### EDITORIAL NOTES

The Rockefeller Institute for medical research, of New York, has just announced that the effects of anti-malaria drugs have been generally accepted by medical authorities throughout the world, and that the new remedy has taken its place with vaccine and diphtheria antitoxin as an improved agency for the protection of public health. This is a new triumph for medical discovery.

Mr. H. W. Hoyle, M. P. P., for North Ontario, has introduced a bill adding to the Ontario voters' list a section providing that the sheriff shall forthwith, after posting up the list of appeals in his office, deliver or transmit by post, registered letter, or parcel post registered, one copy of the list to each person affected, and further amending the act by changing the wording from "The Judge may receive as evidence" to "shall be receivable as evidence."

A new provincial milk bill will shortly be introduced to the Legislature, holding in view the present legislation. The basis of the bill will be authority granted to each municipality to tax all milk sold within its limits to the source of supply and to insist on certain standards of cleanliness in the stable and handling of milk before it reaches the consumer. Power will also be given to any municipal inspector to refuse admission of the milk until the regulations are compiled with.

The customs revenue of the Dominion is showing gains at the rate of \$1,000,000 per month as compared with 1910, and the publication of the monthly report confirms previous impressions that the prosperity of the country is well maintained. The collections for January were in excess of \$2,700,000, and if that rate of progress continues, the total for the calendar year will be \$70,000,000. The prospective loss through the rearrangement of customs schedules consequent upon the proposed reciprocity arrangement does not loom so large when its relation to the total revenue is calculated.

We are approaching a crisis in regard to temperance reform in the Province of Ontario. Local Option by-laws have been submitted in seventy-eight per cent. of the municipalities of the Province, and fifty-five per cent. are now free from the licensed liquor traffic. Many think the time has now come when county organization should everywhere be effected in order that the municipalities still under license, also to safeguard our Local Option victories, and to obtain legislation to give further scope for the Local Option principle.

PROGRESS.—In the course of the many joys of the Canadian people, an address later form the predominating son of Mr. G. McBratton, of the February issue of Roddick School, "The Ideal Life," Canada, published by W. Green, welcome.

On Monday morning at ten o'clock a stamp is not only enjoyed. Thomas Workman charged with giving, and Anderson with profanity, cannot be uttered. The language on the street cars, to be taken in Reeve-Hynes and Hynes-Woodstock, which have charge of the charge was sustained. The fees, the fees, the fees, and fees was unequalled. The quarterly committee who has failed to indulge in the Methodist Church pastime has much that Sunday. Rev. Dr. Ross to make life worth living. Those sermons very full, a wealth of articles on sporting. Four new members in this number. It is a fine right hand effort of Canadian outdoor life in option service to the many places now published.

BALLINAN.—The Board of Control of the city of most pleasant ever Montreal has decided to ask the Legislature to define the meaning of "farm land" as it is used in the city's agreement with the newly-arrived members of the Presbyterian Church. Forty or more of their constituents had a well-defined place in the community. They have an idea that not all the proprietors now growing a great reduction in taxes because their land being taken in the city. A little more strict interpretation of the farm land clause in the Ontario Assessment Act would mean a great saving of money to our Ontario municipalities. As a matter of fact the large areas of land in all our towns and villages are assessed now as farm land far below the fair market value of the property. A strict interpretation of the Assessment Act would allow the property to be assessed at full market value.—Tax Reform League.

The Montreal Witness has just celebrated its semi-centennial, and is receiving congratulations from all parts of Canada and elsewhere. The Witness has amply demonstrated that a commercial daily can uphold and maintain a high status in stirring moral, integrity, and righteousness. The Witness has a recognized power for progress in material things and advancement of religion, science, education, social, and moral reform, sound principles and righteousness in the political world. As an exponent of all that is true, good, honest, and elevating in journalism, the Witness occupies a first place among secular papers in the Dominion. From father to son this spirit has descended. The advertising columns of the Witness have never compromised the principles advocated in the editorial page. There have never appeared the inidious liquor, tobacco, and questionable medical advertising in its pages. The Witness is a paper which all Canadian homes may safely welcome.

