**NEWS OF LOCAL IMPORT.**

**Some of England's Annual Sermons**  
The members of Acton Lodge of the Home of England will parade of the Methodist Church next Sunday evening, when Rev. J. O. ANTLIFF, D. D. will preach the annual sermon to the lodge.

**5:30 and 8:00 for Sunday Fishing**  
A number of Italians, who had been working on the C. P. R. track near Hillsburg, appeared before Magistrate Hull on Monday evening last, charged with fishing on Sunday and trespassing on the preserves of the trout club. They were fined \$5 each and costs.—*Erin Advocate*.

**Our Frisky Town**  
Acton's streets and homes and home surroundings never looked prettier than they do just now. The generally tidy condition of the streets with the lordly maple forming leafy avenues in the residential sections; the carefully trimmed lawns and neatly laid out gardens all contribute their quota in making our town attractive.

**Ms. Gosh's Undertaking**  
Markdale lay undertaker to get ahead of a waitress in an hotel not ten miles away from here. After glancing over the menu he ordered some "licker." As the order was given in a local Goshon district he thought he had the queen of the tray gossamer. But she was wise, and brought him the order which was cold tongue.—*Pleasant Advance*.

**A High Altarman**  
On Friday evening John Walker, who has had the past achieved some "high" ambitions, reached possibly the highest eminence in Acton, when he climbed the flag-pole at the school, and adjusted a new pulley and rope, the old one having become incapacitated. He did it with such skill and many another who has reached high altitudes, that there is always room at the top.  
A Prospective Bride's Long Journey  
The Rev. and Mrs. W. H. Garham, of Cayuga, formerly of Rockwood, announced the engagement of their eldest daughter, Miss Frances Dunlop, to Dr. R. H. Barker, of Buenos Ayres, South America, formerly of Hurford. The marriage will take place in Buenos Ayres about the middle of June. Miss Garham left last week on her long journey to that South American city.

**It Runs in the Family**  
The British News of Canada in commenting on the closing meeting for the season of the Highland and Lowland Society, of Toronto, declares it to be the only place where the finest music, excellent piping of Master Willie Ross, who is the youngest piper in the city, and the latest pupil of Pipe Major Murray. Mention was also made of his sister, Miss Annie Ross, who is the favorite hostess dance there. A very pleasing feature of the evening's proceedings was the presentation to Miss Annie of a gold bracelet from the Society, in appreciation of her services.

**A Pigeon in Church**  
A pigeon inadvertently flew through an open window into the Methodist Church on Sunday afternoon when the members of the choir were preparing for the evening musical service. Several of the members, fearing possible diversion of attention during the service, vainly tried to persuade it to exit, but the bird eventually flew up through the ventilator into the attic. One of the trustees, in the gloaming after the evening service, crawled up in the attic, seized the bird, and handed it down to an attendant, who soon gave it free liberty, much to his own satisfaction, and probably to that of its owner, for it was a handsome bird.

**The Banks "Busted"**  
Some Collingwood residents find it rather trying to live in a dry town, and this fact has led them to purchase and purchase a few bottles of wet goods intending to supply a long felt need. Unfortunately, as the gentleman was about to board the train for home on Saturday, the basket in which he had his bottles of wet goods was carried over to work for the burglar, so the bottom fell out, and the bottles of joy emptied themselves on the platform. The owner did not stop to look at the remains of his purchase of wet goods, but hurriedly got up, carrying only a basket handle.  
The gentleman will test the strength of the next basket before filling it.—*Barric Examiner*.

**Mr. Donnelly's Little Perambulator**  
The interests of the Island Smelting and Refining Company, of Toronto, which occupies the site of a few years ago through the researches of Dr. J. S. Island in the back room of his dental office, for development of a process for extracting valuable metals from low grade ores, have been purchased by the Dominion Paper Co., for \$25,000. Under the conditions of transfer of the secret process for which Dr. Island searched for years, together with all apparatus, and the services of the inventor, the holders of stock in the Island Smelting and Refining Company will receive approximately seven millions for their holdings, which will represent an enormous profit on their original investment.

**Mr. A. E. Nichol at Saskatchewan**  
A letter from Mr. Nichol who went west early in the month, says he has taken a week or two to size up the situation at Saskatchewan. He sees great business activity there and estimates that about 500 new buildings are in course of erection. Prices of real estate have advanced to three times that paid for property in some cases within a year. Prices now asked for inside property almost stagger one. Material and labor are also climbing up in price. Rents are exceedingly high. A very ordinary home rents for \$25 to \$35 per month, and such properties as Dr. Gray's, on Frederick Street, or Mrs. E. A. Scott's, on Bowyer Ave., would there rent for \$50 or over. It is a great problem to accommodate all the people who are going in. The weather is good and crop prospects are counted as very encouraging. Mr. Nichol is arranging to build on a couple of lots he has in the city. He met Philip T. Holmes, formerly of the *Free Press*, and Prof. Lee, since he went to Saskatchewan. Both are doing well. The Y. M. C. A. has a campaign on to raise \$100,000 for a new building.

