

NEWS FROM HOME

When the evening shadow falls at the closing of the day. A fella' follows from home, smiling at his pipe of glory. Nothing else in the world so good, but fortune up or down. As the little country paper from his Old Home Town.

It ain't a thing of beauty and its print's not always clean. But it strengthens our temper when a fellow's feelin' mean. It takes the wrinkles off his face an' brushes off the frown. That little country paper from his Old Home Town.

It tells of all the parties and the balls of Pumpkin Pie. 'Bout who spent Sunday with who's girl, and how the crowd'll give. An' how it keeps a fellow posted who's up and who's down. That little country paper from his Old Home Town.

Now, I like to read the 'dailies and the story papers too. And at times a paper or two and some other trash—don't you? But when I want some other stuff, I want that little paper from my Old Home Town.

GENERAL GENERAL ORDERS

Order further notice the following scale will be in force: For dropping a bomb on a hospital, one Iron Cross. For dropping a bomb on a church, two Iron Crosses. For dropping a bomb on a cathedral, ten Iron Crosses.

The old scale of one Iron Cross for killing a child, five for killing a first-class nurse and two for killing a woman will still be in force. Commanders are urged to lay the utmost fine on captured towns which the place can stand. The Fatherland needs the money.

Use the white flag whenever possible for the purpose of luring on detachments of the enemy to places convenient for slaughtering. A white flag is only a scrap of linen. Mine-layers should always be disguised as hospital ships. Continue the good work of annihilating all the contents of the little arseholes you find, particularly of the trenchcoats. England will continue faithfully to support you.

Papa William. Use Miller's Worm Powders and the battle against worms is won. These powders correct the morbid conditions of the stomach which nourish worms, and these destructive parasites cannot exist after they come in contact with the powder. The worms are digested by the powder and are speedily evacuated with other refuse from the bowels. Roundworms is important to the organs and the health of the child steadily improves.

Drive Asthma Like Magic. The immediate help from Dr. J. D. Kellogg's Asthma Remedy seems like magic. Nevertheless it is only a natural remedy based on a natural remedy. The smoke or vapor, reaching the most remote passage of the affected tubes, loosens the mucus and opens a way for fresh air to enter. It is sold by dealers throughout the land.

WANTED BORN HIMSELF. A travelling agent for a large wholesale grocery house was selling a bill of goods to one of his customers, a grocer in a little village. "Now," he said, "to wind up with, don't you want a few cans of our maple syrup? You'll find it the best you have ever kept in stock."

"No," said the grocer, "I've got plenty of maple syrup." "Why don't you get it? I don't remember selling you any when I was here on my last trip."

"You didn't? I got this in the country." "It's the real stuff!" "That's what I want. My brother made it in his own camp. He's got five hundred trees."

"I'd like to taste it." "A sample of the country maple-syrup was brought out. He tasted it, and took the grocer to one side. "Say," he said, in a low tone, "I'm not going back on the strictly pure goods I sell, of course, but I want a gallon of this stuff for my own use."

BE FAIR TO YOUR OPPONENT. Do not assume that whoever disagrees with you is either dishonest or a fool. Some people cannot argue a question in which they are interested, but they are not untruthful. It is a narrow world which is unable to recognize that broad differences of opinion are compatible with average intelligence and perfect candor. Be fair to your opponent. Take it for granted that he wants to get at the truth as much as you do.

THE IMPATIENT PATIENT. A wealthy and rather autocratic city man went to consult a leading doctor, who asked him a great many questions. The impatient one, who was not accustomed to being cross-examined, got impatient, and said: "I came here to be cured, not to be questioned." "Oh," replied the doctor, coolly, "then you had better go to a veterinary surgeon. He's the only doctor I know of who cures his patients without asking them any questions."

PAVA AS A BOY. Willie was dining pounce in the corner. Presently he thought about pounce. "Can't help it if I'm not perfect," he sighed. "I never heard of but one perfect boy, anyway."

DR. WOOD'S NORWAY PINE SYRUP. Will cure the cough or cold and prove a preventative from all throat and lung troubles, such as bronchitis, pneumonia and consumption. Mrs. H. H. Bruce, Brighton, Ont., writes: "I'm writing you my testimonial of your Dr. Wood's Norway Pine Syrup, telling you what it did for my little girl. The doctor had given her up as she was, as we thought, going into a coffin. I had a friend tell me of 'Dr. Wood's' and when she had taken two bottles she was out on her feet again, and four bottles cured her."

