Alout ins one largerelater 'And he can tell the name Of any lug that ever lived ... And place from which it came, He knops all sorts of butterflies

In cases made of glass, Each one arranged, so he tells us, According to its class ; And bogs that shine like fewels fine, Bright green and rod and gold, In such a great variety As never could be told.

He one day Tom and Dan and I Thought we would like to poke Some fun at uncle, and we three Agreed upon a Jake. We searched the woods a whole week

For log and back and wing, And finally with pasto we made What somed a living thing !

Oh, then in what gloo we went' Bod, uncle, can you tall The name and class of this strange bug You know them all so well ?" He took it, turned it up and down

And scanned it in and out : Then, smiling said, "Why boys this is A hum-bug, beyond doubt?" -Youth's Companion

THE MUSKRATS OF NORTH AMERICA

The palt of the Muskrat, the water rodent of our march, lake and stream unquestionably the most serviceable and profitable of any of the fur bearers of North America. The Muskrat makes his home in every state in the Union and every proother land. Only a few years ago, the attempt was made to transplant and raise Muskrat in Hohemia, and strange to say, in his new house he soon degenerated into what we in America know as a commor wharf rat with no value in his polt as an article for furriare' use and a nulsance be-

youd control The writer, Mr. A. B. Shubert, President of A. B. Shubert, Inc., Chicago, dealing throwing the basket down the staircass exclusively in American raw fure, made a said, "If anyone tolls you that one of yo personal investigation of the Muskrat in Bohamia, visiting Prague and Smichow, the neighborhood where the American Muskrat was first planted. The geography of this country is about the same as the Northern States, the climatic conditions will compare very favorably with Illinois, Indiana, Ohlo, Wisconsin, Michigan and Ostario and the temperature will average about the same.

The importation of the Muskrat was manifestly made with the intention to settle the race in Bobenia and increase them, so as to obsepen the pelt that was imported from America. The animal got quickly socilmated and the number was greatly increased. Notwithstanding all this, it was made plain that the experifrom female troubles. But I took Lydia E. Pinkham's Vegetable Compound, and today I am in good health and have a pair of twin boys two months old and growing finely. I surprised doctors and neighbors for they all know what a wrack I was point of view. Why the animal should so deteriorate in the quality of its fur, no one as yet has been able to explain.

A PART OF YOUR RELIGION

Louise Alcott, the author whose rule a hymn of their own composition at the the hearts of girlhood of three generations has been unrivaled, once said that it was a part of her religion to look well after the obsertalases of life. Too many people seem to think that obserfulness is optional with a Christian. If it happens to 86 ir with your natural temperament, it is very becoming, as plak or yellow are to certain complexions, but that after all, there is no obligation to wear it. But obserfulness in too necessary to usefulness to be left to individual choice. It should be regarded as a part of ode's religion, as necessary as faith and love.

Barcason is not an indication of brilliancy as some people seem to think. The one who pan wilfully cause another pale, mental or physical, is not right.

The person who makes habitual use sarcasm has something wrong in his man tal equipment. It hurts, sarosam doss. Barosatio people, those who, make general practice of its use, deserve wha
