EDITORIAL NOTES

A DRY CONSTITUTION does not mean an unprosperous Canada. The experience of progressive dry towns all over Ontario contradicts that assertion.—The Globe.

THE MORMON propaganda in Sweden is about to receive its death blow, both chambers in Parliament having agreed to a bill expelling all Mormon missionaries now in Swedish territory and prevent the landing of any others in the future. The bill affects 100 agents from Utah who have been conducting a proselytizing campaign for the past three years.

THE COUNCIL has undertaken a somewhat ambitious scheme in deciding to spend \$10,000 in paving the streets of Georgetown. They have also acted wisely in deciding to make an inquiry as to the cost of a sewerage system. The problem of street improvement would be largely solved if sewers were constructed in some of the principal streets.—Gleaner, in Georgetown Herald.

DURING the recent session of the legislature two bills for amending the Assessment act were introduced. They both had for their chief object the lessening of the tax on improvements and the increasing of taxation on land. By agreement both were withdrawn on the understanding that the provincial commissioners would be appointed to take up the whole question of assessment in the provinces, and if possible, prepare a bill to be submitted to the legislature at the next session. Hon. W. J. Hanna will be the chairman of the committee.

The past month has seen the arrival at their destination of about two hundred British agriculturists who comprise the first party of carefully picked farmers for the G. E. H. "ready made" farms in Alberta. These new arrivals are expected to prove a great asset to Western Canada. All their lives they have been used to intensive farming and familiar with the methods of agriculture. It is likely that a powerful object lesson to the West generally. The average capital per family is said to be \$3,000 and the total capital represented by this party is upwards of \$100,000.

TOMORROW has decided in view of the Province-wide campaign to "Banish the Bar" to defer any local option contest in that city. The following resolution was passed last week at a largely attended meeting: "Whereas the supreme issue in our present Provincial election is whether and when the spirit of such polls as those for the referendum, etc., shall be carried out; therefore, we believe that local option campaigns have been trying to achieve under uphill conditions, for individual municipalities, this convention urges on the Ontario branch of the Dominion Alliance, the importance of selecting at the earliest possible date in every constituency candidates whose watchword will be to banish the bar; and, when standing with regard to all public questions shall be such as to command the respect of the community."—Gleaner.

BRITISH LETTER PRESS

The Woodstock Central Mills have been closed and its staff of employees thrown out of work.

A great electric "Highway" system, to cover a large portion of the Western Province, is reported to be in the works.

Four hundred Dutchmen from Wilkes-Barre, Pa., of the "Giant" Mine have left in body for Nelson, B.C., where they will take up fruit lands.

An alleged hired thief named Norman O'Farrell, who was "lodged" in a Toronto police station, suddenly escaped by digging up the floor with his fingers.

In the prisoners' corridor.

NAMATAWAWSA.

The Epworth League of Ebenezer Church has arranged for a concert to be given next Tuesday evening, 7th May. The following high-class talent has been engaged: Miss Grace Savage, soprano soloist; Guelph; Miss Gaspereau Doty, concertina; Bradford; Mr. W. G. Howell, basso, Guelph; and Miss Vivian Stevenson, violinist, Guelph.

Rev. Mr. N. Cooper, B.A., the popular pastor of Ebenezer's Circuit, has accepted an invitation to the Methodist Church, Durban, South Africa.

CHURCHES.

Among the graduates for the degree of B.D., of the Ontario Theological Seminary, at Guelph, the graduation on May 10th, Dr. J. A. Williams, boy, former pastor here. To him, his losses given the honor of delivering the annual oration.

Mr. McDonald, pastor of the Church here, is now settled among us for the summer months. He is an energetic worker and will be welcomed to the homes of the people. He expects to organize a bible class here next Sunday.

ALGONQUIN NATIONAL PARK

The improvements being made in connection with Highland Inn, situated in the Algonquin National Park of Ontario, 170 miles west of Ottawa, and 200 miles north of Toronto, on the Grand Trunk Railway System, are progressing and the addition of fifty rooms to the hotel will be completed and ready for occupancy of guests about June 1st. The accommodation of this popular inn will, when the spur is finished be for 300 guests.

Miss Whistler Pilkington has returned to Toronto to complete her course in stenography.

Miss M. Rose, of Acton, is visiting friends this winter.

Miss Linda is the author of a day letter to the editor of the *Acton Star*, Mr. T. W. Treadwell, of Ireland. Her mother, Mrs. Treadwell, is convalescing after having undergone a long operation.

Mr. and Mrs. Marshall have been seriously ill, but are now recovering.

Miss McFie has recently recovered from her recent illness.

BEARDMORE BY-LAW PASSED
The Hydro-Electric Contract Signed by the Mayor and Clerk.

A SMALL DOCKET OF ACCOUNTS
Council met on Monday evening in regular session.

Members present: Reeve Hynde, and Councillors McDonald, Bell, Heath and Cooper.

