CARSON—Instantly killed at the house of the Mr. and Mrs. Joe Carson, aged 2 years and 5 months.

PETERSON—At Guelph, back, on Thursday, July 18th, to Thomas Andrew Peterson, almost one month, in his birth year.

The Acton Free Press

THURSDAY, JULY 23, 1914

EDITORIAL NOTES

Ir has been estimated that the province of Alberta last year produced approximately \$18,000,000 worth of eggs, poultry and milk. From this milk dairy products to the value of practically \$6,000,000 were produced. This is but another evidence of the important fact that the Western provinces are getting on a much surer footing than heretofore. The gradual introduction of mixed farming will mean much to the future of that great country.

LUCKNOW COUNCIL evidently has a keen interest in the morals of the rating generally. The Benito says: "Our Council decided yesterday to make it a by-law that it is illegal to conduct a pool room as a business in town, and last week they enacted a by-law providing a license of \$100 for the sale of cigarettes. It is needless to make any comment upon the cigarette. It has been denounced as a boy-killer, the strongest language that could be leveled against it. There will be a few objectives, no doubt, but we fancy the action of the Council will meet with general approval."

THE PROFOUND place gives the celebration of one hundred years of peace between Great Britain and the United States at the annual convocation of the Grand Lodge of Free Masons of Ontario, at Niagara Falls last week, was worthy of this historical order. It was the fifth anniversary of the signing of the treaty of peace between the two nations should be at a central border city like Niagara Falls, thus enabling the Free Masons of the United States to participate conveniently, as they did with enthusiasm. The peace celebration hymn was inspiring: "May war ever cease,
Centuries of peace,
To us
Long may our lands be bright
With freedom's holy light;
Protect us with thy might,
Great God, our King."

Latest reports from Europe say that the whole of Europe is in a state of constant war as well as anticipated some time ago. Conditions in Russia are not at all favorable and outside of Germany and the United Kingdoms it is doubtful if the yield will be up to the average, while there are some countries in which it will be considerably less. Hence it is quite evident and generally freely admitted that Europe will need large shipments of wheat from this continent this year. Indications at present therefore point to the farmer of the Canadian West getting a good price for his hard wheat. Some authorities go so far as to say that while the crop of Saskatchewan will be above average, the yield will be average, the progress will be record better prices than for the past three or four years and that the total value of the crop will be considerably more than the average.

INTERVIEWS have been issued by the Department of Immigration at Ottawa regarding its intention henceforth not only to warn all but agricultural laborers and domestics against coming to the Dominion, but also to reject them if they fall under any of the restrictive clauses of the immigration regulations. The fact that a man who comes under this category has a promise of employment will not save him from rejection as formerly. In such a case the deportee takes the view that if he were sent back he would do better on the job which a flight otherwise has been denied him. Not much fun after all. That kind of joke deserves severe punishment.

American Deaths of Little Lad
On July 16th a very sad accident occurred at the home of Mr. and Mrs. Joe Orion, Amesbury, Mass., when their little son Stephen, was run over by a horse and instantly killed in the yard near the house. The little fellow was a bright boy and dearly loved by everyone. He was born with his mother last winter, and spent Christmas with his grandparents, Mr. and Mrs. James Headstone, Main Street. Mrs. Headstone and the dear little chap returned home to Amesbury in February.

George Killed at Burlington
Late Monday night a man, whose identity up to the present has not been ascertained, was killed at Burlington Junction, on the G. T. R. It is stated that he was last seen alive at 11:30, when he spoke to some men at the crossing there and offered them a drink from a bottle. The body was found early this morning on the tracks shortly after 4 o'clock by the driver of a freight train who was calling his engine and stumbled over the body. The accident happened a short distance east of the Grand Trunk station, near the water tank. He was a Englishman about thirty-five years of age.

The Weather has the Crope
In his intimitable weekly letter to the Globe Peter MacLure gave expression to this same piece of philosophy: "When it valued the other day I found myself in a position where it was hard to tell whether I should rejoice or grieve. The corn was badly in need of rain, but the hay didn't need it at all. Whenever I thought of the hay I began to grieve about the wet weather, but when I thought of the corn it made me happy to know that it was getting just what it needed. Knowing that this dried frame of mind was not good for my health, I set down with the rain was in progress and thought 'tis out. The result was realization of the fact that a farmer with corn and hay should think of the benefit to his cornfield with chastened joy, and of the injury to his hay with tempered sorrow. This requires a nice mental adjustment that furnishes excellent intellectual exercise. The corn-hay constituency is something that is usually overfed by the lead-pencil-and-paper farmers who spend their evenings figuring out the best way to make when they go back to the land. They will find that there are other things of farmland besides cornfield profits."

