Dr. Morse's Indian Root Pills

are not a new and untried remedy—our grandfathers used them. Half a century ago, before Confederation, they were on sale in nearly every drug or general store in the Canada of that day, and were the recognized cure in thousands of homes for Constipation, Indigestion, Biliousness, Rheumatism and Kidney and Liver Troubles. Today they are just as effective, just as reliable as ever, and nothing better has yet been devised to ... Cure Common Ills

CHURCHILL

Last Friday evening about seventy of the friends of Churchill gathered at the home of Mr. John Smith for the purpose of presenting to Miss Gladys, on the eve of her marriage to Rev. Mr. McDonald, a former pastor, a fine linen shower and to express cordial appreciation of her services as organist of the church for several years and also as teacher in the Sunday School. The generous basket full of linen, of just such an assortment as any bride would prize, was presented by two of Miss Smith's Sunday School class, Edna McCutcheon and Ritchie Cripps.

Miss Smith made very pleasant and suitable reply, thanking the donors for their thoughtful kindness.

A feast of good things was then served by the ladies and a delightful evening of vocal and instrumental music closed with the hymn "God be With You 'till We Meet Again."

Lightning Conductors Act Two Ways

1.—They Prevent Strokes.

2.—They carry the current to the ground when a stroke occurs.

An excellent metal for Lightning Rods is copper, because it is a good conductor of electricity—about six times as good as iron—because it is nearly indestructable (do you remember the old copper kettle at home?) and because it is not easily melted.

The best statistics available prove that for every 100 buildings now struck by lightning about 5 only would be struck were they rodded. Rods have an efficiency of 94½ per cent. as a preventative of strokes. This is the report of 18 Companies in Ontario and includes rods of every kind. But should a stroke occur—as sometimes it will—then you must have a good conductor ... off harmlessly.

The "Universal" Rod has a big open... the copper where it is wanted, ... sheath, which is fastened with a L...

Debts and Debtors

If we give a merchant our custom, we have a right to expect him to advertise — to tell us weekly in the columns of the FREE PRESS what he has for us. Advertising is shop news, designed to inform us, save our time, and bring to our attention desirable merchandise.

Every retailer who is alive to the interests of his customers has a message — often many messages—for his customers concerning new goods, special offerings, and things that we ought to know about. Customers and non-customers will be attentive and responsive to these messages, if they are delivered every week in the form of advertisements in the Acton FREE PRESS. The way to get more business is to ask for it.

A NOTE TO MERCHANTS

Would YOU buy much or regularly from firms that never solicit your trade? Do you not say—"The firm that wants my business must come after it?"

Yet some of you say, in effect, to our customers—"We're here. If you want our goods, come and get them, but don't expect us to go after you." It's a poor rule that doesn't work both ways."

Shop where you are Invited to Shop

The Great Fire Sale

As advertised last week is still in full swing.

NOTICE TO FARMERS

Bring your Wool to Saxe's. We pay cash. 16c. for unwashed wool. 22c. to 25c. for washed wool.