**THIS DISTRICT FAVORS UNION**

Unanimously Demanded the No Tameness Clause and Declared for a Uniform Marriage Law

**CONFERENCE DELEGATES AND COMMITTEES**  
The annual meeting of Guelph District was held in the Methodist Church, Acton, last Thursday, and had much interest in its proceedings. Rev. D. W. Snider, of Kloro, President of Hamilton Conference, presided over the session. The ministerial session opened at 9.30 a. m. and occupied a couple of hours.  
The resignation from the ministry of Rev. C. T. Currie, was accepted. Rev. J. Cooper Antill, D. D. who has spent forty-nine years in the active work, was upon his own application, recommended to conference for superannuation. The Rev. Dr. is much beloved by his brethren, and it was with feelings of sadness the request was granted. Application to Conference was made for an Italian mission in Guelph.

At 11.30 a. m. the joint session of ministers and laymen was opened, and from then until about 4.15, accepting the noon hour, business was pushed with despatch, as a large number of delegates had to leave by the 5.14 train.  
Rev. G. S. Applegate, Guelph, was secretary, and Rev. C. T. Currie, Hamilton, assistant on statistics. Reports from the various circuits were presented indicating the work of the year.

The laymen met in a private session and elected delegates to the annual conference which meets in Guelph, June 1st, as follows: H. Ralph Steel, H. O'Connor, John Crowe, H. K. Nelson, J. W. Oakes, Prof. Reynolds, Samuel Carter, A. McDougal, Guelph; J. McDougal, Kloro; G. G. Grove, Fergus; H. P. Moore, Acton; W. J. Paul, Rockwood; J. Y. Norrish, Nassagaweya; H. B. Ponnony; U. J. Leelie, Shilo; J. P. Townsend, Halwood; John Platt, Herward; K. Herwick, Ballinfad; Thomas Wray, Herward; Alvanester S. Terrell, Guelph; H. V. East, Rockwood; H. B. Callender, Guelph; G. W. Kelly, Guelph.

Later the various conference committees had assigned to them the ministers and lay delegates who are to attend conference at that South American city.  
Rev. R. H. Bell, B. D., Dublin St., Guelph, was elected to the Stationing Committee of Conference. Rev. D. W. Snider, Kloro; Dr. J. H. McArthur, Kloro; and J. D. Fitzpatrick, Guelph; and Messrs. H. Ralph Steel, Guelph, and H. P. Moore, Acton, were elected a committee to arrange for a simultaneous campaign on behalf of missions on the various charges of the district during the year.

Rev. Dr. Antill introduced a resolution to the desirability, feasibility and urgency of adopting the basis of union between the churches at present contemplating union. In warm, eloquent utterances he pleaded the case, although it was against his own personal preference, being a Methodist of the 5th generation, his father and grandfather being ministers, and the two earlier predecessors being class leaders, the succession coming down from Rev. John Wesley's line. But the great needs of the country and the marvelous opportunities being laid before all sentiment for what he believed to be the will of God. His address was followed with intense interest. Revs. G. Dawson and Dr. McArthur followed with strong addresses. The vote showed 28 for, and 1 opposed, one layman refusing because of insufficient information.

Revs. J. D. Fitzpatrick, and James Harris presented a resolution which was carried with some amendments, whereby existing marriage laws, thereby invading the sanctity of the home, by what is known as the no tempore divorce, and arguing for a uniform marriage law for the Dominion.

A resolution of thanks to the people of Acton for hospitable courtesies bestowed, was heartily adopted. The next meeting will be held in Fergus.

**Off for the Colonies**  
The following officers of the 30th Regiment, Indian Rifles, left on Monday with the Coronation contingent for London, Kag., Sgt.-Major J. L. Robinson, Hornby; Col.-Sergt. K. H. Ward, Norval; Corporal W. McLarnan, Campbellville.

**Million Voted \$25,000 Unanimously**  
So well did the qualified voters of Milton think of the industry that the Edwards Electrical Company, Limited, of Toronto, proposed to bring here, that on Monday, when the by-law guaranteeing their benefits to the extent of \$10,000 was submitted to them, it carried unanimously, not a single vote being recorded against it. Two hundred and twenty-nine votes were cast.—*Reformer*.

