STILL THE OLD (?)

Gee whiz,
I'm frizz,
I fear
My ear
Is froze;
My nose
Is stiff,
And if
I have a thumb
It is so numb
It's worthless now;
And then, oh, wow,
Each frozen heel
Has lost its feel.
They say
To-day
The mercury
Goes down to see
Where zero stayed.
I'm not dismayed,
For like as not
I'll soon be hot
With rage, I fear
For won't I hear
That chestnut dvear,
"Is it cold enough for you?"

—Cleveland Plain Dealer.

HOW IT WORKED

Recently a friend who had heard that I sometimes suffer from insomnia told me of a sure cure. "Eat a pint of peanuts and drink two or three glasses of milk before going to bed," said he, "and I'll warrant you'll be asleep within half an hour." I did as he suggested, and now for the benefit of others who may be afflicted with insomnia, I feel it to be my duty to report what happened so far as I am able to recall the details.

First, let me say my friend was right. I did go to sleep very soon after retirement. Then a friend with his head under his arm came along and asked me if I wanted to buy his feet. I was negotiating with him, when the dragon on which I was riding slipt out of his skin and left me floating in mid-air. While I was considering how I should get down, a bull with two heads peered over the edge of the wall and said he would haul me up if I would first climb up and rig a windlass for him. So as I was sliding down the mountainside the brakeman came in, and I asked him when the train would reach my station.

"We passed your station four hundred years ago," he said, calmly folding the train and slipping it into his vest pocket.

A thin juncture the clown bounded into the ring and pulled the centre-pole out of the ground, lifting the tent and all the people in it up, up, while I was on the earth below watching myself go out of sight among the clouds above. Then I awoke.

QUEER FREAK OF NATURE

There is in Siberia one of the strangest freaks of nature yet discovered. Near a place called Obdorsk is a salt lake nine miles wide and seventeen miles long, almost a little sea. And yet except in a few scattered places this great body of water is covered with a roof of salt, which is about three feet above the surface. The traveller who found it says that it was in summer time that he visited it, and when approached it looks like a vast plain of snow surrounded by fields of ripening grain. This contrast makes the sight all the more interesting.

An old man who remembers when the first salt crystals formed on the surface of the water, acted as a guide to the traveller. Every year the evaporation of the water left more crystals and after awhile they became a sort of crust covering nearly the whole surface. Several years ago the water found an outlet into the river Obi, and that lowered the lake's surface about three feet, leaving that space between the water and the salt roof.

The guide took the traveller down through a hole in the roof into a low flat boat that was resting in the water underneath. They both lay down on their backs in the boat and moved it here and there on the water, using the irregularities of the roof as a means of pushing the boat along. The effect as the sun shone down through the crystals was magically beautiful, its rays being refracted into all the hues of the rainbow.

IT WAS COLD TEA

It was a prohibition country. As soon as the train pulled up, a seedy little man with a covered basket on his arm hurried to the open windows of the smoker and exhibited a quart bottle filled with rich dark fluid. "Want to buy some nice cold tea?" he asked, with just the suspicion of a wink. Two thirsty-looking cattlemen brightened visibly, and each paid a dollar for a bottle. "Wait until you get outer the station before you take a drink," the little man cautioned them. "I don't wanter get in trouble." He found three other customers before the train pulled out, in each case repeating his warning. "You seem to be doing a pretty good business," remarked a man who had watched it all. "But I don't see why you'd run any more risk of getting in trouble if they took a drink before the train started." "Ye don't, hey? Well, what them bottles had in 'em pardner, was real cold tea."

Proper attention to the hair and scalp is the best preventive of baldness. An occasional application of Bearine Hair Pomade keeps the scalp in healthy condition. After La Grippe

"I had suffered several weeks with LaGrippe. I had pains in my head and eyes. It felt as though there was a heavy weight on the top of my head, until it seemed that my brain would burst. I was so nervous that I could not rest or sleep. When I dozed off I would awake with a sudden jerking of my whole body. Dr. Miles' Nervine, Heart Remedy and Nerve and Liver Pills cured me. A number of friends have since realized the same benefits."

MRS. ALVIN H. LOCKS,
Seabrook, N. H.

The after effects of LaGrippe are often more serious than the disease, as it leaves the system in a weakened condition that invites more serious troubles, such as pneumonia, etc.

