EDITORIAL NOTES

THE ONTARIO GOVERNMENT has enforced the law against selling liquor on steam boats in the province and the bars of these vessels have been closed. If similar action is taken with reference to liquor which is now supplied in violation of the law on distilleries or large sections of the travelling public will appreciate it.

For British, French and Russian governments have signed in triplicate a protocol mutually agreeing not to enter into any proposals for peace separately during the present war. When the terms of peace come to be discussed no one of the allies will demand conditions of peace without the previous agreement of each of the other allies.

In four years to demonstrate that there was actually a shortage of meat animals in North America, and it may take as many more to prove that this shortage is not confined to this country, but is worldwide. Intelligent stock-raising offers greater and surer opportunities today than any other avenue of human endeavor. It's time to get busy and raise more stock.

WORLD WAR II.—Many towns and cities throughout the Dominion are feeling the pressure of hard times through the closing down of cartelling of the staff of employees of manufacturers. Acton is singularly fortunate. Up to the present the factories are running full and with full forces of employees. So far as this town is concerned we have no unemployed citizens, and practically no vacant houses. We are all thankful that prevailing conditions are so favorable.

THE "MADE IN CANADA" slogan continues steadily to gain strength. The fact that some American concerns are reporting an increased trade with South America and other neutral countries should prove a stimulus to Canadian manufacturers. At a time like the present when the prospects are for a great deal of unemployment during the coming winter there is no better way of showing one's patriotism to keep Canadian industries in operation. This can only be done by fostering the demand of the public for Canadian made goods and by building up a good connection with other countries whose trade formerly came from those whose commerce has now been largely destroyed through the activities of the war.

OMAHA BUREAU seems to have the wealth to carry this war to a successful conclusion. Her financial position is dealt with in a recent issue of the London Statist. The amount of British capital invested abroad at the present time is estimated at not less than twenty thousand million dollars producing an annual income of a thousand millions. For some time past Britain has been investing abroad out of her annual profits from trade, fully a thousand millions a year. During the continuance of the war investment will still continue, and the whole savings of the nation will be available for the conduct of the war. The nation's income from investments will not, it is believed, be materially reduced by the default of borrowers or by the reduction of trade.

THIS COUNTY MATTERS  
What the Civic Municipalities will pay for County Expenses this year

At last meeting of the County Council the rates for the various towns and townships of the county were passed as follows:

Total..... \$46,330.75

MAMAKAWAYWA  
Special Programs in Churches for Peace  
—Another Section of Good Minded

Special services and prayers were held in the churches on Wednesday evening for the success of the British and their allies in their effort to bring about peace.

Farmers are rushing in their fall seedings. There ought to be a good growth this year after all the rain.

The recent rains have improved the pastures and are valuing the spring.

Mr. George Greenway has the contract for crushing stone and delivering it on the Guelph road from Darbyville up four lots. He expects to start soon.

A number of the farmers are taking in the Canadian National Show at Toronto this week.

Mr. George McRae has moved into Mr. Tom Akers' house at Knatchbull.

CANADA'S GIFTS TO MOTHERLAND  
Closson and Provincial Bank by the Dominion and Provincial Governments

Not only the promptitude of the Dominion Government in raising army corps to assist Great Britain in the war with Germany, but the generous gifts from the Dominion and Provincial governments have vividly demonstrated the loyalty and devotion of this country.

Following are the war gifts of Canada and her Provinces to the Motherland:

Dominion—1,000,000 bags of flour.

Ontario—250,000 bags of flour.

New Brunswick—500,000 pounds of cheese.

Alberta—100,000 bags of coal.

New Brunswick—100 bags of potatoes.

Manitoba—50,000 bags of flour.

British Columbia—1,200,000 cans of salmon.

Saskatchewan—1,500 horses.

The raw material of the saloon is the boy. Its finished product is the drunkard.

ACTON WINS THE CHAMPIONSHIP

Final Game with Glen Williams & Brilliant Windup

HALTON-WELLINGTON LEAGUE

Following a career through the season of four years, the Action baseball team made a brilliant win over the Saturday game with Glen Williams, by defeating that team in a fast, hotly contested and interesting game with a score of 3-0.

