THE COMMISSIONERS at Nisgara Falls have decided, in view of the fatalities last year, that no person will be allowed to walk on the lee bridge over the river bereafter. The United States authorities coincide in this action and will co-operate to arrest any foolbardy violators of the new regulation.

A COMMITTER of the Toronto Board of Trade has been studying the high cost of living, and, for a Toronto committee, makes a startling report. Toronto, though set downeln the midst of the fields of Untario, pays more for its food than London, England, to which Octario's surplus is shipped .-

The old doors constructed a quarter century ago are obsolete and insecure. This has been proven over and over and over again by the escape of prisoners. It is unfair to the constables that when after long and somethuise dangerous search prisoners are secured and placed in cells too insecure to hold them. With modern fron doors and locks this contingency would be satisfactorily provided against.

THE RESCRIPTIONS WIll be well supplied with ballots at the coming municipal elections. There will likely be ballots for Reeve and Councillors, Members of the School Board, the Local Option appeal, and a ballet for a re-vote on the Hydro-Electric money by-law. seems the Council was misled by the Hydro-Blectric Commission and inadverfently made a technical blunder in the method of passing the by-law. The brokers who purchased the debentures refuse to carry out the terms of their tender unless this is remedied. Unless some other purchasers are found the by-law will therefore require a re-vote of the property owners.

The Guelph Mercury is just launching another Trip Contest, the deatination of the winners on this occasion to be New York and Bermuda. Three On that occasion it did a magnanimous thing gratutiously, for in publishing the results it appounced that it would take care of the losers as well as the winners, and the following summer carried out this promise by giving the St. Lawrence River trip, through the Thousand Islands, to Montreal.. The treatment seconded to both parties left a most favorable impression on the public, and the young lady tourists on these trips retain a pleasant recollection of their experience which they will never forget.

The present contact will close on 15th February next, and soon afterwards the Mercury will send one of its staff as manager, and ble wife as pluperone, in charge of the winners to New York and Bermuda. The round trip will last two weeks. Five days only a plece of bread and a sip of wine will be spent in the beautiful coral islands of Berinuds, where there is perpetual summer and the flowers are always blooming. Then, on the return, there will be three days devoted to New York City, under the additional chaperonage of Mrs. J. B. Campbell, "of that city, whose knowledge of the areat United States metropolis belowd so thigh to promote the intertaliment of the Mercury's party three years

In this contest, as in the last, each candidate will compete for the trip against other candidates in the same district only, and not sgainst those of any other district. There are ten disteletalii all. Three in the city of Gueloh and seven in the surrounding districts, and there will be one winner from each district, making ten sandidates in all who will go on the trip.

The nomination forms may be of ped from the Mercury, the name of the lady candidate written on it by any responsible olitzen who will sign his name and get a counter signature On being mailed to the Mercury office, Guelph, directions and supplies will at once be sent to the candidate named. so that no time may be lost by her and her friends in getting in the votes. The result of the Mercury's last concast was watched with widespread interest, but the promise is that the nterbet now will be even greater. The interior of the sacred edifice now presents a most attractive appearance. The backgrounds of the walls and cellings are of carefully contrasting shades of buff. The ceilings are panelled and bear artistically ex souted symbols of the evangelists, with porders of neutral tipes and gold leaf embellishments.
