DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for particulars, free.

Take Hall's Family Pills for constipation.

—Lifebuoy Soap is delightfully refreshing for Bath or Toilet in hot weather. For washing underclothing it is unequalled. Cleanses and purifies.

Young girls frequently require a good invigorating and blood making tonic. For this purpose nothing equals Ferrovim, which is prepared from fresh lean beef, Citrate of Iron and pure old Spanish Sherry Wine. It soon brings color to the cheeks and strengthens the whole system. $1 a bottle.

The Methodist Pulpit

In the absence of Rev. Dr. Antliff last Sunday Mr. Sunderland Taylor preached in the morning, a very practical and impressive sermon, from John 12: 21. "We Would See Jesus." In the evening Mr. H. P. Moore occupied the pulpit and based a sermon on the harvest fields, from Ruth 2: 1. "And, behold, Boaz came from Bethlehem, and said unto the reapers, the Lord be with you, and they answered him, the Lord bless thee." Dr. Antliff will preach as usual next Sunday, morning and evening.

Sons of England Day of Sports

The Sports Committee of the above society are very grateful to subscribers to their sports fund and hope in a few days to be able to announce a date when the sports will take place. The public may rest assured that a good programme is in store for them. The premier attraction will be the great English runner, Mr. Alf. Shrubb. A properly appointed committee will continue the canvass so that ample funds may be assured for the success of the event. The object of the society in providing these sports is to secure a good contingent fund to assist their fellow-brothers and their dependants in any distress which may befall them. R. H. Evans is President of the society and Chairman of the committee.

A Popular and Prosperous Company

The annual statement of the popular and prosperous Sun Life Assurance Company appears elsewhere in the issue. The surplus distributed to policy-holders last year was $381,471.12 and the Company shows the phenomenal growth to $110,517,740.89, an increase of $14,000,000 in the past five years. Policies are issued from $250 up, payable half-yearly and yearly. The Sun Life offers exceptional advantages and various forms of policies attractive to those who are changing their insurance from the fraternal societies which are increasing their rates. Mr. W. H. Hamilton, Guelph, is district manager and Mr. J. R. Anderson, Acton, is the local agent of this favorite company.

Fairview Cemetery

There is hardly an hour of the day in fine weather when visitors are not to be seen at Fairview Cemetery. This beautiful resting place for our departed loved ones has many attractions. Many new monuments have lately been erected. A few days might now profitably be spent in clearing the gravel walks of weeds which have sprung up in considerable profusion since they were cleaned out in the spring. If the Municipal Officer is too busy to accomplish this other competent workmen should be put on. The Cemetery has ample revenues to its credit for all reasonable care. Comments are frequently heard that the Council has let another year pass without erecting the promised new cut stone and ornamental iron gates and entrance. Plot owners suggest that the Council sink two or three well tiles, at different points at the edge of the central valley, so that water might be obtained for watering the plants and flowers which decorate plots and graves.

The Old Speight Saw Mill Gone

A well-remembered old-time landmark—the old Speight saw mill at the dam on the pond at the tannery—has during the past week been entirely removed. Messrs. Beardmore & Co. purchased from Mr. R. Sinclair, the owner, the remnants of this historic structure and removed it to permit of some permanent improvement to the tannery walls and roadway adjacent. This saw mill was erected by the Speight Bros. more than sixty years ago. It had one of the first metal water wheels ever brought to this vicinity and was equipped with an old-fashioned Muley saw. It was operated every spring for over forty years by the late John Speight and his son, Joseph A., and cut many thousands of prime pine, elm, maple and basswood lumber. The old Speight stone boats sawn in this mill were always popular and in demand and are still to be found on the farms of half a dozen adjoining townships. The mill frame was constructed from some of Esquesing's best clear pine. It's timbers were hewn by expert axemen. They were of large dimensions and the upper ones were still in excellent condition when removed.

