A GENERAL SURVEY of Ontario dealing particularly with water supply sewage and drainage of every city town and village, excepting centres of over 50,000 of population, is to be made by the Provincial authorities through the district health officers. This will form valuable data for municipal action along these lines especially, by cile to submit by-laws for a vote the smaller towns and villages.

IT HAS BEEN currently reported for poveral weeks that a petition bas been in circulation in Acton praying the Manielpal Council to submit a by-law to allow the electors to express themselves on the question of repeal of the Local Option by-law. The law says : "The Council must grant the prayer of the petition if twenty-five per cent. of the qualified electors have signed it, and it is duly filed with the Clerk of the Municipality on or before November 1st. In the effort to strengthen its case before the Dominion Hallway Commission against the O. N. R., which proposes to cross the new G. T. R. sidlage at the Beardmore tanneries, the latter ment its surveyors to town to make an alternate survey to place before the Commission. This survey proposes to have the new electric line cross the G. T. R. at the junction of of Queen and Guelph Streets on a high level grade, run up Guelph to Agnes, thence across lots to Church and down the centre of that street to the valley

west of Main Street. The Council protested most strongly against this route, and instructed the town solicitor to send a letter volcing this protest in unmistakable terms, pointing out that Church Street is one of our principal streets, is too narrow for any railway traffic, and a line there would result very prejudicially to all property on the street.

The Ballway Commission is in sion in Ottawa this week, when the matter will probably be settled.

AN INSULT TO THE PARMERS

ROITOR PRES PRESS Doer sir : I deare to enter ah emphatic protest against the insults heaped upon the farmers, who reside. within the section of which Acion i the natural trading center, by certale men of your town who persist in making the lying assertion that the farmers are not going to Acton to do their trading as largely as under license because they can't go to an open bar to drink intoxicating liquor. Hince this statement has been so freely made in your town, and out of it, the past few weeks, I have been making a careful mental and frequently personal capyase of all the farmers within a radius of five miles of Acton-most of whom I know well-and I defy the defamers of the characters of the farming community in your town to name a bare half dozen of farmers who would, for the sake of a drink of whickey, drive away from Acton todo business to any point where it could be obtained. I say, shame on the men who would besmirch their betters and injure their town by making such false statements. I have been talking to a number of my fellow-farmers and they invariably say that if anything would

their effort to create false impressions as to the benefit Local Option has been to Acton and her people. " I can tell these defamors of farmers why some farmers are forced away from their natural and most conven-1. Through the lack of enterprise on the part of these business men who now are so exercised over alleged fallure of business in Acton, they al-

induce them to cease trading with cer-

repetition of this insult to farmers, and

lowed the chopping mill - a most necessary adjunct to the farmers trade-to close and remain closed for searly two years. We were forced to team our grain to Rockwood and Everton, where Local Option is in force, by the way, and to Stewarttown, where no llosnes to sell "boose" exlets. And when in these places we naturally patronised the stores there for such goods as we needed, and had our horses shod and other necessary blacksmithing done, while we waited for our chop. If these men had been half as much interested in keeping a chopping mill going for our convenlence as they are now in defaming us,

petitions, there would be no cause for complaint of the loss of any trade. 2. The lack of satisfactory hotel accommodation is another reason for some loss of trade. And at whose door does this fault lie? It is popular to say the temperance people should buy or build and operate good hotels. And why the temperance people, pray? ed? If, when the law came into force. vided good botels Acton's trade would

and in misrepresenting Local Option

and coercing employees into signing

undoubtably have been better. 8. I can give other reasons why, through certain methods of business in vogue la Acton, some farmere go where they can do better-not in whickey territory either, -but I do not wish to be invidious.

If the business men who are malign-Augus Kennedy, Arthur Benton and for Local Option they will find that we esteem that excellent law, fornearly all of us who naturally come to Acton to do our marketing bave signed it. If their memories are reliable they will remember, too; that the town-Francis Hurst, Jimmis Ross, Jessie ships of Nassagawega and Eramoss

and Brin, all adjacent to Acton, al have Local Option. The farmers carried it there and the farmers there intend to keep it in force ; as I verily believe the other business men than those named above. M. E. ROBERTSON, Teacher. and all good citizens, intend to do in

Only Results Count

The one thing above all else that you want to know about the range you buy is this-that it will cook and broil and bake with absolute satisfaction.

Other features of a range, such as convenience, economy and appearance, are, of course also indispensable, but the prime necessity in a range is results it cooking. The Gurney-Oxford gives results not now and then, but always.

Every Gurney-Oxford is a source of continual satisfaction to its owner. Day after day, your after year, it enables her to produce pastry, bread, roasts that contribute to the pleasure of housekeeping. That is why the Gurney-Oxford finds its strongest support among those who have had actual and intimate experiwace with it. You too will number your Garney-Oxford among your best friends.
