

**BORN**  
LAWSON—In Acton, on Monday, 3rd January, 1916, to Mr. and Mrs. John Lawson, a daughter.  
**MARRIED**  
HARRISON—At the home of the bride's parents, Lake Avenue, Acton, on Wednesday, 5th January, 1916, by Rev. J. C. Wilson, M. A., E. J. Harrison, Groom, H. Anton, to Margaret, daughter of John Harvey, Esq., Acton.

**DIED**  
ROSE—In Mount Pleasant, on Saturday, January 1st, 1916, Frances Charlotte Nicklin, beloved wife of John Rose, in her 75th year.  
**MACDONALD**—At the home of her son-in-law, John A. Mackay, Oakville, on Wednesday, December 25th, 1915, Catherine Mackay, widow of James Mackay, formerly of Acton, aged 82 years.  
**BOYD**—On Wednesday evening, December 29th, 1915, at 18 Orléans, Toronto, to Miss Victoria Annala Boyd, daughter of the late Rev. James Scott, Owen Sound, and only sister of Mrs. Scott, 1477, Toronto.

**The Acton Free Press.**  
THURSDAY, JANUARY 6, 1916  
**EDITORIAL NOTES**  
How would it do for Acton to do as some other towns are doing, viz., take a census of all medically fit unmarried men of military age? This and the "chum" plan might very appreciably increase the local contingent.

The general officer commanding at Borden has issued a circular order congratulating Canadian troops on their good conduct. The general adds: "The proportion of drunkards is less than the usual record of regular troops, even in times of peace."  
Great Britain now has enough in France to face the maximum effort the Germans are capable of making. It is announced that the Indian troops, who have been in that country for a year, as part of the expeditionary force, have been transferred to another sphere of operations, confirms the fact of Britain's confidence along that line. Canada's contribution of soldiers is now to be increased to 500,000.  
Acton still has the unenviable distinction of being the only place in Ontario in the past five years to have a local option by-law. And this record was carried by only six votes. On Monday, Owen Sound, after ten years' experience with local option, defeated the by-law to repeal it by a majority of 478. A similar result was possible in Acton. There were only four repeal votes, in every one of which local option was sustained.  
The Yukon just closed has brought about some rather startling changes in the financial position of the Dominion. While Canada has borrowed as never before, more than half the loans have come from within the country. Of the total borrowings of \$31,000,000, over \$17,000,000 was supplied within Canada, and the balance is made up of millions of dollars leaving the country in various ways which will go into the pockets of Canadians. While Canada's interest debt to the United States and Britain has increased to \$175,000,000, the trade balance in her favor is in the millions of dollars leaving the country in various ways which will go into the pockets of Canadians. While Canada's interest debt to the United States and Britain has increased to \$175,000,000, the trade balance in her favor is in the millions of dollars leaving the country in various ways which will go into the pockets of Canadians.

**CHURCH COMMUNITIES**  
Quite a number around here are suffering with colds.  
Lorne School is being repaired and the scholars are enjoying another week's holidays.  
Mr. and Mrs. Alger Crisp, Acton, spent Sunday with friends here.  
Miss Emily Young, Erin, spent last week at Mr. W. A. Murray's.  
Mr. and Mrs. Wm. Dennis spent New Year's holidays in Guelph.  
Mr. W. A. Murray spent Sunday with friends in Erin.  
Mr. and Mrs. James Moore and Misses Olga and Lavonia spent the holidays with friends in Detroit.  
Pia George Laxenay and Mrs. Laxenay, Guelph, visited at Mr. J. Bennett's on Sunday.  
Master Clifford McLaughlin, Erma, spent last week at his sister's, Mrs. B. Crisp's.  
Mr. and Mrs. Arch. Corrie and children, Acton, spent the holidays at Mr. George Graham's.  
Mrs. Jas. Deen and children, West Toronto, spent the holidays at Mr. Edwin Clave's.

**ERIN**  
The elections in this township on Monday result as follows:  
Reeve—Alex. McKinnon.  
Deputy Reeve—E. Howick.  
Councillors—James Millroy, Wm. Burrows and Sam Gillson.  
Deputy Reeve Howick has served faithfully in the Council and the electors have rewarded him by raising him a step this year. None of the Councillors served in last year's Council.

—Mr. Robert Stuart, Jr., of Inglewood, has purchased a 75 acre farm, lot 3, lot 6, east of Centre road, Cleidon, from Mr. E. J. McBride. Sale was made by J. A. Willoughby, Georgetown, Ont.

**Acton's Welcome to Her Returned Soldiers**  
**Was Cordial and Enthusiastic and was Attended by Many of our Citizens**  
**GOLD WATCHES PRESENTED**  
The welcome to our soldiers who have returned inviolated from the war, arranged by the joint committee of the Council and leading citizens for Tuesday evening, was a cordial tribute to their heroic and loyal service.