'WAR IS HELD'

To the Editor: The Liberal Advocate of Columbus, the state organ of the liquor interest, objects to the statement of Congressman Hanson that "hundreds of thousands of deaths are caused by liquor every year." In the Editor of States. But it speaks with approval of the scientific study of the subject made by E. B. Phelps and endorsed by the Medical Research. His study based on the census of 1910 "attributes the mortality among the Liberal Advocate, "that alcohol caused 64,000 deaths" in the United States in one year. And the editor states that the Brewster's Journal endorses these figures. Very well, but out of all the deaths caused by alcohol, how many are reported as such by the doctors. Leave out the murders, drownings, accidents, suicides, apoplexies, heart failures and cases of senile dementia as that other disease cannot be thrown off. Take only the figures that are endorsed by the liquor doctors' publications and you have 61,000 killed by alcohol in the United States alone every year. This is more than were actually killed in the United States in the war between the United States and Spain put together—more than have probably been killed in the present terrible slaughter in Europe. Statistics you are noted for your scholarship. The statement said that drink killed more than war, famine and pestilence and you can see how he was right. A recent writer asks "if war is hell what shall we say of the liquor traffic?" H. Amott, M.B., M.C.P.R.

CASTORIA For Infants and Children In Use For Over 30 Years Always bears the Signature of Dr. J. C. Fletchler

No man or woman should holdle painfully about because of corns when so certain a relief is at hand as Holloway's Corn Cure. There are more ways of spending money than there are of making it. A house of nine to one in which the wife laughs at her husband's stale jokes. But when a man's act sets up it may worry him more when his wife does likewise.

PILES You will find relief in Zam-Buk! It cures the burning, stinging pain, stops bleeding and brings ease. Permanence, with Zam-Buk, is guaranteed. Write for this! All Druggists and Grocers.

The cheapness of Mother Gray's Worm Expelling Remedy puts it within reach of all, and it can be got at any drugstore.

NATURALLY. A Washington man, says "Bellevue," while visiting a friend's place in Virginia became much interested in his experiments in fruit-culture. One day the visitor was making the rounds of the place, being in charge of the friend's young daughter of ten, who acted as a guide.

Children Cry FOR FLETCHER'S CASTORIA AN ANTHEMICAL. Awkward mistakes occur sometimes through falling into misapprehensions of expression. A parson had a habit of frequently saying "for years and years and years" in the course of a sermon. He was preaching on the Prodigal Son, and spoke of his sitting down in that far-off land thinking of the home that he had not seen "for years and years and years."

YOU SHOULD BE AFRAID OF A COUGH OR COLD. Coughs and colds do not call for a minute's rest of symptoms as they are not so well known. All the most serious affections of the throat, the lungs and the bronchial tubes are in the beginning, but cough and cold.

Children Cry FOR FLETCHER'S CASTORIA TOMMY'S BRILLIANT IDEA. As a humorist of the ministers of New York, Dr. Johnston, of the Methodist church, told this story: "One of the members of my church has insisted into his family the belief that the collection is a vitally important part of the service."

Children Cry FOR FLETCHER'S CASTORIA. Many a clerk falls to see an opportunity because he keeps his eye on the clock. He does not see it, but he is in the circle. It is hard luck that comes about. Many a man's conscience lies in a state of innocuous obscurity until his wife begins to sit up and take notice.

Children Cry FOR FLETCHER'S CASTORIA. Mrs. H. H. Bruce, Brighton, Ont., writes: "I'm writing you my testimonial of your Dr. Wood's Norway Pine Syrup, telling you what it did for my little girl. The doctor had given her up as she was, as we thought, going into a coffin. I had a friend tell me of 'Dr. Wood's' and when she had taken two bottles she was out on her feet again, and four bottles cured her."

Children Cry FOR FLETCHER'S CASTORIA. Mrs. H. H. Bruce, Brighton, Ont., writes: "I'm writing you my testimonial of your Dr. Wood's Norway Pine Syrup, telling you what it did for my little girl. The doctor had given her up as she was, as we thought, going into a coffin. I had a friend tell me of 'Dr. Wood's' and when she had taken two bottles she was out on her feet again, and four bottles cured her."

