### A GREAT RESPONSIVE

No matter how you work or try,  
To make some other person good,  
You'll very often find it's all in  
Your heart, and then there you would,  
With all your thoughts, with all your care,  
They slip away from your control;  
You can't quite get their little steps,  
Or lead them out of their ways.

Yet there's one person—always one—  
O'er whom you have a wondrous power,  
Who never breaks your least command,  
Or leaves your wishes for an hour.  
O'er whom you have no power train,  
Your will is done, where ever you force  
It's yours to use, and answer for—  
Who is it? why, yourself!

### CHARITY GERMANS.

With charity, God will bring us in  
the right, and God gives us to  
see the right.—Eduard.

The desire of power in excess  
causes the angel to fall; the de-  
sire of knowledge in excess  
causes the head to fall, but in char-  
ity there is no excess; neither  
can sin nor man come to dan-  
ger by it.—Baron.

No sound ought to be heard  
in the church but the healing  
voice of Christian charity.—Burke.

### AM I A ONE FOR NEWRICH?

Mrs. Newrich had been told by her caller  
that a certain dinner party had "wound up  
with great hilarity." When her husband  
came home the naked host was "all-kid-  
mace."

"Why, that's the dessert, I guess," said  
Newrich. "Did you ever eat a chocolate  
a-kid?"

The Vice of Indigentation. Indigentation is  
a common ailment and few are free from it.  
It is a most distressing complaint and  
often the suffering attending it is most  
severe. The best remedy is Farnham's  
Vegetable Pills taken according to direc-  
tions. They rectify the irregular action of  
the stomach and restore healthy action.  
For many years they have been a standard  
remedy for dyspepsia and indigestion  
and are highly esteemed for their qualities.

### BRIEFS

Honor is a quality of honour that feels a  
stain like a wound.—Burke.

The war is going to produce a regener-  
ating force among the people and the force  
will find expression in the drama.—Mus-  
Sarah Hardart.

Those who are not going to help His  
Majesty's Government and their fellow-  
countrymen are going to help the enemy.—  
Mr. Duke, M. P.

John Bell is a bad start, though a good  
fisher. Yet the hare cannot be sure of  
always waking in time to win the race.  
It may oversleep itself.—Mr. D. Mac-  
Lennan.

### DURABLE

The admirables which Bob felt for his  
sister Margaret included all her attributes.  
"I don't care much for plate teeth like  
mine, And Margaret," said Bob, one day,  
after a long silence, during which he had  
watched her in laughing conversation with  
his mother. "I wish I had some copper  
toad coins like you."

Look About You

It is wonderful how much one can learn  
by cultivating the habit of observation.  
As you walk in the street or ride in the car  
you pick up a surprising amount of infor-  
mation. Our fellow beings are immensely  
interesting, and they are constantly teach-  
ing us something or other. Don't let your  
knowledge stagnate. Put it to some prac-  
tical use.

### Widow's Caps.

Who do widows wear caps? This is  
one of the things that every woman  
does not know. It is not because caps  
make them look pretty and interest-  
ing. It is because when the Housas  
were in England they learned the custom  
of sharing the last as a  
sign of mourning. Of course women  
couldn't let themselves be seen with  
heads bare so they made themselves  
caps.

I thought the old custom had  
passed, the caps remain—London Au-

### Wife Like One of Them.

"Tubed like," related old Dad Bill,  
the cattle baron, who is temporarily to  
our cattle, was rambling along in a  
street car when a batch of young col-  
lege students by their funny clothes  
and queer shaped heads. The car was  
pretty full, and they jostled and snor-  
ked and fought in the aisle, trans-  
lating unprintable words, containing  
similar frivolities that were. Blame  
they all raved loud and foolish loud  
a long yell. "Then the nearest one to  
me took hold at me and says:  
'Huh! my rural friend, don't you  
like it?' I like it! says I. 'I'm half  
wilted myself,'"—Exchange.

The World's Republics.  
There are twenty-four republics in  
the world, including the republics and  
so-called-republics of Mexico, the  
Central American states, South American  
states, Australia, New Zealand, Pyrenees mountain  
states, East Africa in wall as well as re-  
publics in the United States, France  
and Switzerland. The oldest republic  
in the world is East Mariana, in Italy, or  
the smallest state in Europe, next to  
Monaco, the smallest state in Europe. It  
is reported to have been founded in  
the fourteenth century.

Women in children work have. These  
parts attack the tender feelings of the in-  
dividuals and if left to pursue their ravages  
undisturbed, will ultimately perforate the  
wall. These worms are of the hook  
variety that cling to and feed upon interior  
surfaces. Miller's Worm Powder will not  
only exterminate these worms, of whatever  
variety, but will serve to repair the injury  
they have done.

### CRUEL PLANTS

It seems strange to call a cruel plant, but  
a recent writer shows that certain plants  
are quite cruel in their treatment of  
animals which come in contact with them.  
It is of course recognized that plants must  
take certain means to protect themselves  
against the attacks of animals. Some of  
the measures which have been adopted are  
positively vindictive. Take the case of  
the common Stinging Nettle. Here the  
plant is covered which induces hairs  
which penetrate the skin, and at the same  
time inject an irritant poison, the effect of  
which lasts for hours. Some of the trop-  
ical nettles are much more terrible. The  
following is an account taken from the  
Household Book of Dr. Joseph Hooker,  
in which an Indian nettle is described:  
"This plant, called 'tongue,' attains  
fifteen feet in height. It has broad leaves  
and those apparently without stings, as  
it grows in great dread that I had  
difficulty in getting them to help cut it  
down." No wonder the plant is avoided.  
If a person is stung by the microscope  
the results are appalling. The pain  
is at first comparatively slight, but after  
a few hours the affected part feels as if it  
were being rubbed with a hot iron. Later  
the most distressing symptoms arise in  
other parts of the body, which not uncom-  
monly involve the contraction of the muscle  
of the jaw, and other indications which  
are similar to be observed in a case of lock-  
jaw. In one instance it was nine days  
before the unhappy individual was free from  
pains and discomfort.

#### GOOD ADVICE

The other night at dinner a little girl  
surprised her mother by saying, "I'm not  
dusk on this table." "Maggie," said her  
mother reproachfully, "you're always  
slang out!" "What's a peach of a way of  
correcting a child?" remarked the father.  
"I know," replied the mother, "but I just  
wanted to put her wise"—Brooklyn Eagle.

### HONESTLY BELIEVED HE WAS GOING INTO CONSUMPTION.

### DR. WOOD'S Norway Pine Syrup CURED HIM.

Mr. Frank H. Anthony, 60 High  
Street, Winnipeg, Man., writes: "Having  
taken several bottles of Dr. Wood's  
Norway Pine Syrup, during the past few  
months, I have found it to be a great  
aid in my unbound satisfaction and  
trusts as to its sterling qualities. A  
gentleman who had been subject to violent  
coughing fits at night, directly after rising in the morning, for  
about an hour, and found it was gradually  
lessened, until it disappeared entirely,  
informed me that I should take a  
few drops of Dr. Wood's Pine Syrup  
as a cure for all those troubled in  
a like manner."

When you ask for "Dr. Wood's" say  
that you get what you ask for. It is  
not up in a yellow wrapper; three plain  
tubes the trade mark; the price, 25c  
each.

### WORK WHILE YOU MAY

He is no longer a child, but a World, or  
even a Workman. Productive product!

We are the ploddest, laziest, laziest
