BORN

WALKER.—In Guelph, on Wednesday, 21st March, 1916, to Mr. and Mrs. Harvey Walker, a son.

IN MEMORIAM

DOBBIE.—In loving memory of William Dobbie, who died March 27th, 1915.

Do not ask if we now miss him,
Oh there's such a vacant place;
Oft in fancy we hear his footsteps,
Or we see his smiling face.
He has gone to brighter regions,
Free from every grief or care,
We shall see him again in heaven,
And there'll be no parting there.
Angels guard you, darling Father,
May your heart ring loud and clear,
Leaving notes of love behind you
To the ones who loved you dear.

EDITORIAL NOTES

PREMIER SIFTON STATED in the Legislature on Monday that the Alberta Liquor Act will be amended to restrict private houses from having more than one quart of spirits and one gallon of malt liquor at one time. Some similar amendment will still further improve conditions in Ontario.

THE FINANCE MINISTER has officially announced that subscriptions for the New War Loan amounted to $250,000,000 of "new money." That is to say, the loan was over-subscribed to the extent of $100,000,000. "One thing it has demonstrated, and that is that Canada, if she chooses, can do her own war financing among her own people," said Sir Thomas White, speaking of the third war loan.

THE ONTARIO GOVERNMENT has extended the Compensation Act so that the cost of first aid is now included amongst its benefits to workmen. This relieves the employee of a payment that was in many cases a hardship. Other minor extensions of the Act are also to be made along the lines suggested by the labor interests. The Workmen's Compensation Act is a practical demonstration of the Government's sympathy with the workingmen.

THERE IS A MOVEMENT now on foot in England to put the liquor business centrally under Government control. British liquor interests declare that the drastic cuts in the manufacture of spirits and beer will drive 30,000 public houses to the wall. The estimate does not seem exaggerated. The retail trade cannot escape the logical consequences of the British Government's decision to keep for food use the larger part of the grain, sugar and other commodities formerly used in making spirituous liquors.

SEVERAL AMENDMENTS to the Ontario Temperance Act have been made. The License Board and its officers are given power to investigate books, shipping bills, etc., of express companies to determine what business is being done in liquor and to carry out the act more effectively. Provision is made for re-enacting the "Indian List" to deal with excessive drinkers. An amendment also provides that Standard hotels shall be released from business tax to the end of 1919. The principle of prohibition in the act is not affected.

AN ORDER-IN-COUNCIL has been approved by the Lieutenant Governor for a grant of $11,320.75, being 40 per cent. and 20 per cent. respectively of the amounts expended in Halton during 1916 on construction and on maintenance and repair of county roads. This is the first grant for maintenance and repairs in the county since the new act was passed. It means much for the future of our good roads system. We have now nearly one hundred miles of stone roads in the county. If the necessary repairs are now carefully looked after we will have good permanent roads which will be a great credit to the county.

IN THIS WAR every additional dollar that Canada can produce from the field, the forest, the fishery, or the mine, is a silver bullet to defeat the enemy; yet Canada has been importing building timber from abroad, while in her own forests better timber than that imported was going to waste. The Department of the Interior has established the Forest Products Laboratories of the Forestry Branch to assist Canadians to make the best use of their forest resources. The Laboratories have just finished investigating those Canadian woods used for building purposes and have found that some of them are superior to the timbers imported and as cheap or cheaper.

RACE TRACK GAMBLING, particularly during the war, has come in for a great battering from Liberal members in the Legislature. It was Lambert Wigle, member for South Essex, who brought the matter before the House. He objected particularly to the establishment last year of two more race tracks in the vicinity of Windsor, which makes a total of three, in that city alone, operating 42 days in the year. "In this time of war," said Mr. Wigle, "we need every bit of our energy and strength for the successful prosecution of the war." He thought that the allowing of race track gambling was a crying shame. Professional gamblers and crooks, driven from the States, were finding a place to carry out their designs in Ontario. Sam Carter, M. P. P. for South Wellington, thought that race track gambling in Ontario was an outrageous scandal. Men sitting in high places were making fortunes through their connection with race tracks.

NASSAGAWEYA

The box social last week was a record breaker. The receipts were $143. One box sold for $12 and another for $10. Sergt. Hendley was the effective auctioneer. Reeve Carton occupied the chair.

Mr. Frank Sayers' big sale last Friday was a great success.

Mr. Mahon has rented his farm lot 22, con 4, to Mr. Collier of the Scotch Block, Esquesing. Mr. Collier moved in last week.

Mr. Ridgewell, who had the house of Mr. Mahon rented for a time, moved last week into the stone cottage of Mr. W. J. Akins, near Ebenezer Church, which he has rented.

On Tuesday morning of last week, while Mr. Charles A. Darby was harnessing one of his horses it kicked out as some loose straps touched him, and struck him on the right leg near the knee. There were no bones broken but his leg got such a wrench that he will be laid up for some time.

BETTER FIRE ALARM SYSTEM

Petitioned for by Residents of the East End of the Town

DR. BELL COMPLAINS OF POOR SURFACE DRAINAGE

The regular fortnightly meeting of the Municipal Council was held on Monday evening.

Members were all present; Reeve Hynds occupied the chair.

A petition signed by every resident east of the G. T. R. tracks requested that provision be made for sending in fire alarms from that end of the town, instead of being obliged to go the town hall to ring in an alarm.

The Council gave the matter their attention and will consider what system may be devised for securing a prompt and adequate alarm in case of fires.

Such a system was installed twelve or fifteen years ago with an alarm bell, and an electric fire alarm from an assistant engineer's house resident in the east. Why it was allowed to get out of repair and the wires from that section to the town hall removed, none of the present members of the Council or the town officials seem to be informed.

Dr. J. M. Bell appeared before the Council to complain of the troublesome freshet which overflowed the street and the pavements and flooded his cellar to the depth of several feet last week. He does not relish the offal of the streets being deposited in his basement and made an earnest plea that some adequate system of catch basins and drains be put in to carry off the surface drainage.

The Street Commissioner will look into the matter.

The sixth report of the Committee on Finance recommended payment of the following accounts:
