WHY YOU ARE NERVOUS
The nervous system is the alarm system of the human body. In perfect health we hardly realize that we have a network of nerves, but we realize it when, when strength is declining, the same nervous system gives the alarm. Headaches, dizziness, trembling, sleeplessness, irritability and unclean thoughts are straight to a breakdown. To correct nervousness, blood's condition is exactly what you should take; the rich nutrient gets into the blood and feeds the brain, feeds the nerves, feeds the whole system, restores to its normal condition, free from impurities.

CLOSING THE FINANCIAL YEAR

The Methodist Quarterly Official Board held its last meeting Friday evening.

RESOLUTION TO REV. MR. DRAPER
The closing business of the conference year of the Methodist Church was transacted by the Quarterly Official Board last Friday evening. The results were highly gratifying. Notwithstanding the removal of a number of liberal supporters during the year, and the increase of \$100 in the salary of the pastor, the finances came in so generously that the Board was able to pay all indebtedness in full, and a handsome surplus remains in the hands of the Treasurer.

At the conclusion of the business of the evening the following resolution was carried by a unanimous standing vote:
Resolved that this Quarterly Official Board desire to place upon record its high appreciation of the valued ministry, the Christian character, and the helpful spirit of our beloved pastor, Rev. Chas. D. Draper, during the past four years. He came to us in response to our earnest invitation, with a whole heart, determined to give to the work of the church here the very best that was in him. He has had a very successful ministry; a ministry attended with great blessing to us and to our people personally and to the church as an institution. His efforts have been untiring, his teaching has been scriptural and inspirational, and his methods have had the endorsement of all who have been interested in spiritual progress and material prosperity. Through his ministry here his sermons have been thoughtful, carefully prepared and full of interest. Never has this characterized them more than during the past few months. The same has been true of his conduct of the mid-week services. They have grown in interest to those who have taken an interest in them, and none have been more helpful to a fuller understanding of the scriptures than our studies of the book of Corinthians during the past six months. We regret exceedingly his removal from amongst us, but we bow joyfully to the inevitable laws of our beloved church and bid him an affectionate goodbye. We desire also to bear testimony to the value of Mr. Draper as a true helpmeet to her husband in his pastoral work in Acton. He has shown the love of all by his uniform spirit of friendship and helpfulness and has ever been ready to perform all the duties that naturally fell a pastor's wife. We unite in the prayer that the richest blessings of our Heavenly Father may rest upon this faithful pastor and his family, and we sincerely express the hope that even greater success will crown his labors in the larger field with its greater responsibilities to which he will respond at the close of the present church year.

Of Local Interest Because of the Personal Element
A letter from Mrs. Edwin Maddock to his mother this week from England says he is at Blenheim and that Warren Brown, of the Canadian Engineers, is in the same camp.

Children Cry FOR FLETCHER'S CASTORIA
Tartar Dressing for Hair and Nails.
Twenty-five hundred gallons of tartar was delivered on Hill and Main Streets for the coating of new buildings. Mr. Honkley, representative of Patterson Bros., the manufacturers of tartar, was here on Tuesday and gave instructions and started a gang of men applying this new road covering. This work was commenced at the intersection of Main Street and Bower Avenue. The road is swept clean down to the macadam and then the tartar is brushed in, and after a couple of hours a thin coating of sifted sand is spread over the surface. It looks as if the tartar would save a double purpose, that of improving the surface of the road and consolidating any loose stones, and also of effectively keeping down the dust. The work will occupy some time. Main Street is to be coated from Bower Avenue to Church Street, and Hill Street from Park Avenue to the G. T. R. crossing.

Even the man who feels that he is born to command might hesitate before marrying a suffragette.

LOST LOVE.
Who will love still love her,
Who loves her still love her,
For still the spirit waxes here—
A soul without a stain—
And memory still purifies her—
With brightness not in vain!

He loves her who calls her,
Who watches day by day,
The dust of time that stings her,
The grief that leaves her gray,
The flesh that yet enshines her—
Whose grace hath passed away!

Oh, happier he who craves not
The love some seem to gain,
The joy that custom vitiates not
Happily still with him remains,
The fervor that waxes not,
The love that never can wane

In dreams she grows not older
The kind of dream among,
Though all the world was colder,
Through all the years to come,
In dreams she holds her hold,
The fervor that waxes not,
The love that never can wane
—Andrew Lang