**Georgetown's Experiment With Oil**  
Georgetown is making the experiment of keeping down the dust on the road with oil. Four hundred yards of the main street was sprinkled in two days by two men with watering cans. Sixteen forty-two gallon barrels of oil were used. The oil coats the dust, and it is stated that three applications in the year will keep down the dust on an ordinary street. Dr. Sheard, of Toronto, contends that oil is cheaper than water and much more effective.

**The Horse That Got Two Years**  
Isaac Lottridge was tried before Judge Gorham last Friday on the charge of stealing a horse and buggy from Howard Beecoby, Elvington, last September. After the trial Lottridge got to Hamilton, where he went down a stable yard and took another buggy, leaving Mr. Beecoby's. He was charged by Crown Attorney Dick whether or not he had been in penitentiary he admitted that he had, for having a stolen horse in his possession, said he had not stolen it, but bought it from another man.—The Judge convicted the prisoner and sentenced him to two years at Kingston. On application of that time Lottridge will be paroled in the unexpired portion of his former sentence. He was out on parole, when he committed his second and third offences. Mr. Beecoby got his horse and buggy from Bramford shortly after Lottridge's arrest.

**LATEST CROP REPORTS**  
Much Improvements in the Past Week or So  
Reports of crop conditions in both Ontario and Western Canada show no improvement during the past week or so. Much-seeded rains have fallen, and there has been by no means too much moisture, a very marked betterment in the condition of the growing grain has resulted. Fall wheat did not come through the winter any too well and in some districts of Ontario it was necessary to plow it under. In other districts, however, the crop showed fairly good prospects and has since further improved. In the West seeding was very generally carried on under the most favorable conditions. Fine, dry weather permitted the work to be done thoroughly, and since then there has been a fairly good supply of moisture. It is estimated that the area put to seed shows an increase over last year of fifteen to twenty per cent.

**NEARLY DIED OF STONE IN THE BLADDER**  
GIN PILLS SAVED HIM  
513 JAMES ST., HAMILTON, ONT.  
"Five years ago, I was taken down with what the doctors called inflammation of the Bladder—intense pain in back and loins, and difficulty in urinating, and the attacks, which became more frequent, amounted to unbearable agony. I became so weak that I could not walk across the floor."  
"My wife read in the papers about GIN PILLS and sent for a box. From the very first I suffered much relief, and doing me good. The pain was relieved at once and the attacks were less frequent."  
"In six weeks, the Stone in the Bladder came away. When I recall how I suffered and how GIN PILLS made me healthy and able to work, I cannot express myself strongly enough when I speak of what GIN PILLS have done for me."  
"GIN PILLS are sold at your drug-store for 25c. Send me a box—6 for \$1.50. Sent me the price if you are dealer does not handle them. Sample box free if you write mentioning this paper. Money refunded if GIN PILLS do not give full satisfaction. National Drug and Chemical Co., Dept. A., Toronto."

**THE ORIGINAL GIN PILLS** Made by National Drug and Chemical Co. of Canada Limited, Toronto, are sold only in this box.

**POGITIVE ARRESTED HERE**  
By Dominion Immigration Inspector Murphy on Monday

Inspector A. J. Murphy of the Dominion Immigration Department, with the assistance of Constable Greenwood of Guelph, effected the capture of an Italian, wanted by the Immigration Department at Niagara Falls on Monday.  
Some time ago two men, Luigi Salvatore and Giuseppe Tito, residents of the United States, were admitted at Niagara Falls "in bond," to visit relatives in Canada. When the time of the bond had expired the men failed to show up, and Inspector Murphy was sent to investigate. He traced Salvatore to Acton, where, after considerable work, he arrested him. He took him to Guelph, "Giuseppe Tito was known to have a brother living in Guelph, and he was found working at the pipe works. The two Italians were accompanied by Inspector Murphy to Niagara Falls from which point they were deported to the United States.

**KODAK YOUR FARM**  
Suppose you are so busy this week that you will have no time to think about anything but seeding, but later when everything is commencing to grow, and the old homestead looks beautiful, would it not be nice to take some pictures of it and your favorite animals. Some day you may go west. How nice it would be to have pictures of the old place with your best sheep present for those who have to remain behind to receive some photographs which you have taken on the way out! The above is hinted enough for anyone. Pringle sets kodaks at \$2, \$3, \$4, up to \$25, and will show you all how to take pictures and develop your film, free.