### BIBLE SOCIETY'S ANNIVERSARY

Eloquent Address by Rev. A. Blair,  
B. A., with an Able Defense  
of the Word of God.

W. J. CHAPMAN, RE-ELECTED  
PRESIDENT

The sixty-second annual meeting of the Upper Canada Bible Society, held in the Methodist Church last Thursday evening, was well attended and the proceedings were very interesting.

In the absence of the President, W. J. Chapman, R. E., the chair was occupied by H. P. Moore.

The report of the executive was presented by Mr. A. T. Brown, Secretary. It showed the receipts of the year to have been \$41,70, which amount, less \$2,00 for expenses of last annual meeting, was remitted to the general treasury.

The officers for the year were elected as follows:

President—W. J. Chapman,  
Vice-President—Robert Wallace,  
Hon. Treasurer—A. T. Brown.

Executive—John Cameron, A. A. Wood, James McIntosh, Jno. H. Coleman, A. T. Mann, H. P. Moore, J. L. Warren, Jno. Robertson, Alex McDonald, J. E. Nicklin, J. R. Kennedy, H. E. D. Ault, Wm. Howett, W. Flood, R. N. Brown, Chas. Gamble, Hugh Wallace, G. A. Black, Neil McDonald, Alex Cripe, and the resident minister.

The following were appointed collectors: Misses Helen Warren, Lydia Bushell, Fern Brown, Edith Smith, Jessie Harvey, Harry Sinclair, H. A. Gordon, E. Lang, Jessie McGregor, Alice Brown, Rita Plank, M. Somerville, Ethel Sprout and Hazel Stewart.

The speaker of the evening was Rev.

A. Blair, B. A., of Nepean, Ontario. He was the Hon. Dr. Johnstone, whose path will be a more thorny one, and where a different principle in rules can prevent its passage before March 1.

SIGNS OF THE TIMES

Mr. KIRKON: I noticed in your excellent paper a few weeks ago pointing out the fact that the fines imposed here on those violating the liquor laws were quite inadequate, and much smaller than those in the States. The following facts will confirm the statement:

"Judge Landis, who imposed the famous Standard Oil fine, recently had before him thirteen liquor dealers charged with defrauding the United States of internal revenue. The fraud had continued for two years and had cost the government a loss of \$100,000.

The local commissioner of internal revenue was willing to compromise the cases and to accept payment of \$30,000. He requested Judge Landis

to add that he could not

negotiate with the secretary of the treasury. The judge answered that it might possibly be good business for the government to accept thirty cents on the dollar, but it could not be done.

He pointed out that such a procedure was a virtual invitation to men to commit fraud on the government. He then sent seven of the liquor dealers to the penitentiary, some of them for two years, and imposed fines of substantial amounts upon all of them. This district is to be congratulated upon a judge who is not willing that the government should compound a felony with men who violate the liquor laws. There is no reason why they should be treated differently from any other criminals."

The three-fifths inflicted is accom-

plishing just what it was intended to do by those who framed it. Those of us who have been long in this reform know and prophesied it would work out, and we have only published the results to the past five years confirm our contention.

It is a terrific responsibility which our government assumes in thus starting this reform—especially in view of the facts which are now apparent to every impartial citizen. But they will yet have to yield. The liquor dealers approve of the injustice, but in spite of it they see the writing on the wall and only hope this will postpone the day of its inevitable overthrow.

The numerous ads. of whiskey in newspapers, the display signs of various brands that adorn (?) the country-side, are indications that the battle is on earnest. Without any great or outstanding leadership, the people have waked up to the snare of the burden which they have been bearing for years and to the demoralizing effects of the drink traffic, and the war will not cease until this great fight to God and His church, the home and the community is annihilated by the bolts of an enlightened and free people.

TEMBERANCE.

Many people are unaware of the fact that in the Algonquin National Park, 1000 feet above sea level, at Algonquin Park station, a charming hotel, known as the "Highland Inn," is open during the winter months for reception of guests who desire to enjoy the pleasure of outdoor life. The pure air and the many winter amusements that can be enjoyed are just the thing to recuperate a run-down constitution and build the physical over-worked body.

Address "Highland Inn," Algonquin Park Station, Ont., for further particulars.

