A COMMONPLACE LIFE
A commonplace life, no say and no sigh,
But why should we sigh or say?
The commonplace is in the commonplace sky.

OVERHEARD
When a young man dressed for church
on Sunday represents, in the stands, the
most of what he is worth, the outlook is
bright. Every ambitious young man owes it
to himself to dress well, if he dresses
well that his weekly salary pays his
labor and his pocket his success are very
plenty of girls work hard all the
for their money content if in the
overage on Sunday they can put on a
dress which represents a month's salary,
minus the necessary expenses.

CHILDREN OF
FOR FLETCHER'S
CASTORIA
There is nothing more charming than
a happy and healthy mother of children,
and indeed child-birth under the right
conditions need be no hazard to health or
safety. The understandable thing is
that, with all the evidence of shattered
nerves and broken health resulting from
unrepaired condition, and with an-
xiety in going blindly to the trial.

MR "WAG-AT-THE-WA"

An old woman had a "wag-at-the-wa"
clock which had gone for many years with-
out giving any bother. One day it stopped
and try as she might she couldn't get it to
go again. Her Jimmie was an eccentric
character, but supposed to be a bit of an
authority on clocks, so she asked him to
have a look at it. He examined it for a
time. Suddenly he pulled out a dead
mouse, holding it up, said:
"Na wonder the clock will no go i'd ye
tis'ee the engine driver's doll."

THE CHARM
OF MOTHERHOOD

Enhanced By Perfect Physi-
cal Health.
The experience of Motherhood is a try-
ing one to most women and marks dis-
tinctly an epoch in their lives. Not one
woman is so fortunate as to be prepared or un-
derstands how to properly care for her-
self. Of course nearly every woman
somedays has medical treatment at such
times, but many approach the experi-
ence with an organism unprepared for the
trial of strength, and when it is over
her system has received a shock from
which it is hard to recover. Following
upon this comes the nervous strain
of caring for the child, and a distinct
change in the mother results.

Good Health is Impossible
Without a Healthy Action
Of The Kidneys
When the kidneys begin to "act up"
and fail to filter the blood through them,
there passes into the system uric acid and
other violent poisons, which will cause
some of the severest and most deadly
diseases known to mankind.
