St. John's, which does for the suafarers visiting the port what the Y.M.C.A. doos for the young men of the inland cities. The Institute has a number of bedrooms, some of which have been furnished by aunifors of Dr. Grenfell, nd the doors hear plates giving the donors' names. An the place. "I don't think much of it," he answered. "Most of the best rooms has been ta'ten by swells. I know they ban, because I saw their names on the doors."-- Toronto Sat-

urday Night. A Hisort-Legged Chair, Near Brantford there is a small congregation of one of the countless odd sects whose members prefer their own Scriptural interpretations or pacultar form of church government to monu. those adopted by the more powerful denominations. One of the families which formed a chief support of the congregation included a father who kept a judicious eye over the finan-cial concerns of the church, and a stalwart son who brought an excellest baritone voice to the services of the choir. At a business session of lation oxquise." the congregation, the son, who may And, walking to the speakingbe designated as John Junior, urg- tube, he shouted (in clear English od that a modest sum, say \$50, be as the visitors thought): applied toward enlarging the space soup!" allotted to the choir, and be pointed | Before that waiter had time out that so cramped was the accommodation that he and other male by were sitting near the door, wermembers at least had not room to hurrying down the boulevardsstretch their legs comfortably.

proceeded to offer ble colution of the Parisian for the French "quatro problem. "It is not necessary," he soupes" (four soups). said, "to spend morey so that the choir members should have room to stretch their legs. What we must do to to let the present singers resign and secure some men with shortor lags to take their places, and if Becessary I will make a motion to

Thus ended summarily the axitation for an enlarged choir loft .-- Beturday Night.

Moresons In Canada. The visit which Joseph V. Smith, president of the Mormon Church, has been making to Alberta in connection with the erection of a temple at Curdaton to cost \$350,000, arouses interest in the extent of the Mormon population of Canada. According to the causus of 1901 there were 6.891 Mormone settlere in the Dominion, and in 1911 almost 16,000. The

number is now balleved to be considerably over sixteen thousand. settlement was in Ontario, the total and when her mother arrived to take being 3,377, while in Albein there her home she was very unwilling to wore 3,212. By the last causus it to go. shown that more than half the Mormons of Canada are now found in Alberta, the total in that province being 9,978. In Ontario the number is 4,913, the bulance balug scattered

throughout the other provinces. Makes Up Her Luce. It is estimated that Ontario forest ten thousand of her population every Mr. and Mrs. Park Dilla left for thair spring through those who go west on the homeseckers' and settlers' excursions. In the fall a arly twice that number leave for the prairies as harvestors. During the ontire year there is a steady drain that would bring the total of t'osa who leave for the

west at close to 50,000. But, while Ontario is losing heavily each year of what might be termed "native born," it is a great gainer from snother source - the British lules. This ye. . the number of British immigrants that has alroady arrived here reach's 59,936, and when the figures for 1013 are complete the total will be well over 60,000.

Definition Is Required. What philosophical and scientific instruments are within the meaning of the Customs Act, is at present a subject of consideration by the Customs Hoard. Under the act, such equipment is entitled to come in free whom used in schools and colleges. There are attempts to widen its application, and upon this the board will give a ruling. There will need to be a specific definition as to what Ray, Dr. Brigge, who rapidly advant- are or are not to be classified as

scientific apparatus. While the population of London, Ont., has been sleadily increasing, a marked drop in the number of mar-riages registered in November is a feature of the month's vital statisties. The high cost of living is, apparently, having a deterrent effect en matrimony.

Who Invented Chess? The honor of inventing chase has been claimed by at least fourteen some have been mentioned as sole inventor, ranging from Japanth and Shem to King Bolomon and Aristotle. It is, however, generally agreed that Europe got the game from the Arabic, "checkmate," being a cordead") .-- Loudon Chronicle.

Like a Hole In the Water. We cannot too soon convince oursalves how easily we may be dispensed with in the world. We think that we alone are the life of the circle in which we move. In our ab that we leave is sourcely perceptible,

"I met Dunkey to-day for the first time for years. He ham't "Oh, he hasn't changed at all, but "How do you mean?" 'Ob, he's forever talking about
