ON BEAZILIAN WATERWAYS

The river Amazon and its tributaries occupy an area balf as large us Europe. This immense region is covered with rank tropical forests, and for several months of each year la flooded with tropical rains. It is difficult to realize that the river Amazon lamore than four thousand miles long. At Manoas, a thousand miles from the bes the river is five miles wide, and at Iquitor, two thousand miles from the to it is still three miles wide and Settled On Her navigable by steamers of 8,000 tons barden. The Amazon has literally bundreds of tributaries, the chief of which flow down from the recesses of Venancia, Colombia, Ecuador., Peru, and Bolivia. A dozen of these tribu tarles are over a thousand miles long

In his well known book, "A Natural lat on the river Amazons," Mr. W. H Bates, speaks of the sea-like expans of water, where the Madelra, the greatest tributary of the Amazon after two thousand miles of course bleads its waters with those of the blan of rivers." In the dry season the Madelre to brownleh-olive ; but in the relay seemen it is milky white, from the white clay which it carries away from its banks. The late Dr. A. 1 Wallate tells us that the well-known Breal note are mostly produced and Breal note are mostly produced and universal remedy for sufferers from all exported in the region around the broachial troubles. Coughs and Colds junction of this Madeira River with of all kinds, Broachitis, Sore Throat, the Ameson. He saw both fruit and blosson on the trees in January, for the fruit takes more than a year to riped. But the chief commercial prodoct of the Ameron valley to-day is sentation rabber. The scattered Indians hardly prectice agriculture, but collect and exchange rubber for practically every- trees the trade mark; manufactured thing they need. Much of the rubber only by The T. Milburn Co., Limited, is now obtained from the dense jungles | Toronto, Out. and tangled waterways at the head of the Madeira River, which flowe through regions few white men have

REMOVE THE RUST You find it often difficult and some times impossible, to ramove rust from articles made of iron. Those which

are most thickly enated are most sanily cleaned by being immersed in a solution, nearly saturated, of chloride spells and wasdizzy, of tin. The length of time they remain in this bath is determined by the thickness of the coating of rust. Generally 12 to 21 hours is long enough. The solution ought not to contain a great excess of sold if the iron itself is not attacked. On taking them from were coloriess and I the bath the articles are rineed first in water, then in ammonia and quickly dried. The iron when thus treated has the appearance of dull allver. A simple polishing gives it its normal appearance. This process is susceptible of numerous applications, and is deating Compound for all the rest of the medi- | ad to render great service in many in-

Her HEART and NERVES Were So Bad She Could Not Sleep.

To those who sleep in a kind of a way, but whose rest is broken into by fearful dreams, nightmares, sinking and smother-ing sensations, who wake in the morning as tired as when they went to bed, we can recommend Milburn's Heart and Nerve Pills. By taking them you can have your old, peaceful, undisturbed, refreshing sleep back upain.