When members of a family quarrel a lot of teeth break out.

Every woman shows bony when she has a nervous in a trap.

Hairy in the youth when crop of wild oats too much harvesting.

A CARD

We, the undersigned, hereby agree to sell a package of five standard size boxes of silver tip silent matches for twenty cents. Quality guaranteed. Wilson & Co.

YOUR PRINTING

Can not be done any better anywhere else you can get it. Your Name printed on a sign. If you require anything in the printing line, from a visiting card to a pamphlet let us have your order.

ACTON FALL FAIR'S PRIZE LIST
Has Been Revised and Modernized
in All Departments

THIS YEAR'S FAIR WILL BE A WINNER

Acton Fall Fair will be held on Tuesday and Wednesday, September 22nd and 23rd. For several months the directors have been making arrangements and the fair of 1914 will be much more attractive than last year's.

Special attention is being given to the prize list and, with a view to having it modern in all respects, the lists of the various classes have been revised the past month by experts who have had wide experience in fall fairs and their prize lists.

Changes which will be appreciated by exhibitors have been made in the household cattle classes, as well as in sheep and poultry by which a wider range is given. The classes of ladies' work are also improved. None of the rather ancient articles which have been included in the lists of the smaller fairs for a generation or more are now eliminated and the lists will now include the newer fads of hollow handwork and skill.

The prize list will be printed at an early date when intending exhibitors should procure a copy and familiarize themselves with its numerous attractive features.

"MARLOW"

Wonderful Oriental Spectacle at the Canadian National Exhibition

"Marlow," the magnificent oriental spectacle now in preparation for the Canadian National Exhibition, Toronto, will continue in the beauty of its coloring and costumes, its life and the number of its people any similar spectacle ever produced on the American continent.

The very name "Marlow" is a synonym for luxury and lavishness, and the story of the handwriting on the wall that dazed the rioters at the feast of Belshazzar, and later, the destruction of the most beautiful city of antiquity, touchingly illustrates the magnificence of this latest production.

The George Town Herald and Acton Free Press have just passed another milestone in their journalistic career. These two papers are models of what journals ought to be, and are a credit to the town in which they are published, not only for the manner in which they are conducted, but for the influence they exert in their respective spheres. Long live to the Yukon Press and Herald—Milton Reformer.

The Acton Free Press has entered upon its fortieth year and is as bright and vigorous as ever. Under the direction of Mr. H. P. Moore, its editor and proprietor, it has completed this remarkable record for thirty years.

The Acton Free Press has completed

its fourth year.

The stage setting will consist of a view of the ancient city 700 feet in length—the largest stage in the world.

MARSHAWAYA

Hearts, Shawar and Gilliaran moved the country store from Nasagawaya to Acton on Monday.

Mr. George Gidson, Rockwood, addressed the mail circle of Ebenezer Church, on Sunday evening.

Rev. and Mrs. Carter, are away on their holidays to Lion's Head and other points.

Mr. John Marshall occupied the pulpit of Nasagawaya circuit last Sunday.

Mr. James Watson, of Rockwood, addressed the Bethel Union Sunday School last afternoon. His address was brief.

The Barlowville ball team played the Junction team last Saturday afternoon.

The latter won by ten runs.

Several of the farmers are cutting fall wheat and rye this week. The wheat crop is damaged by rust and Hessian fly.

Mr. A. G. Miles lost a fine horse last week.

Violating Law and Good Taste

Several uncultivated lots in town are covered with a massing and illegal harvest of noxious weeds. For the sake of surrounding properties the weeds should be cut and burned forthwith.

A Horrible Practical Joke

They have some "funny" lads in Preston. For a joke they tied a rope across the sidewalk which resulted in a lady tripping over it with damage of the end of her leg.

After the accident the lads ran off.

The Barlowville ball team played the Junction team last Saturday afternoon.

The latter won by ten runs.