Mrs. M. McCann, Debec Junction, N.B., writes:—"I wish to tell you what Milburn's Heart and Nerve Pills have done for me. Three years ago I was so run down I could not do my own work, so I went to a doctor, and he told me I had heart trouble and that my nerves were all unstrung. I took his medicine, as he ordered me to do, but it did me no good. I then started to take Milburn's Heart and Nerve Pills, and had only taken one box before I started to feel better, so I continued their use until I had taken several boxes, and I am now strong and well, and able to do my own work. When I commenced taking your pills I weighed 125 pounds, and now weigh 185 and have given birth to a lovely young daughter, which was a happy thing in the family. When I commenced taking Milburn's Heart and Nerve Pills, I could not go upstairs without resting before I got to the top. I can now go up without any trouble."

Bolivia.

Bolivia is famous for its silver, but also possesses considerable quantities of gold, which, however, cannot be extracted without great expense. In the seventeenth century an Indian near the town of La Paz found a mass of native gold, supposed to have been detached from the neighboring mountain by lightning. Bolivia is, on the whole, in a backward condition, political changes and internal conflicts having hindered the development of its natural wealth.

Make Each Animal Worth 25% Over Its Cost

On ¾ of a Cent a Day

Nobody ever heard of a stock feeder getting broke, or, MARKED, here or in winter, increasing the yield of milk two pounds per cow a day, or restoring run down animals to plumpness and vigor.

When you feed stock food to veal, cow, horse, swine or poultry, you are merely feeding them what you are growing on your own farm.

Your animals do need no more feed, but something to help their bodies get all the good out of the feed you give them so they can get fat and stay fat all year round; invoke prevent disease, cure disease and keep them up to the best possible condition. No "stock food" can do all these things. ROYAL PURPLE STOCK SPECIFIC can and does. It is

Not a "Stock Food" But a "Conditioner"

ROYAL PURPLE STOCK SPECIFIC contains no grain nor farm products. It increases yield of milk from three to five pounds per cow per day before the specific has been used two weeks. It makes the milk richer, and adds flesh faster than any other preparation known. Young calves fed with ROYAL PURPLE are a large at six weeks old as they would be when fed with ordinary materials at six months.

ROYAL PURPLE STOCK SPECIFIC "do up" run down animals and restores them to vigorousness almost magically. Cures lost vitality, worms, skin diseases and debility permanently.

Hon. Mr. Ryan, the horseman, says: "I have used ROYAL PURPLE STOCK SPECIFIC persistently across the line of The Ball (1907). I owned winner of any event on Grand Circuit in 1908, and Henry Winters, 2 (0z), brother of "All or Winters," winner of $36,000 in trotting stakes in 1907. That horse has never been off his feed since I commenced using Royal Purple Specific almost a year ago, and I will always have it in my stables."

Royal Purple

STOCK AND POULTRY SPECIFICS

One 25c. package of ROYAL PURPLE STOCK SPECIFIC will last one animal seventy days, which is a little over two thirds of a cent a day. Most stock foods in 50c. cans last but fifty days and are given three times as much. ROYAL PURPLE STOCK SPECIFIC is given but once a day, and lasts half again as long. A $1.80 pail containing four times the amount of the fifty cent package will last 200 days. ROYAL PURPLE will increase the value of your stock 25%. It is an astonishingly quick fattener, stimulating the appetite and the relish for food, assisting nature to digest and turn food into flesh. As a feed fattener it is a leader.

It will save many times its cost in veterinary bills. ROYAL GOLD POULTRY SPECIFIC is our other specific for poultry, not for stock. One 25 cent package will last twenty five hens 70 days, or a pail costing $1.80 will last twenty five hens 280 days, which is four times more material for only three times the cost. It makes a "laying machine" out of your hens summer and winter, prevents fowls from dying, and prevents disease. Every 25c. package of ROYAL PURPLE STOCK SPECIFIC or POULTRY SPECIFIC is guaranteed.

Just use ROYAL PURPLE on one of your animals and any other preparation on another animal in the same condition after comparing results you will say ROYAL PURPLE has them all beat to death, or else back comes your money. Ask your merchant or write us for our valuable 32 page booklet on cattle and poultry diseases containing also receipts for condition powders, etc. Sold by all up-to-date merchants.

