Mrs. A. Mainwright, St. Mary's, Oak., writes:-- "I feel it my duty to write and tell you the good your Dr. Wood's Norway Pine Syrup did for my little boy. ile had whooping cough, which left him with a nasty, dry hard cough. I took him to several doctors, but they did him no good, and I could see my little lad failing day by day. I was advised to take failing day by day. I was advised to take him to another doctor, which I did, and he told me he was going into a decline. I was telling a neighbour about it, and she told me to get a bottle of Dr. Wood's Norway Pine Byrup, and give it to him regularly. She then got to tell me how much good it did her children, so I got a bottle, and gave it to my little boy, and was so pleased with the result that I bought another one, and by the time he had finished it he had no cough. He is now fat and strong, and I would not be without a bottle in the house on any account.

Whooping cough generally begins as a common cold, accompanied with coughing and a slight discharge from the nose. It is, as a rule, more of a child's trouble but also affects adults.
