EDITORIAL NOTES

BRAMPTON has secured Hydro-Ried trio power. There is no good reason why Milton should not apply for and get it too. Heveral of our manu facturers have said that they want i More will no doubt be glad to get and it would be a great attraction to others to come to Milton and help make the town the great manufactur ing centre that, with its other gree advantages, it should be, and will ! If its citizens bestir themselves. The Board of Trade should take this matunder consideration and bring before the Council. - Champion

A Cory of the sixth annual report the department of Moral and Social Reform of the Methodist Church, pr pared by Rev. T. Albert Moore, D. D. General Secretary, has been received at this office. It is a very comprehen wive document, and shows in very suc cinct form the principles, problems an programme of the department. Th dominant purpose of this departme le shown to be the applying of the teaching of Jeens to every moral rela tion and activity among the citizen of our country. Dr. Moore and his sa sociates have accomplished very sale tary results from their activities of the

MEN WHO PROPESS to be opposed bilingual schools say that it is necess sary to use French in teaching the fant classes in such schools. In the United States English is the only lan guage allowed to be used in the public schools. The republic is more British than Ontario in this, and the hosts of foreign pupils do not lose, but gain by it. They learn Roglish quickly, and are soon able to bold their own with the American pupils, while the victims of the Ontario bilingual schools are viewed the questions of the day and left bandicapped for life by ignorance. No other language but English should be allowed to be used in teaching in the public or separate schools of this. He spoke strongly on the matter of Beltish province. DESPITE the fact that more or les adverse reports have come from the west regarding the crop yield, the opinion of some authorities well cal culated to judge is not so pessimistic as might be imagined. It is interest ing to know that the Northwest Grain Dealers' Association still counts upon more than 175,000,000 bushels of wheat. Reports up to a week ago indicated that about 75 per cent of the wheat [anitoba has been threshed, about 50 per cent, in Saskatchewan and about 35 to 40 per cent. in Alberta. There has already been inspected at Winnipeg this fall nearly 50,000,000 bushels of trheat, and it is estimated that there is about 20,000,000 bushels in store in the country elevators, and few millions are also to transit. Owing to the fact that wheat prices have been high throughout the season and are lington, in a carefully worded speech likely to continue so, it is betimated farmers will profit largely even on all, the new leader, and bis platform their low grade wheat.

Convincing Address by Hon. Mackensie King in Which Premier Whitney's Course is Very Strongly Discounted

MR. R. D. WARREN AND MR. K. 3 CLEAVER ALSO SPEAK

That was one of the most logical, convincing and reasonable political addresses I aver listened to," remarked well-known attrees whose political predilictions are somewhat in doubt to the local leaders, after be had beard Hon. behalf of Mr. - Welter Harland Smith, were anxious to hear him again and as a result the hall was prowded. When he arose to speak he was accorded an ovation and the applause continued for several minutes. Mr. King was suffering from a very severs cold, but in quiet, clear-out and forcible terms he arraigned with tell ing effect the policy of neglect and inability which, he claimed, has charactorized the administration of Si James Whitney. He showed very conclusively at the ontset that there was no question of public policy before

the people of Ontario requiring the dissolution of Parliament more than a year before its term had expired. The utter lack of courage on the part of Sir James Whitney to come out fairly and squarrly and state where bestands on the bilingual school question, publie owner-hip, compensation to work ngmen and the land tax proposals was held up in strong contrast to the definite, luckly defined and progressive policy of Mr. N. The Important question of compen sation to injured workmen or their families is one of peculiar interest to the hundreds of workingmen in this town. They listened with intense in terest to Mr. King when he referred to compensations provided under British acts and the bills enacted in the Provinces of Nova Scotia, Manitobs and Alberta, since Sir James White ney went into power. Ontario, which formerly led the provinces in progree sive legislation, had enacted no laws action of Dr. Sproule, the Speaker of in this direction, and Sir James Whitthe House of Commons, in his course- | ney declined to declare what he was prepared to do in the matter, as he declined also in other important leaves.
