Kitchener's Hint.

How General Sir H. Smith-Dorrien obtained his appointment as com-mander at Aldershot is an interesting When General French's term was about to expire, the Belection Board reviewed the names of several generals without being able to find Kitchener, inviting him to mention' any generals holding commands in India who might be suitable for the Aldershot command. Kitchener cabled back: "Only got one-Smith-Derrien-too good to lose." The hint was taken, and Lord Kitchener lost the finest divisional general he ever

"Walf Moneth." January, the month with the Latin name, had a grimmer name in Saxon England. Richard Verstegan in his "Restitution of Decayed Intelligence In Antiquities," a curious book published in 1673, writes: "The month which we now call "January" our Saxon ancestors called 'wolf monat'—to wit, 'wolf moneth'—because people are went always in that month to be in more danger to be devoured of wolves then in any season else of the year, for that, through the extremity of cold and snow, those ravenous: creatures could not find other beasts sufficient to feed upon."-London

Browning's Modesty. The only son of Robert Browning. and his illustrious wife was a diligent art student when he grew to manhood. He was believed to have a promising career, but oned when the lather was showing a friend some of his son's pic-tures he expressed a fear that he might auter from the high hope built

"He is placed at a disadvantage," and Browning. Then he explained further, in a phrase as modest as any People expect much from him, you see, because he has such a clever mother.

Impurities of the Blood

Mr. Chas. Martin, Box No. 367, Kenora, Ont., writes:—"Three years ago, while working in Hamilton, Ont., I was taken sick, and no one knew what ailed me. Every bit of food I ate I vomited up and consequently I became very weak. My landlord told me that after that he thought at one time I was booked for the cemetery. Walking down street one day I happened to see Rurdock Blood Bitters in a druggist's window so went in and got a bottle. Refore I had taken half of it I broke out, all round my loins in spres. I showed it to my landlord and asked him what he thought of it. He told me it looked as if I had a heavy attack of chicken pox. Both he and his wife tried all they knew how to persuade me to stop taking the B.B.B., but it was no use. I had gotten so bad I thought it did not matter much whether I went under or not, so I got a second went under or not, so I got a second bottle and judge to my surprise to see the sores begin to disappear, and by the time I had taken three bottles I did not am of years of age and am able to do a day's work with the next man, thanks to B.B.B. or the best man in Hamilton.

LAYING BRICKS:

How Scientific Methods Raised the Standard of a Day's Work. There are now enduent consulting engineers who are engaged by industrial heads to study their establishments from top to bottom with a view to finding by scientific study the methods of working, accounting and handling labor which will improve on the old traditional lighits. Some extraordinary results have been attained. What scientific management means is admirably illustrated by the story of brickinging, as told by an expert. Ordinarity a brick mason makes

eighteen different sets of motions in

laying a single brick. He bonds over.

In the first-place, to pick up one brick. and in lifting it he lifts ten pounds of brick and about a hundred pounds of brick mason-the upper part of his own body. In laying 1,000 bricks in day's work he lifts 100,000 pounds of brick mason. This was an obvious waste of labor. So a common laborer was hired to put the bricks where the vastly more important than a great. masons would not have to stoop for them. Another thing is that when a mason picks up 'n hendmade brick, which is niways a little thicker at one alde than on the other, he tosses the Indignant Wife-"What do you brick up, turning it over until his before he puts it in place in the wall. The cure for this was to have all the bricks plied top up before they were brought to the masons. Then, further, every one has seen the mason tap his brick several times to settle it into the mortar-more waste of time. The cure was to make the morter thinner, so that the weight of the brick would settle it into the right position. This was scientific management, "motion sindy." It raised the day's work for the average brick moson from 1,000 up to 2,700 bricks a day and in individual cases to much bigher figures. The mason made only six motions where he used to

The change of dietary that come with spring and summer has the effect in weak stomachs of setting up inflammation, resulting in dysentary and cholers morbus. The abnormal condition will continue if not attended to and will cause an exhaustive drain on the system. The best available medi cion is Dr. J. D. Kellogg's Dysentery Cordial. It clears the stomach and bowels of irritants, counteracts the SALVIA, the Great Hair Tonic and Inflammation and restores the organs

DR. FOWLER'S Extract of Wild Strawberry For The Last Fifteen Years

HAS USED

Mrs. Duncan Molles, 62, 6th St. North, Brandon, Man., writes:—"It is much pleasure for me to say that I have used Dr. Fowler's Extract of Wild Strawberry in my home, every Summer, for the last fifteen years.

. "I have six children and have used

on every one of them. "I use it myself and so does my umband. Last summer my baby, seven months old, was taken very sick with Summer Complaint, and we thought he would die. We got a bottle of Dr. Fowler's Extract of Wild Strawberry and started giving it to him in small doses and in three days he got quite well, so we kept on with the medicine for about a week or more and he became as well

"My little girl, two years old, was taken very had with the same trouble. and I used two down of the same medicine and she was completely sured. "Myself and my husband think there is no other 'medicine so good for all bowel complaints.

"If anyone wishes to know what an expellent remody Dr. Fowler's Extract of Wild Strawberry is, I am willing to tall them what it has done for me." The Wicked Majority.

A new gardener had been employed n Long Island estate, This man van raking leaves off the lawn one fall day when a neighbor, passing by, ingalred of him, "Where's the gardener who used to work here?" "Dead, sir," was the reply.

"Dead!" anid the astonished neighbor Then, musing, he added, "Joined the great majority, sh?" "Oh, air," the gardener interrupted in n shocked roice, "I wouldn't like to may that. He was a good enough man

ns far ne I know." It Was Rather Unpleasant.

A constable in the municipal collechad a very unpleasant exprience quite recently at the hands of a couple of Austrian sailors. He was called upon to settle a dispute between the sailors and some ricksha coolies, and while executing his duty as a polic. man he was stabled in no less than ton different parts of the boly. Furthor police excistance was summoned. but before it arrived the injured constuble displayed considerable bravery and plockily held on to his arsailant. until the arrival of a foreign policeman .- Bhanghai National Review.

Ellen Terry's Too. When Ellen Terry was a little girl about ton years old she played Puck in "A Midsummer Night's Dream" and had to make her appearance through the stage floor on a trapdoor. The trapeloor was shut too soon, and one of the child's feet was caught Hip recented with pain, and Mrs. Charles Keen whispered to her: "Be a brave girl, Nellie. Pinish your part, and you shall play Arthur in King John." The trapdoor by this tine was open, but the child's toe was broken. She, however, pluckily pulled her-self together and finished her spe. ch.
