All Citizens' Aid

The last issue of the Canadian Presbyterian says: "Xmas Church, Guelph, last Sunday Rev. H. E. Knowles delivered an eloquent and forcible sermon on the subject: 'What should be our attitude to the new law which comes into force this day?'. In emphatic language the speaker urged upon the large congregation the necessity of enforcing the Local Option by-law to the letter. Much depended upon Galt's success in this matter. There was no reason to believe but that the official in Galt would enforce the measure to the letter. He it was—the duty of every man in Galt, whether he supported the measure not, to give the official a hearty endorsement." Referring to the Local Option question the speaker said that Galt stood on the portal of a revolution. The heretofore banished from the town, it was easy to make this statement, but what wonderful things it meant to enlightened lives, cheerless homes and hungry children! It was impossible to tell of the wonderful blessing the banishment of the bar would confer upon young men, husbands, fathers, wives and mothers.
