WEAK ACHING BACK Caused Her Much Misery.

Mrs. W. R., Hodge, Fielding, Sask., writes:—"A few lines highly recommending Doan's Kidney Pills. For this last year I have been troubled very much with nasty sick beadaches, and a weak aching back, which caused me much misery, for I could not work, and had no ambition for anything. My kidneys were very badly out of order, and kept me from sleeping at nights. I tried many kin s of pills and medicines, but it seemed dimost in vain. I began to give up in espair of ever being well and strong again, when a kind neighbbr advised me to try Doan's Kidney Pills, which I did, and am thankful for the relief I obtained from them, for now I am never troubled with a sore back or sick headaches. with a sore back or sick headaches.

Investments in Toronto Real Estate are Making Fortunes for the Investors

Toronto is the second largest city in the Dominion, and is destined to be the largest, and that within a short period of time.

Toronto Keeping Pace

I Notwithstanding the phenomenal growth of Canada's Great West and the enhancement of values which is the natural outcome of the rapid development of important centres in the West, Toronto is keeping pace with the best of them.

No Speculative Uncertainty

There is not the element of speculative uncertainty for the investor in Toronto properties that there is in many of the Western Sub-Divisions, for the reason that the city's great growth comes from an actual and rapidly increasing demand for properties for home sites and commercial purposes. Toronto is growing to be a great city—its population is increasing at approximately the rate of 40,000 a year.

A The Juggernaut of Commerce is forcing many an old residential section into a manufacturing centre and the city has been forced to find an' outlet room for expansion, room for the "homing" of its natural growth of population and the influx from outside centres. Toronto's Building Permits for the year 1911 amounted to over \$24,033,907; a great proportion of the amount was spent in the newer sections to meet the demand for new homes, and still the housing question is a serious one, and there is a cry for more houses. Permits for

Alexandra Gardens

ALEXANDRA GARDENS lie right alongside of BRIAR HILL PARK, one of the most charming properties yet added to the city's suburban. districts, and vies with it for desirability of locality and natural beauty.

Men of vision forms the future for this great section to the north of the city of Toronto as the natural outlet and relief for the congestion in the more central districts, and the wonderful development has warranted their foresight.

The acquiring of such desirable suburban sections as Alexandra Gardens, Briar Hill Park and other properties, the improvement of them and the almost incredible demand for homesite lots that has obtained has amply proven the wisdom of the election in the north.

Many lots have been purchased as homesites for permanent homes of the purchasers. To-day there are in Alexandra Gardens not a few of the most handsome residences erected in and around the city. and many more arel'in course of erection and contemplation.

¶ A number of lots in this desirable property have been chosen by investors as safe and sure investments, and the

record of actual transactions within the mast few months reveals proof that many investors have in a short period made a profit of one hundred per cent. and over on the down payment.

To date every investor who has desired to realize on his purchase has been able to readily do so at a handsome profit.

Alexandra Gardens is one of the most beautiful and desirable of the new residential sections to the north, wonderfully endowed by nature as the ideal homesite section, it is approximately 41/4 miles from the corner of King and Yonge Streets. The Metropolitan Radial Line takes you to the gates on Yongo Street, and a line will undoubtedly be continued up Avenue Road through Briar Hill Park to Alexandra Gardens. A further line is in contemplation which it is expected will run through the Bathurst Street Section of Alexandra Gardens

Alexandra Gardens are right up-to-date in improvements—gas, water, electric light, granolithic walks are available, has one of the best laid bowling greens in Canada, has its own club house, is convenient to two golf links, and to schools, churches, stores and banks. The restrictions in the Gardens and adjoining properties are such as to assure them as high-class residential sections.

EVERYTHING POINTS TO A GREAT DEMAND FOR LOTS AND RAPID DEVELOPMENT IN GROWTH AND IMPROVEMENT, and the PERMANENCY of these BEAUTIFUL HOME SECTIONS is ASSURED. The investment side of the Alexandra Gardens proposition, as in the Briar Hill Park

property, is undoubtedly a safe and sane one. and its own history a guarantee for handsome profits to the investor. Lots are now on WRITE, PHONE OR WIRE FOR the Market.

Then again. As soon as Zam-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such frieads of Nam-Buk. They care nothing for the science of the thing. All they know is that Zam-Buk stops their pain. Mothers should never forget

Again. As soon as Zam-Buk is anplied to a wound or to a diseased part, the cells beneath the skin's surface are so atimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Zam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts of the diseased tissue above it. This is why Zam-Buk cures are permanent. Only the other day Mr. Marsh, of 161 Delerimler Ave., Montreal, called upon the Zam-Buk Company and told

them that for oven twenty-five years he had been a martyr to ecsems. His hands were at "one time so covered with sores that be had to sleep in gloves.
