EDITORIAL NOTES

Putt believe and deceptive advertising was condemned in a resolution presed to the Association of Canadian Advortisers meeting in Toronto last week. The es sociation went on record as approved to advertising that is questionable ; that is in decent, sulgar or suggestive : that is am biguous in wording and is calculated to tololoid : that exaggerates ; that reflects on the products of conjectitors and that makes whiteling free offers.

Dominion Association of Fire Chiefe recomtriended the placing of the control of all Fire Brigades in the hands of an independest local commission consisting of not lass than three members. Home such control would seem to be desirable. In many towas the Municipal Council have undertakes control and all persons proposed as members are submitted to the Council for approval or otherwise. In these towns the officers of the brigade are also elected by the Council.

THE TRINCY gald to the ladies of Acton Red Cross by Borgt. Harwood, at the recoption tendered bim by the citizens on Mosday evening, was highly complimentary to their kind-bearted interest and skilful ladustry. That the hope at the front appreciate highly the results of their activitles has received ample testimony. Bergt. Harwood's kind words, coming direct with front line experiences, are not only highly appreciated but will perhaps inspire other ladles to join those of the Rad Cross who have been so persistently appressive during the past two years in providing comforts for the man at the front, and emulate their worthy example.

THERE Was considerable speculation at the recent Bouth Toronto byo-election concarning the probability of securing a modification of the Ontario Temperance Act at the next session of the Logislature, by introducing a clause providing for wine and ear licenses. This hope on the part of the liquor people has now been entirely dispelled. At a Conservative meeting in Terente last week Hon. O. Howard Forguson said very emphatically : "Regarding the Ontario Temperanco Act I want to say that while our boys are lying dying and bleeding on the battlefields of Belgium wo thought it wise to put the present hill on the statute books. I want to say that that is where it will commin untampered and uninterfered with in any way, shape or

"THE WALL STREET GIRL"

This new book by Frederick Orin Bartlott is a sweet old-fashioned love story with entirely new and unique setting. It is a romance of present day Now York and of a young man's interesting relations with two young ladies, a levelturnips. The price paid this year is the houded stenographer, who had true and practical views of life, and who is the beroine of the story ; and the wealthy and farcliniting flances who was betrothed to him in the days of his affuence prior to the death of his father. His father's will off his income abruptly, rendering it neces sary that he should put into practical use the theories of his Harvard University onerse which he had never valued. True vious of life are impressively inculested throughout the story and no young man or woman oun read this delightful romance without having the emotions stirred in most healthy mumer. Aspirations to live a true, usoful, beme-loving life will also be implented. This is one of that class of books so interesting that the reader is impolled to sit up nights to finish it. It is illustrated by George Ellis Wolls. Published by Wm. Brigge, Toronto. Price
