For many years Muskoka has been one of the most attractive sections of Canada for a summer holiday, and t this section the Editor and his family turned a couple of weeks ago for brief holiday. Muskoka is growing a popularity, not only with Canadlane but with thousands of people in the United States. On almost every lake the Stars and Stripes are to be seen, but now less prominently than the Union Jack, which is invariably given the place of honor.

The new road of Dan Mann and ble sompeer, William Mackenzle, The Canadian Northern Ontario, direct from Toronto, has made Muskoks points much more accessible to many touclate. Sparrow Lake to now only (so niles from the city, and Bala Park, where tourists embark on the steamers for the trip around Lakes Muskoka, Reseast and Joseph, is only 113 miles from Toronto. This new road in from Toronto has many attractive features en route. It traverges the pretty Don Valley, and then through a stretch of Ontario's most fertile farming lands. As Lake Simoo is approached there is even more variety in the outlook ; and at Beaverton, where the lake itself comes into view, there are all the marks of a developing summer resort of great popularity. From Beaverton onward the journey is a succession of discoveries. There is the Trent canal revenue of the Dominion, all of which | River that Champlain voyaged over nearly three hundred years ago, at trial and commercial activity through- the time he visited Lake Huron and the Indians after whom it is named. less and less noticeable, and an ideal region for the figherman, camper and cottager is entered. This district is not as well known to tourists as are other parts of Muskoks. Heretofere it has not been as conveniently reached, having no direct transportation facilities until the Canadian Northern Ontarlo Railway secured the right of way along the lake shore. Bathing is a popular pastimo and it is the daily practice of the paronte to have the children go in bathing with them and to teach them to swim, and at other times during the day to give them careful instruction in rowing the skiffs and in paddling the canoes. If similar pains were taken generally there would be fewer drowning accidents. There is good fishing right at the