Acton Citizens Band escorted the returned soldiers, Sergt. Cole and Pte. Lane, both of the 16th Battalion, from the Station Hotel to the town hall at eight o'clock. They were accompanied by Lieut. Douglas, Master Collier, Pte. Wallace of the 70th Battalion, and Pte. George, Pte. Scarrow, Pte. Wallace, Pte. DeForest, Pte. Matthews and Pte. Swankhamer, all recently enlisted in the new Halton-Dufferin Battalion, 1916.  
The returned soldiers and the accompanying contingent were met at the town hall by Leave Hynds, chairman of the Reception Committee, and escorted to the platform amid the plaudits of the large gathering. The members of the Committee were also seated on the platform.  
The band played the National Anthem after which Masters Harold and Albert Willoughby sang with splendid effect a patriotic song.  
The first man called Sergt. Cole and Pte. Lane to the front and addressed them in warm words of welcome and made kindly reference to their loyalty, courage and patriotic service in behalf of the Empire until the time of their being honorably discharged at the close of the war. He said the citizens of Acton took this method of honoring them a whole-hearted welcome and giving expression to their appreciation of their heroic work as soldiers at the very time of their discharge. The citizens had decided on behalf of the town to present each with some suitable testimonial which would be appreciated and this had taken the form of a gold watch.

Mr. H. P. Moore, Secretary of the Committee, then handed each a beautiful open-faced gold watch, bearing the inscription of the recipient, and the following inscription with the name of recipient:  
PRESENTED TO  
SERGEANT W. COLE  
BY HIS COUNTRYMEN  
1916  
The case of the watches are the new "The Comet," No. 14 size, manufactured by the Hamilton Watch Co., Toronto, and specially engraved by them for the Committee. The movement is a full-jawelled Waltham nickel with the new style of silver and gilt dial, making a most complete and durable watch of the latest design.

Sergt. Cole made an appropriate reply, expressing his sincere thanks for the splendid reception and valuable gift of the citizens of Acton. He appealed to the young men of the town to follow the example of those who had already gone to the war and those who had recently enlisted. Every man was needed and the new 16th Battalion would welcome them to their service.  
Pte. Lane also thanked the citizens for the splendid gift of the watch and the kind and generous welcome which he had received. He said that he was very glad to be back in his own country and to be able to see his friends and family. He said that he was very glad to be back in his own country and to be able to see his friends and family. He said that he was very glad to be back in his own country and to be able to see his friends and family.

**ANOTHER \$40,000 COUNTY BRIDGE**  
The Twelve Mile Creek Bridge in Nelson Township now Under County Control  
Judge Elliott has delivered judgment in an important action brought by the Township of Nelson last June, to have the bridge in Nelson, known as the Twelve Mile Creek bridge, declared a county structure. The Judge's award makes it a county bridge.  
The bridge in question is on what was once known as Governor Simcoe's road, running from Toronto, and is now known as the Twelve Mile road, and at a point where the road crosses the river of the creek, which runs for over a hundred feet deep by from three to five hundred feet wide at this location. The original bridge was built in 1852 and was a simple beam bridge, spanning the ravine a short distance from its top, and was built by the government. Some thirty-four years ago when the bridge required to be replaced, the government left it in the hands of the township to build it, and, to economize costs a cutting was made from the bank on each side to use the level of the river as a base. The bridge was then by a bridge partly made by a fill of earth and stone, and the balance by the present masonry. The grade of the bridge in some places reached down ten feet, making it not only dangerous, but in some places it was almost impassable. A new bridge with proper grade suitable for modern road-building is estimated by City Engineer Macaulay, of Hamilton, will cost in the neighborhood of \$40,000.  
How to Cook Roman Meal Porridge  
Invariably use double boiler, or set boiler in kauls of boiling water, and water boiling in both vessels, that in inner one salted to taste. Slowly stir in one cup Roman Meal to each two cups water. Cover, but do not stir, and never stir again, until white. For early breakfast cook at evening meal and warm in morning, using a little less Roman Meal. It's a dark, nutbrown, granular, rich porridge. It nourishes better than oatmeal, possesses a delicate and positively refreshing palatability or "mooney" look. Ask your doctor. All grocers, 10 cents and 25 cents. Made by Roper Mill Co., Toronto.

