Two Months of Whiskey Selling Two months have passed since the licehsed liquor traffic was renewed towo. Drunks are seen dally on the streets. Large quantities of liquor are being shipped in daily. Wives continue to request that their bushends be placed on the "Indian list." . There is no one now to be found who has the effrontery to say that anything like much drunkenness was manifest at any and romances show what that chivalry time during the three years of Local Continent, has returned home and, is Option law to Acton.

BOME OBSERVATIONS

Hon. Robt. Rogers, Minister of Publie Works, whatever his reputation in the House of Commons as a "gag-master," seems to be regarded in Acton as a lenient boss, inasmuch as he does not appear to demand too much work for too little wages.

It does some & pity that the Munici pal Council could not apply more of the competery revenue to the cleaning of the fine gravel drives in the grounds. They are at present in a deplorable condition with weeds and grass, and no reasonable person could expect the present caretaker to properly attend to them with his other multifarious duties on hand.

It is fine fun for a crowd of city chape to get out into a country town on a holiday, except to try to win a baseball match. The Toronto chape certainly let their presence be known.
