EDITORIAL NOTES

IT IS HOPED that the Council will endeavor to secure Hydro-Electric for our town.

IT IS VERY FEARED that all the members of the Municipal Council are in favor of the Hydro-Electric plan.

A BILL has been introduced in the Legislative Assembly of New York for the purpose of giving the manufacturer of automobiles the right to sell his product.

IN A REPORT received from the Canadian High Commissioner to the Department of Trade and Commerce at Ottawa, it is stated that one million barrels of apples from Nova Scotia have been sent to Great Britain this season.

IT WAS a very happy thought of Heave Hynds to have the samples of new Hydro-Electric street lamps installed for a week to give our citizens an idea of the improvement in street lighting to be effected when the Hydro-Electric system comes into operation in Acton.

A VERY LAMAR DEPUTATION interviewed the Dominion Government last week under the auspices of the Good-Roads Association of Ontario.

A TENNESSEE PAPER said in its last issue: "It is intimated in Washington circles that the result of the brief conference between President Taft and the Duke of Connaught, Governor-General of Canada, negotiations between the United States and Canada looking to a treaty of reciprocity may again be opened.

THE LATTER organization to plan a ban on the saloon business in the leading baseball league of the country, or at least the president of one of the strongest clubs of the National League say that such action will be taken.

WHEN THE ADVANTAGES of Hydro-Electric power for Acton were being discussed at the public meeting Monday evening a very important feature was overlooked.