The Committee on Finance presented their audit report and authorized payment of the following bills:

G. H. Hynde, Esq., to Toronto, \$2.50
J. C. Hill, weighing scales, .30
J. D. Anderson, carriage, .30
Action Free Press, .05
Robert Slyer, work at Cemetery and streets, .75

This report was adopted.

A letter from Messrs. Beardmore & Co., explained that in consideration of closing and conveying part of Queen Street, between Guelph and Maria Streets, they undertake to give sufficient land on the southerly side of said street to leave Queen Street the same width as it is present, and to open the same that it will be suitable for travel for the general public.

The second and third readings of the by-law to deviate Queen Street as per request of Messrs. Beardmore & Co. were given, and the by-law finally passed.

Moved by Murray McDonald, seconded by W. H. Smith, that the Reeve and Clerk be hereby authorized to sign on behalf of the Corporation the contract for the supply of Hydro-Electric power between the Hydro-Electric Commission and the Corporation of Action—Carried.

Mr. R. L. Gregory requested that the pavement on the east side of Elgin Street, opposite his property be raised to the grade lines of the street. Both the street and the lot adjoining had been built up since the walk was laid, and it is now much too low.

Chairman Bell was instructed to look into the matter and report.

HYDRO-ELECTRIC BY SEPT. 1ST
Work of Construction to Proceed At Once to Action

A FAVORABLE CONTRACT MADE
Last Thursday Reeve Hynde went to Toronto to interview Hon. Mr. Bank and the Hydro-Electric engineers relative to the commencement of the work of clearing and installing the line to Action and crossing the plant line.

Reeve Hynde said the matter was before the Council and asked the members for their opinion.

Councillor Bell—I suppose we will pass the by-law and submit it to the people.

The Reeve—We may either pass it in the Council and arrange for issue of by-laws as requested, or submit it to the people.

Councillor Cooper—I am not very well versed in the matter, but I think the by-law should be submitted to the people.

Councillor Smith—I am of the same opinion.

The Reeve—I wish the school board was so anxious that the Board of Education would be compelled to submit their own by-laws and regulations.

Reeve—We have been told that the by-law will proceed at once. The Hydro-Electric Commission should be ready to commence the work immediately with Action, but as the people have not taken the steps necessary the work of constructing the line to Action will proceed without further delay.

Interrogated as to the probable date when the line and installation will be completed the Reeve reported that the engineers expected to be able to turn on Hydro-Electric current by the first day of September.

In and have some further good news for you, gentlemen," said the Reeve. I have hit the contracts we make with the Hydro-Electric Commission, for the proposed addition to the public school buildings.—Carried.

The Reeve explained that in order to advance the matter as rapidly as possible he would probably call a special meeting to put through the by-law to be prepared within a week.

Chairman Bell—Thanked the Reeve and Councillor Nicklin for their favorable consideration.

MILL STREET — ACTION

WILD OATS AND FALSE WILD OATS

The local branch of the Women's Institute held a very successful meeting at the home of the Secretary, Mrs. George Campbell, on Thursday afternoon. The day was fine. Excellent papers were read by Mrs. G. Campbell and Mrs. Peter Ferguson, Jr., on "Wild Oats and False Wild Oats" which is frequently confused with the true Wild Oats which is recognized as being one of the worst of weeds. This publication, prepared by Mr. Norman Giddes, describes field experiments with two wild plants and explains by means of charts and descriptive matter their distinguishing characteristics. According to this authority, it is comparatively simple, indeed, to distinguish between the two species, and the field varieties show the same manner of growth as the cultivated oatmeal the true Wild Oats exhibits a different habit. In the seed form, the difficulty of telling them apart is greater here especially in "Wild Oats" as some of the smaller varieties of Wild Oats are concerned. With the larger sorts, the difficulty of distinguishing them is more easily an experienced eye will detect the false Wild Oats by its larger size and its almost close resemblance to the cultivated variety in which, for example, the smaller varieties of Wild Oats are concerned. The larger seed coat is more open in front while the smaller seed coat is more closed. Wild Oats so that the latter do not readily sprout, whereas in Wild Oats the edges of the latter could almost melt. Readers interested in distinguishing Wild Oats from False Wild Oats would do well to write to Mr. Giddes for his pamphlet.

The fine weather on Sabbath made a large attendance at the fair which was opened at 1 p.m. The fair grounds

showed many instances of growth

and the fair was a success.

SCHOOL IMPROVEMENT BY-LAW
To Raise \$20,000 by By-Law to be Submitted to the Minister.

ATTRACTIVE PLACES SHOWN TO COUNCIL

As arranged at last meeting of the Board of Education, the members waited upon the Council in a body on Monday evening to request that steps be taken to provide by by-law \$20,000 for the necessary enlargement of the school buildings.

Chairman Bell was the speaker for the Board. "He presented to the members of the Board the fact that while the Board has no option but to provide for the needs of the children, the needs of the Education Department, rendering the providing of additional accommodation imperative, he felt, as a loyal citizen that the school should be provided with what is needed.