**WHEN THE SUN DIES.**  
Deadly Haze the Change Will Bring Upon Our Planet  
"If the sun should go out how long would it be before darkness would appear on the earth?" asks a reader.  
Eight minutes, eighteen seconds and five hundred and sixty-six one-hundredths of a second!  
At the end of that brief interval of time the blue curtains of day would disappear as if by an alchemical hand and be replaced by a dark and cold night. The sun would still be shining, but its light would be so faintly reflected by the atmosphere that it would be as if it were not there.  
At first the disappearance of the light would be the thing most troublesome to us, but as time went on a still more serious danger would befall us. The earth would begin to creep over the sun's surface, and out of the dark and frozen air, all around the globe, a pallid snow would descend, as the atmospheric moisture condensed. When days and weeks had elapsed the awful cold of outer space would chill the atmosphere down to the earth's surface and animal and vegetable life would fall perished in the endless winter of universal night!

**ACTION OF PEROXIDE.**  
It Cleanses a Wound, but Does Not Aid in the Healing Process  
"It would be well for people to understand what peroxide of hydrogen will do and what it will not do," remarked a dentist just after extracting two old roots out which a large abscess had formed. "It is one of the best, if not the very best, antiseptics we have, but it has no healing qualities. Many people imagine that it will heal a sore place in the mouth, yet that is just what it will not do."  
The dentist just injected peroxide and water into the cavity in the gum from which I extracted those roots. I did that to destroy the pus that had been formed by the abscess, for that is the use of peroxide. It will chemically with the pus and kills the germs that make it. But this is all that it does. And if you continue to use it you will retard the healing instead of hastening it. Peroxide, if properly used, has injured almost as many mouths as it has benefited. The more you use it the more you retard the healing and all it needs is something to keep it clean while nature heals it. Peroxide will not do that—in fact, it will retard it.  
The dentist then prescribed a healing wash. There are many such, but one having a tooth pulled is foolish to select his own.

**THE FIRST GREAT BUILDING.**  
Greatest Civilian Building in the world to be erected in the city of Toronto, Ontario, and the first ever so far as is known was our Naram-Nippon, who nearly 5000 years ago opened a canal from Nippon to the Bay of Biscaya. This was discovered by Dr. George A. Harton in deciphering some of the ancient Egyptian tablets at the museum of the University of Pnyssylvania. He found a tablet dated "the year when the divine Naram-Sin opened the mouth of the canal from Nippon." This was not an Irish canal, so far as is known, but it was a great canal in the history of Nippon, which carried its transportation facilities with the rest of the world. Naram-Sin was a king of Babylonia, and he is responsible for financing the canal, and it is probably that the work.

**HYDRO RADIAL BY-LAW CARRIED BY OVERWHELMING MAJORITIES IN HALTON AND ELSHWORE**  
The construction of a public-owned radial system in Western Ontario was definitely assured at the elections on New Year's Day and Monday. Of all the municipalities which voted upon the Hydro radial project, only four went against the by-law—the townships of Waterloo, North Easthope, Macpherson and West Zorra.  
The most remarkable fact in connection with the voting throughout was the decided nature of the victory of public ownership. In almost every place where the by-law carried the opposition vote was comparatively small. The most striking example of this were the villages of Milton and Port Credit. The voters in the latter municipality turned in a vote of 134 to 15, while the count at Milton showed but two votes against the by-law and 180 for it.  
Nesawagaw gave three to one for the by-law, Trafalgar seven to one and Esqueping five to one. The votes were, however, small in each of our townships.

**GRATEFUL ACKNOWLEDGEMENT**  
of Services of Sergt. Cole in Saving a Fellow-Soldier at Ypres  
It will be remembered that when the First Passchendaele campaign of World War I was in progress, Sergt. Cole was one of the Ypres engagements last year, that he refused permission to publish particulars of his own courageous exploits under fire. Letters have recently been received from relatives of Pte. Willoughby, who was seriously wounded at one of the Ypres engagements last April, and whom Sergt. Cole carried on his back for over four miles away from the firing line, thus saving his life.  
Miss Ellen G. Dunne, of Edinburgh, sister of Pte. Dunne, writing for her mother, says: "We thank you more than we can say for your great courage and kindness to my brother, Willoughby, who he was wounded in that terrible engagement. We are grateful indeed that the poor boy did not fall into the hands of the enemy, and we feel that such might have been the case if it had not been for you.  
I was lucky in being allowed into the hospital at Aberdeen to see him. Poor fellow, his leg is in a horrible state. I am sure that you will be glad to hear that he is now in four places and a bit of the bone is missing. That is a problem, what to do with that, but he is under the care of one of the finest surgeons in Scotland, prof. Marwick, who performed the operation on the leg. I am sure that you will be glad to hear that he is now in four places and a bit of the bone is missing. That is a problem, what to do with that, but he is under the care of one of the finest surgeons in Scotland, prof. Marwick, who performed the operation on the leg. I am sure that you will be glad to hear that he is now in four places and a bit of the bone is missing. That is a problem, what to do with that, but he is under the care of one of the finest surgeons in Scotland, prof. Marwick, who performed the operation on the leg.