During the season in a couple of games to most certain contingencies it had been necessary to play certain players not of local origin, and thereby had the public interest been detracted. Not so with Saturday's game, however. The team, loyal to a man, aroused and maintained the enthusiasm of the spectators throughout the entire contest.

A special interest was attached to Saturday's game (which was a win for the Action) because it was the third consecutive victory for the Action team in three consecutive weeks, and that the old baseball rival, Georgetown, had entered the team earlier in the League but, finding himself unable to cope with the teams of the larger towns of late had been allowing the games to go by default.

Saturday's game was specially featured by the excellent work of Action's crack young pitcher, Harry Edmonds. On the score card he has the successful record of 14 strike outs, while allowing but 1 hit.

The file battery, Wane Brothers, worked well also, with 7 strike outs and 9 hits.

The fielding of the team was exceptionally good.

This Saturday League not only gave games provided interest for the week-end but the season's playing had been a success and the local boys of to-day are able to cope successfully with their continental rivals on the baseball field, and thus fulfill the best traditions of former times.

The teams were as follows: Action—Willie Holmes, Volmer, Leishman, McLaren, Edmonds, Hilditch, Health, Allan, Dunn, Glen-Graham, Waite, T. Wane, Mickey, McLeamy, McKittrick, Hynde, Graham and Smith.

A GERMAN RAID FROM BUFFALO

Absolutely no Truth in the Absurd  
War Head Report

BUFFALO Germanic Committee  
KRAIBURG

One or two of the city dailies published a rumor last week to the effect that there were 7,000 Germans in Buffalo, armed superior to the State militia, whom they had "On to Canada," and who intended at the most favorable opportunity to raid this country.

Captain Charles F. Gamble, of Buffalo, formerly of Action, was an esteemed officer in the York Patriotic office on Tuesday.

When interrogated concerning the rumored armed corps and proposed raid the Captain characterized the story as absolute falsehood and without any foundation whatever.

"Why," said he, "only last Wednesday evening there was held a mass meeting of the anti-American Americans of Buffalo in one of the largest halls in the city. Address on the war was given by leading statesmen, lawyers and physicians, and resolutions were passed to support the Kaiser for continuing the war, and yet, participating with the German people because of the position in which they are placed, and 2nd, pledging themselves to support no fund to aid Germany with war expenses and confining their subscriptions to funds in support of the Red Cross work, of their native land."

The only possible excuse for the rumor, Capt. Gamble says, was the fact that a certain friendly society, with a large membership of foreigners, met in Buffalo in their parade and carried wooden guns similar to those used in their native land.

Capt. Gamble says, was the fact that a certain friendly society, with a large membership of foreigners, met in Buffalo in their parade and carried wooden guns similar to those used in their native land.

John W. Adams, all of Georgetown, Two sisters and two brothers are Mrs. John Spurling, Vanguard, Hank & Mr. James Cleave, Georgetown; Mr. H. L. Walker, of Guelph, and Mr. John Walker, of Georgetown. The funeral took place on Monday at Guelph Cemetery, the service being conducted by Rev. R. M. Headlam. The pall bearers were six nephews: Herbert Cleave, Percy Cleave, Harold Cleave, Robert Cleave, Louis Cleave and George Cleave—Henderson.

THE TIDE OF WAR HAS TURNED

German Sweep Back by British and  
French all Along the Line

80,000 GERMANS TAKEN PRISONERS ON TUESDAY

The general sweep at the best of war has changed its direction and henceforth the German advance has been weakened by the British and splendid staying power of the British and French troops, while the Russian armies have assailed Austria with tremendous force and are marching rapidly and surely toward Berlin.

If the "war" is in a moment of the war were about increase in foot prices, let our milk men manfully take up the burden of Empire and help to tide over the present difficulty by adding no unnecessary burden.

Because of scarcity, but poor people will feel like saying, let the only value in milk be the cream possible.

Yours respectfully,

Editor ERICK PAUL