Special Local Option Pioneer

The Pioneer of August 20th is a Local Option number, specially prepared for the information and inspiration of voters. It contains the text of the Local Option law; explains the meaning of that law, and sets out clearly the restrictions and prohibitions which it imposes. It gives particulars about voters' lists, voting, and other information concerning the carrying on of a Local Option campaign. There is in it summaries of the provisions for making the law effective, the penalties provided, the duties of law enforcing officials, the kind of evidence accepted, and other details concerning enforcement. It also contains many encouraging items of news concerning the progress of the temperance cause in general and the Local Option movement in particular, showing where campaigns are going on, and the outlook for the suppression of the bar-room evil. Special articles set out what has been accomplished in Local Option localities. It is a compendium of just such facts, figures and arguments as ought to be in the hands of every Local Option voter, no matter what his prejudices pro or con may be up to this time. This issue of the Pioneer has been made attractive by striking cartoons, stirring incidents, and other matter well adapted to attract attention, convince the judgment, and stir the consciences of the men and women upon whom rests the responsibility of decision in the coming contest in Acton and elsewhere.

LAST SATURDAY'S GAME

Acton Defeated Georgetown Last Saturday, Score 20 to 8
"Nuff Sed"

The Georgetown management sent up a team that was composed of a few seniors and a few more junior men, claiming that they had won the league pennant and did not have to win this game.

The Acton boys were worked up to the highest pitch and if the regular team from Georgetown had shown up the result would have been the same.

The largest crowd of the season was present and cheered the boys time and again for good plays made.

It is noteworthy to say that the games played here this season have been conducted in a very satisfactory manner and have furnished much satisfaction to both young and old.

Fine Esquesing Barn Burned

During the electrical storm on Monday the fine barn of Mr. Ed. Huffman, lot 11, 8th con., Esquesing was struck by lightning and together with this year's wheat and hay about 1000 bushels of old wheat was totally destroyed. The barn was struck just at noon and in a few minutes was a sheet of flames. Mr. Huffman will be a heavy loser as he only carried some $2,500 insurance.—Herald.

They Help Your Stomach Out

And Save You a World of Wretchedness

A stomach that cannot digest a good meal is certainly a sore trial. It has been responsible for almost everything in the way of human misery, up to suicide.

The trouble in most cases is that the stomach and other digestive organs lack vigor. Not enough of the juices necessary to digestion are secreted, nor does the stomach work up the food properly.

The worst of it is that there is not sufficient nourishment taken out of the food to restore the system's vigor, and the trouble goes from bad to worse. The stomach needs help.

"Little Digesters" meet the need exactly. One "Little Digester" after each meal will ensure perfect digestion, provided, of course, that the food is good and wholesome.

"Little Digesters" are guaranteed to cure Indigestion, and Dyspepsia, or your money will be refunded.

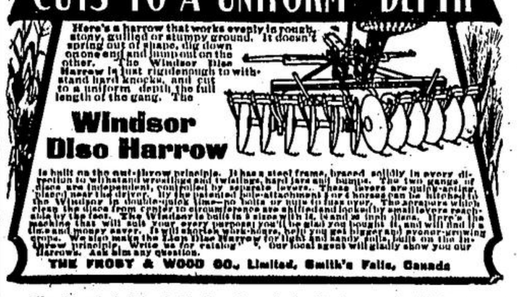
MILL ST. - HARDWARE - ACTON

CUTS TO A UNIFORM DEPTH



Here's a harrow that works evenly in rough, stony, mulled or stumpy ground. It doesn't spring out of shape, dig down at one end and jump out on the other. The Windsor Disc Harrow is just right enough to withstand hard knocks, and cut to a uniform depth the full length of the gang. The

Windsor Disc Harrow

is built on the cut-throw principle. It has a steel frame, braced solidly in every direction to withstand wrenchings and twistings, hard jars and bumps. The two gangs of discs are independent, controlled by separate levers. These levers are quite close together and the driver, by the simple but effective device of a horse-chain in the whiffletree (Windsor is double-quick time—no bolts or nuts to turn over), can adjust the discs from cutting to circumference are shifted and locked by small levers reached by the seat. Tom Windsor is built on a scientific plan, and as this machine that will suit your every purpose; you'll be glad you bought it, and will find it a pleasant money saver.
