EDITORIAL NOTES

IN a circular addressed to the munitions manufacturers, Hon. David Lived George makes the auggestion, which is virtually a command, that all Sunday labor should be abalished in all controlled establishments. "It is better," writes Mr. Lloyd George, "to work overtime during the week than to of Guelph, until recently paster of the have Hunday work."

Ir Will be a bad day for the liquor fraffic if ever the women get a right to vote. Probably ninety per cent. of the women who can be reached are in favor of profilbition. Another five per cent. won't -sign because of their husbands. Whatever happens just now with regard to the liquor traffic the signs out for the future are deoldedly "stormy."-Guelph Herald.

Tux substantial manner in which the United States is benefiting commercially from the war is shown in her exports. The total for December was \$350,301,000 which was in excess of imports by \$187, 450,000, and an increase over December, 1914, exports of \$113,689,000. Thereby gold is flowing into the United States arge amounts.

TEXMENDOUS enthusiasm signalized the third reading of the woman suffrage bill the Menitobe legislature last week. The galleties were filled with women who have been prominent in the movement for the political equality of the sexes, and they sang and they cheered as the house unanimously passed the bill. Only one member of the legislature, Joseph Hamelin, Conservativelesember for Ste. Rose, had a word to say against it.

There is a sketch in The Canadian Magaxine for Vebruary entitled, "Fragments from a Modern Pompeli", by Britton'B. Cooks, which gives one a vivid impression of what it is like in the shall-devasted area in France. Mr. Cooks is a graphic descriptive writer, and one feels after roadis unsheathed and shall not be sheathed ing his aketoh of a day passed in a sulned French town that one has had an actual glimpes at the raveges of war.

THIS IS & day when the minds of men turn largely toward public service and the betterment of social conditions. It is the time when men are bound together with the purpose of relsing the standards of life and living. It is core as individuals to suggest to our legislators methods for securing improved conditions and to hold them faithfully and vigorously, if need be, shall bring upon them their own iniquity to put into effect our suggestions to them. and shall cut them off in their own wicked.

LANGE CONGREGATIONS PRESENT The opening of the present Knox Church erected to replace the old structure whilel had accommodated the congregation fo half a century, occurred Sunday, February 24th, 1805. It was a typical winter day with frost; anow and annahlue. The anni versary services each recurring year have been hold on dates closely approximating to the original one, and generally with

ordinary mid-winter weather of more loss intensity. The gloom and wet of last Sumlay, when the anniversary acresices making the coming into full age of twenty one years were hold, was in striking con trast, but did not hinder large gatherings, notably in the evening when the rain was groutest.
