THE PALL MILLINERY tive to the showrooms of Mesurs. Henderson & Co., found the millinery season already well under way and their staff exceedingly busy in auticipation of the Fall Pair next week. occasion was shown. The predomi- years, nating feature this season is large some very smart effects in the unaffer I the deceased was employed : toque shapes are shows. Duchess and Gainsborough effects are much sought after and frequently large feathers and and feather ornaments are the most popular trimmings for dressy bate. Large wings are being used in all colors particularly on roady-to-wears and suit hats and some pretty effects are secured in these by the use of black wings with sequin. A variety of materials are used in the crowns of the "made" hats, giving that very rich effect which is a feature of the millintwo of the most popular of these, with more staple shades of navy, brown, which include taupe, 10se, amethyst

The first three days of this week were of especial interest to the ladies of Acton and vicinity as these days ushered in the fall millinory season at Cameron & Moore's, Miss Heliafer, of Listowell, has charge of this department, assisted by Miss Mooney, of Brussels, and a close inspection of their display is a liberal education on the styles and fashions of the moment. The picture hat is one of the provailing atyles and some very tasty designs are shown in distinctly now ideas as the Marquise or Tincorn but, designed from the three-cornered hat worn in colonial days. The Russian draped turban is another new style that promises to be very popular this season. Moire silk is one of the leading materials used this season and some very choice styles are made or draped with this material. In trimmings . the two-tone color or double tone effect, is much in evidence this season. Taking them all in all, the now atylou are very modest and fow

BEAUTIFUL BOUVENIR NUMBER

The Montreal Standard's Special Number has come to hand, and is a most creditable production. It has a magnificent cover in colors, painted by one of America's test known artists. The number contains nearly 150 halftone plates devoted to subjects of general interest, and has two superb panoramic views of Montreal suitable for framing. The printing is first-class, and we understand that many thousands of the issue have been sent to friends abroad
