GIVING ORDERS TO THE MINISTER

A minister had just finished a little opening talk to the children preparatory to the morning service, when Mrs. Brewley suddenly realized, with all the agony of a careful housewife, that she had forgotten to turn off the gas from the oven, in which was nicely-cooked joint all ready for a

final rebeating. Visions of a ruled dinner and a sait weight?" noky kitchen roused her to immediate effort, and, burrowing a pencil much it weighs !" from a young man in front, she scribbled a note.

Just then ber bushand, an usher the church, passed her pew. With murmured "Hurry!" she thrust the note into his band, and he, with understanding nod, turned and tool the note to the minister.

Mrs. Brawley speechlessly saw the minister open the note and begin read, but her expression of dismay was fully equalled by the look of amazement and wrath on the good man's face as he read the words-"Go bome and turn off the gas."

THE BUSINESS WOMAN AND MARRIAGE

Marriage is as much the kleal profeedon of woman, to-day, asit ever was. Of the millions of women suployed in in stores, offices, factories, and profacelons, I do not think one in one hundred would besitate to exchange ber desk for a cradle and her typewrite for a sewing-machine, if the right ma offered them to her. As a matter of fact, nearly all of them do marry eventually; and statistics prove that such marriages, the union of two business or work together are often the happiest. This is because they understand one another and do not go into matrimony with merely a slight social knowledge of each other, to be distilusioned when the real facts of life present themselves.-Ftom Physical Oulture for October.

A WONDERFUL DISCOVERY

a boy .- John Wanamuker.

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Eam-link. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or a sore, such injury is insured against blood poison! Not one species of microbe has been found that Zam-Buk does not kill!

Then again. As adon as Zam-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Eam-Buk. They care nothing for the science of the thing. All they know is that Zam-Buk stops their pain. . Mothers should never forget

Again. As soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Kam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissue above it. This is Only the other day Mr. Marsh, of 101 Delorimler Ave., Montreal, called upon the Eam-Buk Company and told them that for over twenty-five years he had been a martyr to ecsema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to bim, and in a few months it cured him. To-day-over three years after his cure of a disease he had for twenty-five years—he is any return of the resema! All druggists sell Zam-Buk at 50c. box, or we will send free trial box if

During the Year 1909 POE townsite was recently placed on the market and already coper see lots have been sold, and many of these lots have already changed hands at a substantial increase in price. Most of these lots were purchased by representative business men throughout Canada, who are now profiting by their foresight. DID YOU PARTICIPATE in these hugh profits, or did you "pigeon-hole" the propositions submitted to you by your western friends for future consideration? In short, are you the man who made a profit or the unfortunate one who had the chance but did not possess sufficient judgment to recognise the opportunity or sufficient courage to close a deal? The man or woman entitled to sympathy is the one who says: "Pive or ten years years ago I had a chance to buy this or that property at \$100 or \$500, and now it is worth \$10,000." The average person sneers at the person who makes such a statement and says: "I would have bought and made that money." Are you going to say five years from now that you had a chance to buy a lot at Pos. Alts....