A FRIENDLY INTEREST

After greeting those in her usual stately manner, Pat Patricia announced that she had come to help her cousin with her shopping. Boss, the Chicago News explains, was in town to purchase a trousseau and some of the furnishings for the little house that was being fitted up in the country. "Clothing will be quite simple," declared Patricia. "You've such a slip of a thing that you can wear anything. You will even be able to buy smart, stylish ready-made, while I—great tall specimen!—have to patronize a high-priced man tailor." Then she continued: "I've been thinking about your house. I believe the design is the best thing for the shoe department."

MRS. MABEN WAS MADE WELL By Lydia E. Pinkham's Vegetable Compound and Wants Other Suffering Women To Know It. Mrs. Maben, Tenn. "I have tried to write to you for a long time to tell you what your vegetable compound has done for me. I was a sufferer from Dr. J. C. Fletchler's Compound and I would have such tired, worn out feelings, sick headache and dizzy spells. Doctors did not seem to do me any good so I tried the Lydia E. Pinkham's Vegetable Compound and want other suffering women to know about it. Mrs. H. E. Maben, 211 E. Spring St., Murfreesboro, Tenn.

Why Lose Hope. No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial. If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) 253 Central Bldg., Lowell, Mass. We will be glad to answer you and hold in strict confidence.

WAS ALL RUN DOWN WITH HEART TROUBLE AND NERVOUSNESS. When the heart does not do its work properly and the nerves become unstrung the whole system becomes weak and runs down, and the building up before you can feel fit again. Milburn's Heart and Nerve Pills will do this for you.

COMBINATION. "What is combination?" asked the Sunday School teacher. There was a dead silence from the class. "Oh, you know, she said encouragingly. "What is it that tells us when we do wrong?" "I know," said the little girl in the class. "It's grandma."

Children Cry FOR FLETCHER'S CASTORIA. An Oil That is Priced Everywhere. Dr. Thomas' Electric Oil was put upon the market without any flourish or thirty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this hemisphere. There is nothing equal to it.

Children Cry FOR FLETCHER'S CASTORIA. Many a clerk falls to see an opportunity because he keeps his eye on the clock. He does not see it, but he is in the circle. It is hard luck that comes about. Many a man's conscience lies in a state of innocuous obscurity until his wife begins to sit up and take notice.

HOMESPUN PHILOSOPHY

There's an emphasis on traffic on East Street. A firm which is hopeless without a still upper lip. A letter must feel funny when a holiday comes along. I hate to eat by a fellow that holds his arms like a snare drummer. "Till Binkley found \$2.00 in a shoe store yesterday he can't think who he owes 'em to."

MRS. MABEN WAS MADE WELL By Lydia E. Pinkham's Vegetable Compound and Wants Other Suffering Women To Know It. Mrs. Maben, Tenn. THE BOY WHO SMOKES

Much of the sermounding to boys on the subject of smoking is ineffective because it is illogical and unfair. Warnings are drawn from isolated and exceptional instances of the evil effects of smoking, and comparisons are made between smokers and non-smokers that, when analyzed, prove nothing. Patience was knowledge of that fact that had Doctor Park of the University of Ohio to attempt an investigation that should have definite and trustworthy results. He gathered his facts from the football squads of various colleges and universities, through the physical director who have charge of them. He selected the football squads because they are made up of young men of exceptionally good physical condition and of at least fair scholarship for all the institutions considered. The eligibility rules bar men of low standing from such teams. Usually, too, the football men are more alike than the members of any group could be if taken at random from the whole student body.

Booster Park received detailed figures from the average number of the smokers and non-smokers for positions on the first eleven of those six colleges, one hundred and sixteen were non-smokers and ninety-three were smokers, that is, 15 men for every 100 men who were not in training. One-third of the smokers and two-thirds of the non-smokers "made" the teams, and the ratio was about the same for each of the colleges taken singly. The lung capacity of the smokers was found to be on the average about thirty cubic inches—nine per cent. less than that of the non-smokers.

Why Lose Hope. No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial. If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) 253 Central Bldg., Lowell, Mass. We will be glad to answer you and hold in strict confidence.
