The Moral of it

Applies to Acton, Too

The advertising colums of the Review are an index to the most progressive business houses in Vanleek Hill. People who know recognize that to reach a very large class of the best purchasing public it is necessary to use the Review columns. A very natural deduction is that the merchant who does not use the Review as an advertising medium does not care for the trade of those who can be reached only by the Review. Therefore the moral: Patronise the merchants who think your trade is worth while telling you about their offerings .- Vanleck Hill
