THE FAR-AWAY FIELDS

There's nothing half so easy as the other fellow's job;
The frying pan would like to be the kettle on the hob;
But while such thoughts of envy across your mind do chase,
There may be some other fellow just a-yearning for your place.

No landscape's half so gorgeous as the one that's far away;
We miss the tender beauty of what meets us every day;
But ye who go a-seeking—do ye?—ye do not wist
That there's many would be happy just to see what you have missed.

No chance is half so pregnant as the one that didn't come—
Opportunities in embryo slip away beneath your thumb;
Rail at fortune! Blast your stars! Curse on your unlucky day?—
There are thousands would be thankful for the chance you throw away!

HELPFUL HINTS

An envelope with the corners cut off is handy to fill your salt and pepper boxes.

Rubbing shoes with castor oil keeps them from cracking, making them soft and pliable.

Figs are delicious baked several hours, with lemon juice and lemon rind to give added flavor.

Ten cent's worth of skim milk has more nourishment in it than the same money's worth of steak.

Three of the cheapest foods we have are hominy, corn meal and rice and there are many ways of using them.

Allow one level teaspoonful of salt to flavor a quart of soup, sauce or water in which vegetables are to be cooked.

The best time to clean the meat grinder is immediately after it is used. The particles of meat do not dry, and will wash off easily.

If a metal spoon is left in the saucepan the contents will not boil quickly, because the space carries off a great deal of heat.

Glassware should always be washed in a wooden bowl, as there will be far less chance of its getting broken.

Needlework should be ironed on the wrong side on a piece of flannel, and should then be kept long enough under the iron to thoroughly dry it.

If you are in the habit of lending books it pays to keep name of books, name of person who has it and date of loan. Then erase out the name when the book is returned.

HAD KIDNEY TROUBLE
For SEVERAL MONTHS
DOAN'S KIDNEY PILLS
CURED HIM.

Mr. Fred. Stevens, Raymond, Alta., writes: "I am writing to bear my testimony of your wonderful medicine. I had suffered for several months with kidney trouble. I had been under the doctor's care for two months, when I read your advertisement. I at once purchased four boxes of Doan's Kidney Pills, and when I had used two boxes of them I was cured. I have recommended this treatment to several of my friends."

When you ask for Doan's Kidney Pills see that you get "Doan's." The wrapper is grey and our trade mark "The Maple Leaf" appears on every box.

Doan's Kidney Pills are 50 cents per box, or 3 boxes for $1.25; at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering direct specify "Doan's."

Asthma Victims. The man or woman subject to asthma is in lead a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

Unable To Sleep Or Do Any Work.
SUFFERED FROM HER NERVES.

Mrs. Thomas Harris, 8 Corrigan St., Kingston, Ont., writes: "I had been a constant sufferer, for many years, with my nerves, and was unable to sleep at night, or do any work through the day. I at last decided to consult a doctor and find out what was really the trouble. The first one told me I would have to go under an operation before I would be well, but I would not consent to this. One day I took a fit of crying, and it seemed that if anyone spoke to me I would have to order them out of the house. I must have been crying two hours when my insurance agent came in. He advised me to try a box of Milburn's Heart and Nerve Pills, and I at once sent to the drug store and got two boxes, and before I had them taken I felt like a different person. I have told others about them, and they have told me they would not be without them. I am very thankful I started to take Milburn's Heart and Nerve Pills."

Milburn's Heart and Nerve Pills are 50 cents per box, or 3 boxes for $1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

WAR TO END THIS WINTER.

So Says General Creagh in Discussion of Situation.

LONDON, Sept. 13.—General Sir O'Moore Creagh, formerly Commander-in-Chief in India, writing in The Weekly Dispatch on "Why the war will end this winter," says:

"Recent events on all theatres of war have been uniformly successful for the Allies. The Austro-German armies have everywhere received sufficient blows, while their lines are in a precarious state. The Central Alliance has been defeated, not crushed. The only acceptable finish can be their complete crushing, so as to prevent further mischief.

"It is therefore necessary to make the German nation realize the hopeless situation before complete surrender will be brought about. Already the morale of the nation is affected. The Germans no longer talk of annexing their neighbors' properties. Their general staff bulletins are filled with bigger lies than ever. These stimulants are required to keep up the people's spirits.

"I am of the opinio nthat the war will not last over winter. Napoleon said: 'In war moral power is to the physical power as three to one.' We have the advantage of both moral and physical power."

Negroes to Go to France.

PETROGRAD, Sept. 13.—General Louis Botha, Premier of the South African Union, announced Saturday that an arrangement had been made to send 10,000 natives to France for dock labor. Was Troubled With CONSTIPATION
FOR OVER FIVE YEARS.

Unless one has a free action of the bowels, at least once a day, constipation is sure to ensue, then in the wake of constipation comes sick headache, bilious headaches, jaundice, piles, and many forms of liver complaint.

Milburn's Laxa-Liver Pills will regulate the flow of bile to act properly upon the bowels, thus making them active and regular, and removing the constipation and all its allied troubles.

Mr. Phil. C. Robichaud, Pokemouche, N.B., writes: "I have been troubled with constipation for over five years, and I feel it my duty to let you know that your Milburn's Laxa-Liver Pills have cured me. I only used three vials, and I can faithfully say that they have saved me from a large doctor's bill."

Milburn's Laxa-Liver Pills are 25 cents per vial, or five vials for $1.00; for sale at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

HOW TO KEEP WELL

BY JOHN W. S. McCULLOUGH, M.D., D.P.H., CHIEF OFFICER OF THE PROVINCIAL BOARD OF HEALTH.

