Extract of Wild Strawberry. Dysentery manifests itself with varying degrees of intensity, but in well marked cases the attack is commonly preceded by loss of appetite, and some amount of diarrhoea, which gradually increases in severity, and is accompanied with griping pains in the abdomen. The discharges from the bowels succeed each other with great frequency, and the matter passed from the bowels, which at first resemble

those of ordinary diarrhoes, soon change their character, becoming scanty, mucous or alimy, and subsequently mixed with, or consisting wholly of, blood.

Never neglect what at first appears to be a slight attack of diarrhoes or dysentery may set in. Cure the first symptoms by the use of Dr. Fowler's Extract of Wild Streethers.

Dr. Fowler's Extract of Wild Strawberry. I nearly lost my little girl, aged three years. I took her to the doctor, and he told me her temperature was 104, and forbid me taking her out to our home, six miles from town, but I was forced to go on account of leaving my small haby home. We managed to get her home, but the fever did not go any lower, and we thought we would lose her sure, as she was so bad with dysentery she even passed blood. A neighbor came in and brought Dr. Fowler's Extract of Wild Strawberry, and told me to give her a few doses. This we did, and the next day she took a change for the better, but it was quite a time before she was on her feet again. # OTTAWA VALLEY AMAZED) BY THIS WONDERFUL PERFORMANCE

Nothing that has ever happened during our eight years' connection with the Motor industry, so thoroughly and completely demonstrates McLaughlin "Valve-in-Head" superiority as the recent phenomenal record established by Mr. G. B. McKay, of Ottawa, in his

55 horse power Six Cylinder "McLaughlin." Time and again we have made assertions concerning the merits of the "McLaughlin" product which, applied to any other motor car made, would amount to the wildest extravagance, but which, in view of this actual "McLaughlin" accomplishment, prove once more, and more conclusively than ever, that every statement we have made about the "McLaughlin" was exactly and precisely true. It proves that in no single assertion did we resort to exaggeration, but that, on the contrary, we understated the facts about this wonderful car.

Now let's see just what this "McLaughlin" did! The Tour from Ottawa to Gouverneur, N.Y., by way of Prescott and Ogdensburg, a distance of 140 miles, was open to all motorists running their own cars.

The start was made during a downpour of rain and for the first sixty miles the care ploughed through veritable seas of mud, up greasy hills, down treacherous valleys and over roads that were simply indescribable.

There were stringent rules laid down by the officials, and 1

and mishaps. Professional drivers were barred. Yet in spite of these conditions Mr. G. B. McKay in his "McLaughlin" won the tour, making a perfect score of 1,000 points. Three other "McLaughlin" owners won second, third and fourth prizes with scores almost perfect.

THE PHAST FOUR PRIZE WINNERS IN THE CONTEST WERE: 1st Prizo-G. B. McKuy (McLaughlin Model C 53), scored 1000 points. End Prizo-E. F. Code (McLaughlin Model B

37), scored ods points. ard Prizo-F. Wilson (Mclaughlin Model D 4th Prize-Dr. 15. 15. Pallister (McLaughlia Madel D 45), scored 005 points.

An interesting point worth noting is the fact that the columny far made the four over these muddy and rough rends with a passing consump. tion, arcraging 17 miles to the pallon. No other but a McLaughlin "Valer-in-Head" Motor could make such a showing-a six cylinder, 55 horsepower car, over muddy roads and making 17 miles

In such feats as this there is proof positive that the "McLaughlin" is all and more than we have ever contended for it. Here is proof of the power of the famous "Valve-in-Head" Motor with which all "McLaughlins" are equipped. and proof of the sturdy and enduring value in the drop forged steel with which the "McLaughlin" is strengthened against the patress and shocks of every-day use.