AN ENGLISH CHEMIST HAS DISCOVERED HOW TO GROW HAIR

In England the hairless have entirely abandoned wearing rate, which is due entirely to the new discovery.

It has been proven that hairs leave control, the increased "that they will positively grow hair." That they contain this long-hoped-for article is proven every day.

The Americans are now placing on the market a preparation containing the extract from Human leaves, which is having a phenomenal sale.

This preparation is called SALVIA, and is being sold with a guarantee to cure Dandruff and to grow hair in abundance. Being delicately perfumed, SALVIA makes a more pleasant hair dressing. Hazard, your "druggist," is the first to import this preparation into Acton, and a large, generous bottle can be purchased for 50c.

tea is the result of care and experience In blending—must be the combination of fine flavor, smooth strength and richness. Because all these elements are so generously included in Red Rose Tea it well merits the term "good tea."

### TARIFF BILL PASSES CONGRESS

Will Now Go to the Senate Where Reciprocity Rate Will be Decided

### COMMONS HAS NOT VOTED YET

Washington, Feb. 14.—Notwithstanding desperate warnings from the high protectionists and others that Canada has bunched the United States in the negotiations, the House of Representatives to-night passed by two to one the McDonald bill, a bill of reciprocal arrangement between the two countries. The bill will now rest with the Senate, where its path will be a more thorny one, and where a different principle in rules can prevent its passage before March 1.

SIGNS OF THE TIMES

Mr. KIRKON: I noticed in your excellent paper a few weeks ago pointing out the fact that the fines imposed here on those violating the liquor laws were quite inadequate, and much smaller than those in the States. The following facts will confirm the statement:

"Judge Landis, who imposed the famous Standard Oil fine, recently had before him thirteen liquor dealers charged with defrauding the United States of internal revenue. The fraud had continued for two years and had cost the government a loss of \$100,000.

The local commissioner of internal

revenue was willing to compromise the cases and to accept payment of \$30,000. He requested Judge Landis

to add that he could not

negotiate with the secretary of the treasury. The judge answered that it might possibly be good business for the government to accept thirty cents on the dollar, but it could not be done.

He pointed out that such a procedure was a virtual invitation

to men to commit fraud on the government. He then sent seven of the liquor dealers to the penitentiary, some of them for two years, and imposed fines of substantial amounts upon all of them. This district is to be congratulated upon a judge who is not willing that the government should compound a felony with men who violate the liquor laws. There is no reason why they should be treated differently from any other criminals."

The three-fifths inflicted is accom-

plishing just what it was intended to do by those who framed it. Those of us who have been long in this reform know and prophesied it would work out, and we have only published the results to the past five years confirm our contention.

It is a terrific responsibility which our government assumes in thus starting this reform—especially in view of the facts which are now apparent to every impartial citizen. But they will yet have to yield. The liquor dealers approve of the injustice, but in spite of it they see the writing on the wall and only hope this will postpone the day of its inevitable overthrow.

The numerous ads. of whiskey in

newspapers, the display signs of various brands that adorn (?) the country-side, are indications that the battle is on earnest. Without any great or outstanding leadership, the people have waked up to the snare of the burden which they have been bearing for years and to the demoralizing effects of the drink traffic, and the war will not cease until this great fight to God and His church, the home and the community is annihilated by the bolts of an enlightened and free people.

TEMBERANCE.

At a meeting of the Corners Weight Company on Monday evening it was decided to put in a set of Gurney's ten-ton weight scales. Mr. Edwin Cripe was given the contract of installing the new scales which are to be delivered about the first of April. The scales will be a great convenience to the farmers and others of this neighborhood. Mr. R. Simpson, representative of the Gurney Co., was at the meeting.

Those who have been interesting themselves in the effort to induce the G. T. R. authorities to put in a siding have not had much encouragement.

Mr. J. S. Smith, of the Supervalve Co.,

has agreed to help in the

effort to secure a siding.

Mr. J. S. Smith, of the Supervalve Co.,

has agreed to help in the

effort to secure a siding.

Mr. J. S. Smith, of the Supervalve Co.,

has agreed to help in the

effort to secure a siding.
