To Suffer From Headaches MAKES LIFE MISERABLE.

It takes a person who has had and is subject to headache to describe the suffer-ing which attends it. The dull throbbing. the intense pain, sometimes in one part of the head, sometimes in another, and then again over the whole head, varying in its severity by the cause which brings it ou, purely indicates that there is something amiss with the system. The fact that Burdock Blood Bitters reaches the seat of the trouble leaders to be seen.

the seat of the trouble is due to its success in relieving and permanently curing the cause of the headache.

Good Roads Benefit

MR. J. J. HOUSTON, who lives on a road that has lately been improved, in Lauderdale County Mississippi, makes the common-sense statement which follows:

I have never made an investment for which I have potten as much financial returns and catiefaction out of as I have out of this road The advancement in property alone has been sufficient to four or five times pay the whole cost of construction, and I don't think the county could'make any investment that would bring in as much returns as to build a network of them all over it. It is such a good thing that I want every man in the county to have one just like it, and I am willing to pay my part of the taxes to help him get it."

Build Concrete Roads

Then your road taxes will be invested and not merely spent. They will return many times the amount they cost, and those returns will show in the increased valuation of your property, the lessened cost of marketing your produce, the longer life of your horses and vehicles, the prester conveniences and general prosperity

Concrete roads outlast all other kinds of roads and require practically no repairs for many years. They are sale, clean, permanent and bessable every day in the year. Write for, free, Good Roads literature and learn how good roads will better your conditions. Address:
