FOR LUGGAGE ABROAD

"If you are reading up for your trip to Europe this summer, you will no-- tice that most of the guide books advise one to dispense with a trunk and take only hand luggage," says Hester Fairgrieve in Woman's Home Companion. Do so by all means but remember that numerous pieces of hand luggage are more vaxatlous than one

trunk.

"A girl I know compressed her tire luggage into one will case - not leather one, but a light wicker telescope with strong shawl straps and a comfortable handle. A tiny padlock was fastened securely through the straps when it seemed wise. To make the case fairly damp proof, she cov ered it neatly with dark green dealm which matched her travelling suit color. CHURCH-GOING IN COMPORT

Sunday morning in Holland is strangely different from the same occasion in this country. In the first place a great many of the thurchgoere travel to the place of worship in their boats, and the canals are often packed with people in their full Sabbath attire. The Dutchman is a very devout churchgoer, but he takes his re ligious service with considerable comfort. In the first place, except when devotions are actually in progress, he smokes his pipe or cigar within the sacred building. Whilst waiting for the service to begin the congregation talk in ordinary tones, discussing mat ters of interest, and new-comers are shown to their pows by a neatly-attired servant-girl, who takes the place of our sexton. Then again, the Dutchman does not remove his hat whilst in church, and so saves bimself many a cold in the head.

"Chinese physicians are popular with women in our city," said a doctor from California, 'Their method of diagnosis is very simple. A woman tells a Chinese doctor where she has a pain and he feels her pulse-nothing more. Then he tells ber for how many thousand years his race has understood the human body and mind. This makes a great impression upon the woman patient, and she goes forth with great faith in the learned Chinese and the medicine he has given her, which is usually harmless enough, but not found among the remedies approved by materia medica.

"However, the Chinese doctors are clever, and they do effect some curin spite of their medicine. Lay it perhaps, to the mental effect-the subtle influence of an alien personality combined with an awe of learning outrunning the oldest in America by so many hundreds of conturies.

About four years ago, I was laid up with intense pains in the groin, a very sore back, and suffered most severaly when I tried to urinate. I treated with my family physician for two months for gravel in the bladder but did not receive any benefit. About that time, I met another railroad man who had been similarly affected and who had been cured by taking Gin Pills, after

having been given up by a prominent physician who treated him for Diabetes. He is now running on the road and is perfectly cured. He strongly advised me to try Gin Pills which I did,—with the result that the pains left me entirely.
