Porkaninny Pancake Flour.
Maple Syrup and Honey.
Hobbrook's Favorite Punch Sauce.
Heinz's Pickles. (57 varieties)
Oysters and Fish.
Best quality Confectionery.

Poetry

AT THE TURN OF THE ROAD
Where the rough road turns and the valley opens,
I stood for a moment, my feet on the ground,
And the night with their grief and gloom,
And the light will smile and the stars will gleam,
And we'll lay us down in the light to dream.

NEGLECTED EYES

Will become injured eyes unless you give them proper attention now. We have studied and practiced Optometry for years. We will give you a free eye examination so that you will have eyes good and make up for the neglect of the past.

HER AUTO RIDE

ANABELLE Dayton in her smart little motor car passed at the summit of the hill and drew a sharp breath of appreciation. A line of distant hills indicated the way. In the foreground were green fields sloping gently down to sunny beaches. The roofs of the village pointed up among the trees, and a church spire glared like fire. There were white sails beyond the black drift of smoke from a passing steamer.

ROCKWOOD Chopping Mills

Flour - Oatmeal
Bran - Shorts
The best at lowest prices.
HARRIS & CO. Limited

EYES Tested Free!

We do accurate work and guarantee results.
Our Prices are very MODERATE.
See our new HAND BAGS before buying a Xmas Present for your wife.

Optician and Optician
Mill St. Acton

Some Notes from the Free Press of November 27th, 1910

Mr. J. M. Mason has opened a blacksmith shop in a part of Johnston's hotel shed.
Mr. J. M. Mason's new dwelling at Flower Avenue is nearing completion.
The ponds are now partially frozen over. A venturesome boy went in up to his waist yesterday morning.

MISSIO' PROCEPT

"Bishop Middleton, who in 1811 became head of the church in Calcutta, governed himself by the following rules:
1. Forbear against discouragements.
2. Keep your temper.
3. Employ leisure in study, and always leave some work on hand.
4. Be punctual and methodical in business, and never procrastinate.
5. Never be in a hurry.
6. Preserve self-possession and do not talk into conviction.
7. Rise early, and be an economist of the time.
8. Maintain dignity without the appearance of pride.
9. Manage something with everybody and everything with some.
10. Be guarded in discourse, attentive and slow to speak.
11. Never acquire a habitual or peculiar opinion.
12. Be not forward to assign reasons to those who have no right to ask.
13. Think nothing in conduct unimpeachable and indifferent.
14. Rather see that follow example.
15. Practice strict temperance, and in all your transactions remember the final account.

HOW STAMPS ARE GUMMED

Officials of the Bureau of Engraving and Printing aver that one of the most delicate operations connected with the manufacture of postage stamps is the gumming thereof.
When the sheets have been printed they are passed under a roller from which they receive a thin coating of gum, and then gradually over one of steam pipes until they are dried. Much care is exercised to get the layer uniform on every part of the surface.
The gum in the little vials, from which it drops, is made in small tin cans at an even temperature and thickness. Tests are frequently made of the warmth and humidity of the work-room.
But even with the perfection of mechanical processes, some allowances must always be made for the season of the year. For summer a slightly harder gum is used, because of the trouble occasioned by the sticking together of the stamps. In winter particular caution against the cracking of the gummed surface, through contraction is necessary. A third grade of the material for other seasons is known as "intermediate."

JUAN'S ALZHEBRA

Juan unstrapped her books and took out a pencil.
"I'd like to be polite, Mr. Marshall," she said, laughing at her father's look. "But I can't do that with you. You're a little bit of a brute."
"Like it?" Juan repeated vehemently. "I despise it. That's why I do it. If I gave myself the tiniest margin of success, I'd never get it done. And I'm so stupid—I am stupid in it—but I shall conquer my morals, anyhow."
"I see," the guest replied, rising. "Well, good luck to it—and you, Miss Juan. Perhaps you'll like it better after a while."
"Never!" Juan returned emphatically.
A month later three girls were looking at one another with faded eyes. They must have fasted, or perhaps, of course, but how? Corina's mother's Barbara's art? They had been studied only for accomplishments; they never had anything that they would need them.

THE LADIES OF ACTON MAY NOW GROW BEAUTIFUL HAIR

Mr. Hassard, backed up by the manufacturers of SALVIA, the Great Hair Grower, guarantee to grow hair.
SALVIA destroys Dandruff in ten days.
The roots of the hair are so nourished and fed that a new crop of hair springs up to the amazement and delight of the user. The hair is made soft and fluffy. Like all American preparations SALVIA is definitely prepared. It is hard to find an actress who does not use SALVIA continually. A large bottle for \$50.
