THE WONDER OF IT

To the Editor : The following from The White Ribbor Tidings should be spread as widely and repeatedly as often as possible till we profit by the example.

"Although Russis is at war it seems in many respects to be enjoying a new leaven and a new cartle. The treasuries of the saving's banks are bulging. During the eight months ending April 1st, 1014, the increase in the savings amounted to only \$3,25,000. Then the war came on with its unprecedented expenses but prohibition is the order of the day in all Russia and during the eight months from October lat, 1014, to April 1st, 1015, the increase in the saving's lanks has amounted to \$150,000,-000 or forty times as much as before proble-

The effect on the health of the nation has been just as marvellous. The falling off in discasos, capacially those caused by alcohol or, those to which alcohol contributes has, fallen off over seventy per cent.

From July to December 1913, there wer in Petrogred alone 07 suicides, but between the same dates in 1014 sulcides were reduced to 14. In Warsaw during the same periods, suicides were reduced from 410 to 305." Vacta like these must rouse people to shake off the use of this deadly drug.

But the liquor interests have employed the most clever writers to deny the truth of these facts. We must remember that temperance people have nothing to gain but the welfare of the nation while the liquor mon are fighting to retain this money making monopoly. H. Arnott, M.B., M.C.P.B.

Burdock Blood Eitters COMED HIM

Boils are caused by bad blood, and unless the blood is made pure you cannot expect to get rid of them. Ointments and salves will do you no good. You must get at the seat of the trouble by using a good internal blood purifying medicine such as that grand

old remedy Burdock Blood Bitters. Mr. Samuel Buckler, Tatamagouche, N.B., writes: "Last summer I was constantly troubled with boils. I had nice on my arms at once. I thought it was caused from bad blood so I got two bottles of Burdock Blood Bitters, and before the first bottle was done I began to feel a great deal better, and before the second one was finished I did not have a boil, nor have I had one since I cannot recommend B.B.B. too highly. OLD ENGLISH SOVEREIGNS TURN UP

"N" writer .- I came scross what ballave to be a fact of a rather interesting character to-day. In 1872 when France was paying her indemnity to Germany, it was stipulated that a certain amount should be paid in English sovereigns. Hirange to say, these English sovereigns, as can be proved bayond all doubt, are beginning to fliter through English banks to-day, showing that the boxes in which they were stored have been unopened all these years, and kept, no doubt, as a war chest. The fact that they are the original soveralgas I am informed on high banking authority, is beyond all controversy. Is not this rather significant?

RECORDED A LEADER

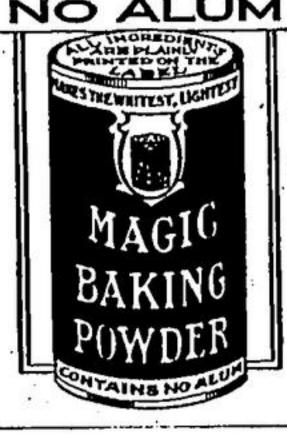

The way to become a leader is not the study of the art of persuasion. Never mind about trying to coax your neighbor to do something he is disinclined to undertake. Develop yourself. Xearn to have opinions of your own. If a man is strong and decided, he becomes a leader without trying. Others turn to him instinctively. One who attempts to somulie leadership any other way then by self-development is likely to degenerate into a mere wirepuller.

HER LAST WORDS

She was a small and vivacious person of too, and had been allowed to sit up for the late dinner only on condition that she would not speak except when one of the guesta spoke to her.

The preparations for the feast had been carried on during her absence at School. When she entered the dinleg-room on tiptoo with excitement her gaze lighted on some candied fruit, ordered from the city. and arranged in the best china dish, in the contar of the table.

Har eyes fairly bulged, but remembering her promise, she asked no questions until the dinner was well underway. Hhe had been wriggling in her chair for some noments, and at last could bear no more. LEE LEARNED "ALLIGHT"

Like many another New England house. wife, Mrs. Grooms was (amiliar enough with the old-fashlened "One-Two-Three-Four Cake," the withmetically progressive recipe for which calls for one cup of butter, two of augar, three of thour, and four ougs. Her daughter thrace, who married several years ago and went to Han Francisco to live, has recently come back with her children for a visit. When the timest of her grandsons one day begged for "One-Two-Three-Five" Cake for supper, Mrs. Greene laughed the delighted laugh of the grandmother.

"Itlans the boy !" she oried. "Just hear him trying to count !" "Oh, Hilly can count, mother," sald

he could make it exactly as well as I. "Bo I measured out the butter, august and flour, and began to break the eggs. I broke three, one by one, and turned them into the bowl for heating r but as the fourth scomed the least bit 'doubtful,' I stepped to the door and throw it into the pail, and coming lack to the table. I broke another egg, which proved to be good.

"Bhortly afterward I happened to be in the kitchen when Lee was making this cake. He broke three eggs into the lawl, as I had done, and then stepped to the door and threw out the next egg--which was perfectly good.

"When I protested, he said, 'I makee cake sames Missee.' And when I looked knew there was no use in combating the centuries of the Chinese Empire. I gave up, and just changed the name of the cake.
