is not forth by the announcement that during August over a million acres in Saskatchewan and Alberta have been taken up by settlers since the over-numbered sections were thrown open for homesteading.

ROCKWOOD

The two G. T. R. passenger trains that meet at Rockwood at 8:30 p. m. almost had a serious collision last Wednesday night. The train that leaves Guelph for Toronto at 8:30 p. m., known as No. 10, always waits on the siding at Rockwood for No. 9 from Acton to pass. That night No. 9 steamed into Rockwood a little earlier than usual and before No. 10 had gotten safely on the siding the pilot on the front of No. 9 struck the last parlor car of No. 10, driving the rear trucks of the car off the track. It gave the passengers of both trains a violent shock, while the people in the parlor car thought they were victims of a serious rear end collision. The car was set on fire, but the blaze was promptly extinguished and none of the passengers were injured.

The devoted wife of Mr. Chas. H. Harris died after only a few hours' illness of kidney trouble at her home here last week. She was a daughter of the late John Kitching, of Nassawaway, and a most useful and lovable Canadian woman. Mr. Harris and the little two-year-old son have the sympathy of all in their sad bereavement.

CREWBON'S CORNER

A gathering of some importance took place at Mr. Burlington's farm the other evening. The young couple, painted by the Reector, drove out and sat down to high tea. The table was elaborately, substantially and tastefully spread. After tea, the evening was spent in music and socializing, and ended up with a vesper hymn and a blessing. The Reector in behalf of the class and the Church thanked Mr. and Mrs. Burlington for their intense interest and hospitality, and for having made so many happy for that evening. Mr. and Mrs. Burlington replied in the warmest terms and wished to look forward to their coming back at some future time.

The drought of the past few weeks has parched the pastures entirely. The roads are in such a dusty condition one is almost suffocated while driving.

A number will attend the Guelph Exhibition this week.

Mr. Alex. Collyer has completed the remodelling of Mr. Nobbs' Mill at Norval.

Mr. and Mrs. M. Orowson are taking in the Western Fair at London this week.

Mr. W. Lamb spent Sunday with his friends.

Mr. John Cranston, Sr., of Saginaw, Mich., is visiting at his old home here.

Mr. and Mrs. Kit Snyder, of Toronto, visited at the home of Mr. R. Gibbons last week.

"Balada" Tea remains in favor year after year with enormously increasing sales, simply because it is always true to its high standard of quality.

THE BOARD OF EDUCATION
The School Buildings and Grounds
In Very satisfactory Condition

The Board met in regular session on Monday evening.

All the members were present; Geo. H. Agnew, Chairman, presiding.

Mr. A. E. Nicklin, who was elected to fill on the term of Mr. L. Francis, took his declaration of office and was given a seat on the Board.

The Committee on Finance presented their tenth report and recommended payment of accounts as follows:

G. T. R. Freight and duty on coal \$15.02

B. & W. Freight, teaming, coal, etc. 21.00

N. W. H. Repair and supplies 7.31

Postage \$20.50

The report was adopted.

Considerable discussion took place relative to matters of interest to the school and grounds at the opening of the schools. The Board adjourned at 6:30.

Moved by Rev. J. C. Wilson, seconded by John A. Moyle, that the Secretary be requested to secure from an official source the standing upon the different subjects of the pupils who attended the last departmental examination.

"Open House" meetings were made by the members respecting the very satisfactory condition of the school and grounds at the opening of the schools.

The Board adjourned at 6:30.

The system of rigid inspection established by the Immigration Department this summer along the international roads of Canada resulted in the turning over of hundreds of undesirable from the United States, who could probably have either become a public charge or would have added to the congestion of the Canadian labor market during the coming winter.

THE MINISTER OF JUSTICE, IN FRANCE, HAS PROHIBITED THE PUBLICATION OF PHOTOGRAPHS OF CRIMINALS IN THE NEWSPAPERS, AND THE PRESS WILL BE DENIED ALL MATTER FOR SENSOATIONAL STORIES BY THE POLICE. THE FRENCH GOVERNMENT BELIEVES THAT THE NOTORIETY GIVEN TO CRIMINALS BY THE DAILY PAPERS IS THE CAUSE OF A LARGE PORTION OF ALL THE CRIME. IT UNDOUBTLY IS. ON THIS CONTINENT THERE IS GREAT NEED FOR JUST SUCH A LAW AS HAS BEEN PASSED IN FRANCE.

Our Millinery Opening

WILL BE HELD ON

Thursday and Following Days

We suggest that every Woman and Girl in Acton make it a point to visit our show rooms at this all important time.

It was our intention to have our Fall Openings in new quarters, now being fitted on second floor.

We have been unable to live up to these expectations. The building is not complete; will not be ready before the 1st of November.

We must content ourselves with the old show room until the new is ready. This however, will not detract from life, character and unusual beauty of our new fall hat showing on Thursday.

We purchased this season the largest line of French pattern hats, the brightest, smartest and most comprehensive stock of millinery this store has ever seen:

To see the prettiest, cleverest line of millinery ever displayed in this city, attend

Ryan's Millinery Opening—Thursday, the 17th of September, and following days.

G. B. RYAN & CO., Guelph

"WE DO WHAT WE SAY."

DO YOUR EYE-GLASSES

wobble? Feel insecure? Drop off? Fail to relieve your eye trouble? If so, or if you do not see as well as you would like to, let us remedy your trouble. Examination free. Satisfaction guaranteed.

BUILDING DEMOLISHED.

Two Men Killed in Boiler Explosion

Gordon Huber of Huber's Corners, near Lynden, and William Hotig of Newton, were killed on Monday afternoon in a boiler explosion in an apple jelly factory at Huber's Corners. No person knows the cause of the explosion, as the two men were alone when it occurred. Neighbors drawn to the spot by the noise, found the scalded bodies of the two men lying in the field near where the factory stood. The building itself was blown to pieces.

The boiler which blew up was that of a second-hand engine. Both men were married and had families.

A good heart is worth gold.

These losses Ontario in this section of the country than other diseases together, and in a few years may sweep away a large portion of the population. It is a local disease and presented local treatment, prevention. It is incurable, disease and therefore requires constitutional treatment. Natural curative treatments by Y. C. Glazier & Co. are the only ones successful in the market. It is taken internally, externally, locally, and in the form of poultices. It is a local disease and therefore requires local treatment, prevention.
