which runs my cream separator. And I've it, and from that, more slowly, into the as many apples as you have, I guess, that awaiting barrel. Lans watched the eperawon't pay for the picking. Ho lies Yem's tion with keen interest. grapulfather, und so have about fulf the It was flaturday, and early evening, and left unsald. "You've never coming fear of renewed attacks. Let S. The Model schools this year will open farmers in this country. They could be Lem lad stopped in a moment at the saved Mr. Adams a lot. But you've last him turn to Dr. J. D. Kellogg's Asthma on Tuesday, August 18th, and the Normal bought for a sour by anyone who would be Adams farm to see Mr. Adams and bad quite a little. The money you'd have got willing to pick them, and they'd make a found only Hank, still at work, "Thought from that vineger would have meent a can give. Let him but use it faithfully like amount of good, pure vineger, Seems I'd think these applies." Hank hid replied. deal to you."

fouring he might uppear officious, then help goes home nights, you know: Stay florman clover for worn-out soil. It's what want on courteously, "if you much to hire with me, oun't you?" anyhody to help in the picking and pross-I'd be mighty glad of the work."

Mr. Adams shook his bead slowly. "No," he sald, "I have too many other things on my hands now. But," he side still consulting his knee, "If I know un enterprising person who cared to undertake it, he'd be welcome to the use of 'my press-could work in my orchard if hocared to, for that mutter, and perhaps would helphim to market a little, if the vineger were shipped from my farm."

ness which he tried hard to control. should say so. Bhould think he coul market it in Richmond. - Everybody there knows your certified milk." "Think probably he could." returned Mr. Adams, slowly. Then he looked up

suddenly with his bright smile.

to try it. Hank Y' Hank fairly transland with carromen 'Try it! Do you really mean it, wir ?" Mr. Adams mulded, pleased with the P. Brown, manufacturer." lay's delight. "But remember," he contin ued, "it will not bring very big returnsfor tickled, Hank. Has Mr. Adams found a

the amount of work it will take." "Oh, I know that," Hank replied. for a Loy who's sager to work, it means a good deal more than nothing." "All right," Mr. Adams said. "When

will I was you ?" "Yo morrow morning, sir," was Hank's A half hour later Hank found blmself seated beable Leas Wolcott, ble best friend and constant advisor, eagerly talking over tively against the fence post and looked the whole matter, reckoning from what out upon his deled and hopeless fields of farmers he could buy apples and for how corn and hay. In his attempt not to let much, how long it would take one indushis discouragement get the latter of blut, trious boy to pick them, how many he would be able to cruck a day in the press would have to be properly sterilized an an to conform to the requirements of the pure

> "Mr. Adame'll help you with that las Hank laughed. In ble delight with

Loss shock his bead in his deliberate way. He was never excitable like Hank days, before I won that corn contest and "Yes," be remarked slowly, "I shouldn't got spirit enough into me to really try." womler if there were a good many things a plan to help out this winter, for I'm not just how to look up and find out the things going to give up, no matter how foolish he useds to know about, and I guess that's

harvost, but as soon as a good rule comes fully. It was a new kies to him, just like I'm going to plow-for a fall planting if I so many of the ideas Mr. Adams had put had moved into this region and been his hat back from his forehead, over which an awfully good friend to the farmers full teasingly several strands of his about around here, who are willing to listen dant red luir. His was an optomistic bins. Isn't it fumny how so many rather temperament. When any discouragement go in their own old way than change, even came, it weighed his spirits down beavily when they see what things Mr. Adams for a time, but he was always ready to doos on his own furm? tiuess it's easier how. And he has the placet way of help "Guess I won't look at the crops any ing one, like his giving me this chance t more. It doosn't do any good." Ho say. I help me out of a highele-I had the 'lduse' ing, he thrust his hands in his pockets, and awfully when he drove up to-night. Wish

approach of a horse in the heavy, country always feeling. Perhaps we'll get our apple julce—or everything, with a wind loth bones below the knee broken in two ohones to really help him some day; we'd like this. be glad of it. "Wouldn't we though?" agreed Hank

beartily.

