DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the eay. There is only one way to sure desfiness, and that is by constitutional remedies. Itselfness is caused by an inflamed condition of the insecus liming of the Mustachian Tube. When this tube is inflamed you have a runibling sound or imperfect hearing, and when it is entirely closed. Deafness is the result, and unless the luftsmusation can be taken out and title tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarri, which is nothing but an inflamed condition of the muscus surfaces. the mucous surfaces.

Twenty-five years ago it was difficult to sell spring wheat flour for pastry at any price.

People didn't want it-they were using soft, winter wheat flour, and saw no reason for changing.

But hard wheat flour was persistently pushed. The women tried it and succeeded with it,-to-day hard wheat flour is the favorite for Pastry as well as for Bread.
