tainty. can 'about' a well." Ralph finally remembered.

"What | Him ?" the father declared. | broke into a run. me a favor."

would do, the boy returned. "I'm I twain."

lieve he will."

hours," Raiph declared positively) coughed as they jerked at the cables. "Ralph went at once to the main" ffice, finding the little building desectpleasantly when Ralph entered. "Twenty-seven went deed on us last

sire to get at once to the main purpose of his call.

must be dogged."

"I understand you exactly," he repiled. "You want me to shoot your

well ?" Ralph to hold his composure under Jeesle Markley's plerolng gaza. He nale's son't Finally be found the Martin Simme recognized him in courage to say : "Yer, I came to ask if stantly, and rising offered the magnate sary that we start it flowing. Ho far friends, you and I neght to forget our as father and myself are concerned, differences," he remarked sincerely.

everything depends upon it." For a moment there was a tenes replied, as he accepted the proffered silenor, and then Jesse spoke: "I'm grasp. glad you came to me. It makes me feel that you have got a lot of confidence in the, for of course you know bow things lie between my father and yours. This difference ought not to make any hard feeling between us. We're boys, you and I, and we; can understand things better-we can get together more basily and without say boys, poor Mr. Prentice's patience was ably entertained. Bendmaster Hill fear of injuring our pride."

ed silent, too overloyed for speech. "You know what it meens of course

to 'shoot' a well. A fellow takes a big Dixon, the best 'shooter' in California. together in this camp, you and I, and we're going to be square. He took his hat from the peg on the wall and etarted toward the door. "Action is the main thing now," he remarked. "Every minute that old Twenty-seven is idle means just that much loss to you and your father. I'll have make a trip to Strasburg camp.

Wouldn't dare send any of the men for the pitroglycerine. If all goes well oldest and best gushers in this afternoon. Notify your own crew at once. I'll give the slarm at said the choirmaster, resignedly. Within an hour the word passed

"fibe's clogged," declared Martin over the entire field that Twentymany thousands of barrels more before | known to anyone except Ralph Simms and his father, young Markley rode over the granite divide and returned said Ralph Simms, son of the owner, with two quarts of deadly nitroglycer- sible." ine. The trip back was made slowly for a single misstep of the saddle pony the father replied. "We must make or an extra heavy joiting would have

done is to have a full delivery of oil | When he rode his pony up to the curb of Twenty-seven, Ralph offered "Who can we get?" asked the boy, to belp, but Jesse waved him aside. an expression of anxiety coming lato "Teave it all to me," be directed. ble eyes. "Abe Dir is laid up with a "You may take my borse over to the broken leg over at Mesker, and there claim if you wish." He carefully unisn't another man within seventy loaded the flasks and set them down. From his kit be took two torpedo-like glass tubes, and with all due precesthe oil man returned, much perplexed, I tion. filled them with the explosive "but it is certain that we must have liquid. He then tled them together, somebody. Unless we get this well to one below the other, and with a strong flow again within the next twenty. loord, began lowering them into the four hours, we will be raised, we will | well. The slightest touch of the tubes lose all the claims on which our final one against the other or against the well wall, would have resulted in

"The wouth had been taught how the well had been pouring its flow of to "feel" the passage of the tubes down black, molasses-like liquid. Around the well by the sensation of sound, and about them rose the derricks of and of resistance to the string, . He the oil field. Smoke and steam lifted had practiced for hours in lowering like white plumes over a score of tubes filled with water to accomplish

hum of rigging told the story of at- A long time be sat gramped over the tempted fortune. Several wells were | well, the bot sun beating unmercifully already flowing, and long pipe lines, upon him, while he played out the plain, our veying the crude product to the tubes reached the bottom, a depth of filteen hundred feet.

He now took from his kit a long be entire group, as well as making pay- as the "mo devil." He poleed the bar ments on the land, out of the proceeds over the well, looking around to see derived from the flow of Twenty- that all is clear. Not a human, being seven. With the big well clogged and was to be seen. Apparently the entire Simms & Son seemed a gigantic cer- angines seemed to have osseed their

"There is one person in camp who breath. Jesse put himself in the position a runner on the scratch line. As if an "Who is it?" the oil man saked unseen starter behind him had suddenly said "go" the young "shooter" re-

"You must be out of your head, son. It takes a beavy bar of Iron but That dude wouldn't have nerve enough few seconds to drop even fifteen hunto shoot a firegrapher, let alone 'shoot' dred feet. So Josse Markley, racing thistie sifter, in sifting a sleve full of a well. Anyhow, you must remember over a trail strewn with bowlders, secble father.is Tom Markley, the man tions of pipe and scrap iron, was but through the thick of his thumb, see who holds the mortgage against our a short distance from the well when that thou is sitting a sieve full of unclaims. Tom Markley and I are not the explosion occurred. Muffled by sifted thisties, thrust not 8,000 thisties bosom friends by a whole lot. Tom the depth of earth, the first report through the thick of thy thumb. Markley wouldn't cross the road to do could scarcely be heard. This was imanediately followed by a saspplag "I'm not saying what Mr. Markley crash that gomed to tear the world in