The next few days were very busy ones for Henry Brown, of Granger County, ashamed to have him pass now the way I Virginia. He worked as only of late, from building near the apple barrels. Lem Wolcott and Mr. Adams, he had learned to work-up long before the dawn daylight. For his work must be done while the apples still hung in prime condition on the trees. First he gathered all "Too late for almost every body's," surreed that his father's own neglected, tangled "Even the last scientific orolard held, carried them in warron arming can't stand a drought like this loads to Mr. Adam's orchard lot behind ble farm buildings. There Hank washed "No sir." Hank spoke sturdily, but he the apples thoroughly, run them through ity, not to be discouraged, then for him. Adams had provided him. Then beturned his own good boulth, and the laughing so many apple trees as did his father's, but consent of his shiftless father to try to do every tree had been sprayed and pruned in same air of nontness and order which had Suddenly Hank's eye fell upon a small. prevailed throughout Mr. Adam's entire printed cardboard in Mr. Adams' hand farm. To liank's surprise the yield was

twice as heavy as that of his own orchard, and the apples of a much finer quality. "That's what the proper care does," coninterested in everything pertaining to far. fided Hank to Lem Welcott some days lupharardly, a second later. The answer it makes it seem, too, as if you'd rather be a real un-to date farmer than anything also

"There's nothing like it." agreed Lone heartly. "Bosse day my farm's going to county than this was when Mr. Adam's A sudden electrons as if a new blos had I lought it. Of course we haven't uny money and it'll take us lots longer to put ly done. Helesned forward and asked "Ever make our farms into shape, but we can do it. 1.

Hank, if we work hard enough and keep spock, "we did it." wo'd never use in years the vinegar one the big press near which he stood. "Just Presently Hunk said : could make from the apples in our orchard | think of living on a farm where you renor-

commented.

big office ought to need that vinegar some. Thought I might as well us to-morrow's seed with it and sow down as much of our where." He spoke mulitatively, flapping Handsy and I was afraid they'd spoil be old land as I could this fall, then turn the the onds of his buggy roins lightly against fore Monday morning. Mr. Adams and spring. I'd been talking to Mr. Adams his family went up to Richmond to stay about it. He was going to let me have "I should think so, too. . Why don't you lover Hunday. I promised him I'd stay the seeds on time, until I could market the do it sir ? And-und-" Hank hesitated here and keep an eye on things. All the vinegar. He says there's nothing like that

Subscription Price, \$1,00 Yer Aubum.

And Lem had consented Hank lifted his hand from the lover and watched for the remaining Jules to travel to its doutlisation. "There," he said with mmones satisfaction, "that's all until Monday morning. That makes twentyfour larrels of apple jules up to date." ..

Ho pointed to the line of casks which Hank's beart boat with a sudden quick-Friday, and eight to-day-all full of pure hearted about it.

Lem Laughed. "Don't

Then began one of those samuel, friend. ly consultations and talks which were a habit lutween these two good friends when the working hours of their strengous days were over. By ten o'clock, however, the two hove were salesn side by side in the oney room in the upstairs part of the larn, which Mrs. Atlanta had prepared for thant. At millight they were awake

It was the nervous and excitable the wakened first. "Wake up Lem." he called, giving his balfallow a vigorous punch. "Wake up I tell you." Lam Mreiched and turned over. for " he prowled steepily.

But Hank was shaking him now by the shoulders. "Don't you small anything?" Less salked slightly, then more vigorous ly. "I shouldn't wonder if I did." he con-

sedel, now wills awake. By this time Hank was by the window. "Probably a forest fire." Lam was grow ing excited too, in his more self-controlled | news in the Fucu Pursu." manuor. "It smalls protty mear, though
