The Ladice Ald of Know Ulturels gave very enjoyable reception to the members of the Acton platoon last Thursday evening. The soldiers arrived at the chu ch at H m, and listoned to a varied programme of solos, quartettes, choruses and recitations. It included a solo by Miss Laura Akins, and the men's and the ladies' quartette sang several numbers. Miss Nellie Williams gave very interesting and anusing recitations. The officers of the plateon, Capt. Papplatt, Liut. Kennedy and Llout. Day in brief speeches thunked the ladies for their reception and hospitulity. Itev. C. Wilson B. A., was chaleman. At the conclusion of the programme the officers and monwere invited to surround the tables which were laden with an abundance of good things. Rov. R. W. McWilliams, B. A., of Victoria University, Toronto, preached morning and evening in the Methodist Church last Sunday with much acceptance. He is a logical reasoner, a forceful speaker and in his delivery is somewhat deliberate, giving the impression that only after careful consideration is expression given to his thoughts. Mr. McWilliams is completing his B. D., course and expects to sail in the early aummer as a missionary to Japan. Naturally his sermons were of a missionary character and gave very strong reason why the Christian Church should be aggrossive in its efforts to accomplish the evangelization of the world. One look at the car—one ride in it—and you're convinced that nothing can compete with the Chevrolet.

Now, note what the Chevrolet offers. These features would not be so very remarkable in a several thousand dellar car—but this car sells for but \$675, which makes these specifications not merely interesting—they're amazing.

Let's start with the engine—the heart of the car—and in the case of the Chevrolet, a "heart' with a dependable action. Quiet and smooth-running to the last degree, its valve-in-head motor drives with a steady stream of power. Up the steep hills the Chevrolet climbs with case—already they are calling it "The Wizard of the Hills." It has been found that the lever remains in high gear 95 per cent. of the time.

The feeling of ease and security you have in a Chevrolet comes from its low centre of gravity. It "clings to the read" although it has especially high read clearance; so that, on any kinds of reads, you have centrel of the car, and an upset is not to be feared.

You won't the in the Chevrolet, whether in the front seat driving or in the tenness reclining.

You won't tire in the Chevrolet, whether in the front seat driving or in the tonneau reclining. Pirst, because it's roomy, seats five people comfortably. Second, because it has cantilever springs on rear and double-acting patented