ROYAL PURPLE STOCK AND POULTRY SPECIFICS.

If you cannot get Royal Purple Specifics from merchants or agents, we will supply you direct, express prepaid, on receipt of $1.80 a pail for either Poultry or Stock Specifics.

Make money selling as our agent in your district. Write for terms.

Sold by all up to date merchants.

HIS SMILE CAME OFF

In a Pennsylvania town, where the Friends abound, a prim old Quaker spinster recently attended the marriage of her grand-nephew, a young person who had in the course of his twenty-one years received much discipline at her hands. The old lady was at her best on this festive occasion, and, at a pause in the wedding breakfast, the happy bride-groom looked over at her with a beguiling smile. "Tell us why thee never married, Aunt Patience?" he said, teasingly. "That is soon told, William," said the old Quakeress, calmly. It is because I was not as easily pleased as thy wife was."

Every Meal Brought Agony

But Since Taking "Little Digesters" He Can Eat Heartily

From Osgoode Station, Ont., comes a story of five years of suffering from indigestion and Dyspepsia—five years of doctoring in vain—then "Little Digesters" and a complete cure. Mr. R. H. Ralph tells the story—his own story—thus:

"I have been a sufferer from indigestion and Stomach Trouble for five years. I had treatment from several doctors. I did not find a cure until I began using "Little Digesters."

"I can hardly describe how much I suffered at times. Every meal brought with it more or less agony and I seemed to have a complete distaste for food. I had almost begun to think my case incurable when I came across an advertisement in the papers about "Little Digesters." I decided to give them a trial. I am very thankful that I did so for I had not been taking them long when I found them helping me. I can now eat heartily and no longer feel pain and discomfort after eating."

Does Indigestion or Dyspepsia make your life miserable? Take "Little Digesters"—they will cure you or your money will be refunded.

Many patent medicines have come and gone, but Bickle's Anti-Consumptive Syrup continues to occupy a foremost place among remedies for coughs and colds, and as a preventive of decay of the lungs. It is a standard medicine that widens its sphere of usefulness year by year. If you are in need of something to rid yourself of a cough or cold, you cannot do better than try Bickle's Syrup.

Thousands can attest their great curative qualities because thousands owe their health and strength to timely use of this most excellent medicine.

How Spiders Undress.

It is an interesting sight indeed to watch a spider change his skin and one that will well repay any one for the time taken up by waiting for the little known generally happening event to take place. When preparing for the change the spider stops eating for several days and makes his preliminary arrangements by fastening himself by a short thread of web to one of the main lines of his snare, this to hold him firmly while he proceeds to undress. First the skin cracks all round the thorax, being held only by the fore part. Next the lower part of the body is uncovered, and then comes the struggle to free the legs. He works and kicks vigorously, seeming to have a very hard time of it. Fifteen minutes of continued perseverance, however, brings him out of his old dress, the struggle causing him to appear limp and lifeless for some time after it is finished.

Just Pleasantness.

Perhaps just pleasantness has not a very heroic sound, but the human heart that, knowing its own bitterness, can yet carry itself cheerfully is not without heroism. Indeed, if that human heart does no more than hold its tongue about its own aches and pains it has a certain moral value that the world cannot afford to lose. "Pleasantness" does not sound as well as self sacrifice or wisdom or spirituality, but it may include all these great words. And certainly just to start one's husband out to his work cheerily, to make the bobbledehoy of a son feel a gentler and sweeter sentiment toward women because of his own mother's sound, sweet gayety and strength, to help one's servants to put good humor and friendliness into their services—these things make for righteousness in the world.—Margaret Deland.

HEADACHE

Burdock Blood Bitters.

The presence of headache nearly always tells us that there is another disease which, although we may not be aware of it, is still exerting its baneful influence, and perhaps awaiting an opportunity to assert itself plainly.

Burdock Blood Bitters has, for years, been curing all kinds of headaches, and if you will only give it a trial we are sure it will do for you what it has done for thousands of others.

Headache and Constipation Cured.

Mrs. John Connors, Burlington, N.B., writes: "I have been troubled with headache and constipation for a long time. After trying different doctors' medicine a friend asked me to try Burdock Blood Bitters, I find I am completely cured after having taken three bottles. I can safely recommend it to all."
