EDITORIALNOTES

THE Nashville, Tenn., Advocate says "We appear to have now at Washington a Commissioner of Internal Revenue who does not healtste to give the public the facts as regards the progress of probibition. Commissioner Oslierne, in his annual report, says that the retail drink bill of the United States during the last fiscal year was about \$250,000,000 less than the previous year." This is certainly a substantial reduction in the expenditure for intoxicat. ing liquors in a single year. It surely means that prohibition really prohibits to a measureable degree.

PLANS are practically complete for the proposed campaign for a dry Ontario le fore Dominion Day, originated by the Committee of One Hundred. Commencing on Monday, January 24th, and working through the ensuing week. 30,000 canvaneers will collect the names of all males over 21, which will be attached to the huge "white" petition, and the signatures of all males over 18 and under 21, and al females over 18 years, which will be at tucked to the "blue" patition for a dry

Several meetings of Acton Citizens' Committee have been held to make preparation for the work in connection with the petitions of the Committee of One Hundred praying the Government of the Province of Brown. Ontario to close all places where liquor is sold by the first of July next. The petition of this committee, from every polling subthe coming session of the Lagislature. Effective action is confidently looked for as

a result. Preparations are also being made for the lary. circulation of the petition necessary before election on the Canada Temperance Act for Halton. This petition is being got in readiness, so that if the Legislature fails to take satisfactory action upon the patition of the Committee of One Hundred the campaign for the Canada Temperance Ac in this County will at once be prosecuted

vigorously. A campaign for nation-wide prohibition as a measure of soonomic conservation during the war has also been inaugurated at Ottawa by J. R. Booth, Sanator Edwards and the principal employers of labor in that part of the country. The question i occupying a good deal of attention among the members of parliament.

Milton, Oat. Dear Bir-You have doubtless ere this received from our Treasurer an official acknowledgment of the \$27,000.00 recently sent in by your Association. You will permit me, on behalf of the National Executive Committee, to express my appreciation and thanks. When we consider that Halton County has taken care of all the dependents of men who have gone from that locality and still makes this generous contribution to help out other parts of the Dominion that have abnormal recruiting, it certainly speaks well for the patriotism and generosity of your people. Binoarely yours,
