For many years, more than a quarter of a century in fact, the Fuce Prion has been the special mark of the whiskey interests of this community. Liquor bottles have decorated (?) our office window sills and door steps have festooned the office front and reposed in profusion on our private awn: whiskey barrels and beer kegs and cases have blockaded out doorways, all the free gifts from time to time of the liquorstrafficers or their sympathisers, and invasiably accepted by us as silly but harmless jokes.