There are two great obstacles to preventive medicine which is the best medicine, and these are poverty and ignorance. The greatest cause of poverty—that is, real downright need—is sickness. Sickness causes at least one-third of the world's poverty. Several other things, including alcohol, account for the other two-thirds. Money in the form of higher wages helps in a large measure to obviate poverty and the sickness which oftentimes lies at its door. Perhaps the most noted health man in America at the present time is Colonel (Dr.) Gorgas, the man whose energies succeeded in making the Panama Zone inhabitable by white people. Colonel Gorgas asserts that two diseases carried by the mosquito—Malaria and Yellow Fever—drove the white man from the easy living tropics to the inclement north. His enterprise is allowing him to return there. He asserts further (for, like all public health men, his assertions are marked by personal modesty) that the Panama Canal project was made feasible by the fact that the workingmen there were paid the highest wages of any place in America. Money may be an evil. It sometimes is; but it has its good uses. The other great foe of public health advancement is ignorance; that is, want of knowledge of what is good for one's health. This column is out against ignorance of this character.

PREVENTION OF DISEASE

The writer hopes that everyone who sees this paper will read this column. Especially is it desired that the children shall become interested in it, for they, after all, are the portion of the population who are most susceptible to education. The older ones, more set in their ways, will not perhaps take all that is set down here as gospel—although it more nearly approaches gospel than anything else found outside the Good Book—but the children will perhaps gain some good from it. By the way, there is some good public health advice, none better, found in the Old Testament: read Exodus and Leviticus.

DISINFECTION

Following an outbreak of communicable disease in a home the room occupied by the sick person should be thoroughly cleaned. The floors should be scrubbed with soap and hot water and the walls wiped with a solution of 1 in 3,000 bichloride of mercury, carbolic acid, or cresol 1 in 20. Unless the circumstances seem to the Medical Officer of Health to demand it the room need not be fumigated by means of formaldehyde or sulphur.

DIPHTHERIA CARRIERS

It is well known that outbreaks of diphtheria and other diseases, including scarlet fever, cerebro-spinal meningitis and typhoid fever, are influenced by carriers," persons who are quite well and have not recently suffered from the diseases, but who convey disease to others. This is very often the reason of the obscure origin of serious epidemics. Numerous investigators have found diphtheria bacilli in the throat and nose of from one to four per cent. of healthy persons. Among the scarlet fever patients in the Willard Parker Hospital, New York, 4.5 per cent. of diphtheria carriers were found, and in one-half of these the bacteria were virulent, as shown by reaction in guinea pigs. No local treatment is entirely satisfactory in exterminating the germs of the disease. Some of the persistent cases were those with deep pockets in the tonsils, and the complete removal of these tonsils usually give satisfactory results. Carriers of diphtheria bacilli do not themselves contract diphtheria, but they are a common source of trouble to others.

QUESTIONS.

ANSWERS TO QUESTIONS

A.B.: Q.—How shall I get rid of vermin in a child's head?

A.—The hair should be washed with soap and warm water, dried, and then soaked in gasoline or coal oil with a towel tied about the head over night. Next morning the hair should be carefully combed with a fine-tooth comb dipped in acetic acid or vinegar to remove the nits. One, or at most two treatments like this will usually clean the matter up.

Q.—How much Antitoxin is safe to give to a child seven years old?

A.—The quantity of Diphtheria Antitoxin required for any case depends upon the severity of the case. There is practically no danger from any quantity from 5,000 to 30,000 units. Don't hesitate to use plenty of it. It is supplied free by the Provincial Board of Health.

WHY SHE OBJECTED

"I hear that Florrie has broken off her engagement with you old chap," said one man to another.

"Yes," replied the second.

"I say, I'm awful sorry to hear it. Whatever did she do it for?"

"Just because I stole a kiss," said the disconsolate one, sadly.

"Great Scott!" exclaimed his friend. "Surely she must be crazy if she objects to her fiance stealing a kiss from her."

The abandoned one sighed deeply.

"But that's just the trouble," he said. "I didn't steal it from her!"

There is no more effective vermifuge on the market that Miller's Worm Powders. They will not only clear the stomach and bowels of worms, but will prove a very serviceable medicine for children in regulating the infantile system and maintaining it in a healthy condition. There is nothing in their composition that will injure the most delicate stomach when directions are followed, and they can be given to children in the full assurance that they will utterly destroy all worms.

A drop of ink is black, but it serves to enlighten many.

At the glorious feast of knowledge some people never get any farther than the soup.

They say is takes two to make a quarrel, but one meddlesome gossip has often done it alone.

GOT DIARRHOEA FROM DRINKING BAD WATER.

People moving from one place to another are very subject to diarrhoea on account of the change of water, change of climate, change of diet, etc., and what at first appears to be but a slight looseness of the bowels should never be neglected or some serious bowel complaint will be sure to follow.

The safest and quickest cure for diarrhoea, dysentery, colic, cholera, cholera morbus, cholera infantum, pains in the stomach and all looseness of the bowels is Dr. Fowler's Extract of Wild Strawberry.

Mr. Ernest Jeffery, Moose Jaw, Sask., writes: "A few years ago, when I first came out to Canada, I went to the harvest field to work. Somehow or other the water did not agree with me. I had the diarrhoea so bad that blood was coming from me, and I thought my last days had come. One of the harvest hands advised me to take Dr. Fowler's Extract of Wild Strawberry, and before I had used the bottle I was able to go to work again. My advice to all is always keep a bottle of this wonderful diarrhoea cure on hand."

Dr. Fowler's" has been on the market for the past seventy years, and has been used in thousands of Canadian homes during that time, and we have yet to hear of a case of bowel complaint where it has not given perfect satisfaction.

The genuine "Dr. Fowler's" is manufactured only by the T. Milburn Co., Limited, Toronto, Ont.
