WHERE KITTY CATS HANG IN A HOW

There are trees where the kitty cats grow.
They hang by their tails in a row.
If they happen to fall,
They don't mind it at all.

For they land on their feet, as you know.

With paws so wagging by,
The little frogs are scared.

On the clouds to the sound
Of the lobsters devouring lobsters.

The birds all swim in the sea.
The wasp and the bumble bee.

If you caught a worm,
You might catch a chameleon.

It's strange, but the apples and pears
Live in houses with carpets and chairs.
They're rolling around,
With a clattering sound.

And the hopping and thumping
downstairs.

Ladies' Home Journal.

THE FIRST ALMANAC

The almanac, properly so called, in its origin, is not merely a device for keeping people in mind of the progress of the year. It is an attempt to show what destiny has in store for us as indicated by the position of the stars in any particular year, and, as according to astrological lore, the destinies of men are ruled by the different aspects of the planets, so also the human body is subject to the influence of the constellations through which the sun appears to pass in its yearly course. A French almanac of 1610 gives a diagram of the human figure surrounded by the signs of the zodiac, and indicates the various organs and members over which these signs have power, and thus for a guide provide auguries, or to show at what period blood may be let with safety. But the same almanac also gives directions sensible enough for the avoidance of the plague, which would not be found fault with by a modern fashionable physician.

Who would keep his body in health And realize the "infection of the flesh,"
Let him seek joy and sadness fly,
Avoid places where infections a-

nd chaotic joyous company.
A few examples exist of almanacs of this character before the invention of printing, although none, it is believed, earlier than the twelfth century. But some of the earliest specimens of printing are black printed German shot almanacs, which are chiefly concerned about blood letting. — Westminster Gazette.

CASTORIA.
The Kind You Have Always Bought
Cast. H. Fletcher

NOT BY THE SWEAT OF HIS BROW

The Knight had moved into a new neighborhood, and Mrs. Knight was wondering about at the breakfast-table as to the occupation of a certain neighbor. "Oh, I know who he does," said the bright-eyed four-year-old of the Knight household. "What?" asked mama. "Why, he takes up the collection at church!" — The Delineator.

There never was and never will be a universal panacea in one remedy for all ills to which flesh is heir. What would relieve one ill in turn would aggravate the other. We have, however, in Quinine Wine, when obtained in a sound, undiluted state, a remedy for many and grievous ills. By its gradual and judicious use the falшив systems are led into convalescence and strength by the influence which Quinine exerts on Nature's own restorative. It relieves those to whom a chronic state of morbid dependency and lack of interest in life is a disease, and by tranquillizing the nervous disposition and removing the irritability due to the action of the blood, which being stimulated, courses through the veins, strengthening the healthy, normal functions of the system, thereby making activity a necessary result, strengthening the frame and giving life to the digestive organs while naturally demand increased substance — result, improved appetite. Northrop & Lyman of Toronto have given to the public their superior Quinine. By the opinion of scientists, the wine approaches nearest perfection of any on the market. All druggists sell it.

TO KEEP LIGHT DRESSES CLEAN

Magnesia may be obtained either in powder or in square oaks, and is very effective in cleaning lace and delicate fabrics. Sift or rub it on parts to be cleaned, and lay away in a drawer where they will be unaffected for a day or so, and then wash them out. It is a very good plan to remove any dirt when putting away party dresses that have become slightly soiled. The magnesia absorbs the dust, and when you take the dresses out to wear them the next time they will be fresh and dainty. The magnesia is also effective, when applied in the same way, for removing grease-spots. — Women's Home Companion.

Proper attention to the hair and scalp is the best preventive of baldness. An occasional application of Bearine Hair Pomade keeps the scalp in healthy condition. It nourishes the hair follicles and supplements the natural oil of the head. Bearine not only prevents falling hair but stimulates new growth, 50 cents a jar at your druggists.

DAVIS MENTHOL SALVE

A simple effective remedy for many little ills as well as some that are not considered so important. It is especially useful in conjunctivitis with Jeunesse, Stebbins, and other eye medicines and cures recommended.

Burns, Bruises, Sprains, Sprains, as well as for insect bites, Cuts, etc., are easily treated with Davis' Salve, as well as for those that stay at home.

25¢ a box.

DAVIS & LAWRENCE, Montreal.

TOO MUCH OF A TONIC
When Mr. Churchill returned home from Chinchilla & Chinchilla's the other day he found his wife lying worn out upon the sofa.

"Nothing wrong, I hope!" he exclaimed.

"I'm afraid I shall have to stop that tonic the doctor prescribed for Tommy," Mrs. Churchill faintly murmured.

"Why? Isn't he any better?" asked Churchill.

"Oh, yes, but I think the tonic must be too invigorating. Why he has still down the bantams six times this morning, broken the hall lamp, two vases, a water jug and a looking glass, tied a tin can to the cat's tail and scribbled his name on the drawing room paper. Of course it's very gratifying, but I don't feel I could stand much more so I think I'll stop the tonic."

BIRD-LIKE

"Soon you will be flying through the air like birds."

"It has already come to pass," answered the wife expert. "Our similarity to birds is painful. We have had to apply for the passage of law that will keep reckless drivers from shooting at us." — Washington Star.

ON SALE EVERYWHERE. — There may be country merchants who do not keep Dr. Thomas' Electric Oil, though they are few and far between.

One may imagine that some other oil is just as good. There is nothing to go as a liniment or as an internal medicine in certain cases. Take no other. The demand for it shows that it is the only popular oil.

Undertake deliberately, but having begun, persevere. — Wren.

COULD NOT LIE ON HIS LEFT SIDE

Heart Would Stop.

Hundreds of people go about their daily work on the verge of death, and yet do not know it. It is only when the shock comes that the unexpected suddenness of the heart is apparent. There is only one cure, and that is

MILBURN'S HEART AND NERVE PILLS

They keep his body and undoes fly,

Avoid places where infections a-

nd chaotic joyous company.
