House Furnishings stocks are full of beauty now-the many new lines recently added making this the broadest showing we have over made.

The result of painstaking buying is easily seen in every article of furnishing on our top floor, which is entirely devoted to this department. Here you will find small and roomsize rugs of all the best liked kinds, and you will not experience the slightest difficulty in matching any decorative scheme which you may have planned for, and this is equally true of our carpet stocks, many of which are produced right here in Guelph.

Our Curtain and Drapery displays offer a more attractive selection of heautiful new hangings than any previous showing.
