THOMAS C. WATKINS

CORNER KING ST., EAST HURON HAMILTON, ONT.

The Future of a Child is a matter of serious concern to every properly constituted parent.

A SAVINGS Bank account opened for your child when young, will—without serious demand on you—provide a fund for a college education when your child grows up.

The deposit of an occasional, or regular, small sum—with its added interest—makes possible a higher education, that might otherwise be beyond attainment.

Open a Savings Account for this purpose, in the name of the child—in trust. Teach the child to save, and to add its Savings to the fund. The money is under the parent's control, withdrawable only on the parent's signature, and it is unassailable by the creditor. It teaches the child the invaluable lesson of thrift, and, at the same time, ensures a completion of its education.

THE BANK OF HAMILTON specially invites this class of Savings Accounts, and the Manager will be pleased to consult with, and give any desired information to, parents desiring to open Trust Accounts in the names of their children.