Men will make their "better half" more happy by installing a MELOTTE SEPARATOR and will also have enough money from the extra cream secured by the Melotte to pay for "AMATITE" ROOFING for the house and barn in three years, even if you have only five cows.  
Mr. Smith Nailes tried three different Separators than the new MELOTTE, and on a 14-day trial with six cows he had \$25.75 more money than in the same length of time by the old method. This more than paid for his 60c lb. MELOTTE in one year.  
We give you a free trial without an order. The Melotte will pay for itself twenty-five times before it is worn out. Then why not buy now? Do not be fooled by the "just-as-good" kind.

**The Greatest Semi-Annual Sale of White**  
in our History is Now in Progress

THIS BIG COOL STORE is a mountain of white. It is decorated in honor of the second largest merchandise movement that is held here every year—the Semi-Annual Sale of Summer Whitewear.

This is a Sale for Every-body  
—For the June Bride who is putting the finishing touches to her trousseau this month.  
—For the young man who expects to travel and wants quantities of inexpensive shirts and undergarments.  
—For the mothers who wish to clothe their little folks as inexpensively and prettily as possible.  
—For the women who are having their sewing done at home and who will be glad to buy white goods, embroideries, etc., at advantage.  
—For the Business Managers of homes who wish to stock the family Linen Closet with new Fancy Flannels, and (after June 1st) Staple Linens at less than usual prices.

You cannot begin to appreciate the compelling nature of the under-Muslins, the Embroideries, the Linens and Laces that our buyers have brought from many strange and remote places of the globe for this sterling event—you simply must see them to appreciate them!  
As we have explained elsewhere, this scheduled event was put forward into May this year to enable those hurrying away to cool green places to fill every want at the very helpful prices we've marked on fresh new lines.  
In a few days the great Imperfect Linen, Sheetings and other stocks will have arrived—and then for a whole month (June) of the Free Hemming of Sheetings and Pillow Cottons—and many other attractions that will please and profit you.

**Come to SASKATCHEWAN THE GOLDEN**  
"The Land That Pays for Itself in a Single Season"—Prof. Thomas Shaw.

Want to get buying rent and have a fine farm of your own? Come to Saskatchewan! Want a farm fertile that the best crop pays for your land? Come to Saskatchewan! Want to live where health, school, churches and railroad? Come to Saskatchewan! Want a home surrounded by good neighbors, schools, churches and railroad? Come to Saskatchewan! Want to get out of a rat, to make a new start, to live where conditions are with you, not against you? Want a fair chance to make a fortune as good as yours as your dad had when Ontario was "out West"? Come to Saskatchewan!  
250 Farms Grow 40 Bushels of Wheat per Acre  
To the average man this will seem impossible, but it is done by farmers in the LAST MOUNTAIN VALLEY, in Golden Saskatchewan, and they don't work nearly so hard as their best farm tenants friends who stayed "at home." The average crop in this fertile valley is about 20 bushels per acre. The first year's crop clears the land! There are ten thousands of acres of this wonder valley—rich as any soil in the world—that have never been put under cultivation. They await but the touch of a plow to bring forth immense harvests of golden grain!  
Golden Saskatchewan!  
Through provided with ample water fall, the Last Mountain Valley is a land of almost continuous sunshine, where health abounds—a climate that builds vitality. The best of good food, and abundance of all that are unknown here.  
Railroads Galore!  
You don't need to live "farly miles from nowhere," either, or "out door" in a desolate, "back-woods" wilderness, as is often the case in the West. Here, where the railroads are already doing this district, more railroads build on here than in any other part of the world. In 1910, north of the Canadian Pacific, over 100 miles of new building was laid into the heart of the Last Mountain Valley.  
400,000 Home-seekers Coming!  
Over 200,000 home-seekers came to Western Canada. The present year, we believe, will see 500,000 more. We have 500,000 people settled on the "last mountain valley." Western Canada is the best agricultural section of the world, and the best prices are going up every day. Those who buy now will get the best of the advance.  
Our Prices Lowest—Our Terms Most Liberal!  
We have the largest acre of the finest unbroken wheat land in the world. Let us show it to you. We have a list of 1000 homes for sale, never before known. Our prices are absolutely low and our terms are small, easy payments. No other place in the world offers such a wide choice of homes and farms. Buy now or you will miss it forever!  
Always Deliver the Goods!  
Our belief in the Last Mountain Valley is not a "snake-belly" claim, as we know it. We know it when it was a grassy wilderness, when there was hardly a bush of wheat grown within its whole area. We say "wheat" in your year for which you will get the best of the advance. In East Canada, England and the United States, the best wheat-growing district is America.
